

migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

The National Defense Authorization Act for Fiscal Year 2004 (Pub. L. 108–136) removed the “small numbers” and “specified geographical region” limitations indicated above and amended the definition of “harassment” as it applies to a “military readiness activity” to read as follows (Section 3(18)(B) of the MMPA): (i) Any act that injures or has the significant potential to injure a marine mammal or marine mammal stock in the wild (Level A Harassment); or (ii) Any act that disturbs or is likely to disturb a marine mammal or marine mammal stock in the wild by causing disruption of natural behavioral patterns, including, but not limited to, migration, surfacing, nursing, breeding, feeding, or sheltering, to a point where such behavioral patterns are abandoned or significantly altered (Level B Harassment).

#### Summary of Request

On August 10, 2018, NMFS received an adequate and complete application from the USAF requesting a letter of authorization (LOA) for the take of six species of marine mammals (all pinnipeds), by Level B harassment only, incidental to launching space launch vehicles, intercontinental ballistic and small missiles, and aircraft and helicopter operations at VAFB. The USAF is requesting a 5-year LOA for these activities. These activities may result in the take of marine mammals as a result of noise or visual disturbance.

#### Description of the Specified Activity

VAFB supports launch activities for the USAF, Department of Defense, National Aeronautics and Space Administration, and commercial entities. VAFB is the primary launch facility on the West Coast of the United States for placing commercial, government and military satellites into polar orbit on unmanned launch vehicles, and for the testing and evaluation of intercontinental ballistic missiles (ICBMs) and sub-orbital target and interceptor missiles. In addition to space vehicle and missile launch activities at VAFB, occasional helicopter and aircraft operations involve search-and-rescue, delivery of space vehicle components, launch mission support, security reconnaissance, and training flights.

There are currently six active facilities at VAFB used to launch satellites into polar orbit. These facilities support launch programs for the Atlas V, Delta II, Delta IV, Falcon 9 and Minotaur rockets. A variety of small missiles are

also launched from various facilities at VAFB, including Minuteman III, an ICBM which is launched from underground silos. In addition, several types of interceptor and target vehicles are launched for the Missile Defense Agency, which develops various systems and elements, including the Ballistic Missile Defense System.

The USAF anticipates that no more than 15 missile and 50 rocket launches would occur in any year, with total launch activities not exceeding 75 missile and 250 rocket launches over five years. All launch operations would occur at VAFB, potentially resulting in impacts to marine mammals at VAFB (as a result of launch noise and visual stimuli) and at the Northern Channel Islands (as a result of noise from sonic booms). A full description of the activities to be conducted by the USAF at VAFB, including descriptions of the space vehicles and missiles proposed for use, is provided in the USAF’s application.

#### Information Sought

Interested persons may submit information, suggestions, and comments concerning the USAF’s request (see ADDRESSES). NMFS will consider all information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by the USAF, if appropriate.

## COMMODITY FUTURES TRADING COMMISSION

### Renewal of the Global Markets Advisory Committee

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Notice of Global Markets Advisory Committee renewal.

**SUMMARY:** The Commodity Futures Trading Commission (Commission) is publishing this notice to announce the renewal of the Global Markets Advisory Committee (GMAC). The Commission has determined that the renewal of the GMAC is necessary and in the public's interest, and the Commission has consulted with the General Services Administration's Committee Management Secretariat regarding the GMAC's renewal.

**FOR FURTHER INFORMATION CONTACT:** Andrea Musalem, GMAC Designated Record Officer, at 202-418-5167 or [amusalem@cftc.gov](mailto:amusalem@cftc.gov).

**SUPPLEMENTARY INFORMATION:** The GMAC's objectives and scope of activities are to conduct public meetings, and to submit reports and recommendations on matters of public concern to the exchanges, firms, market users, and the Commission regarding the regulatory challenges of a global marketplace, which reflect the increasing interconnectedness of markets and the multinational nature of business. The GMAC will help the Commission determine how it can avoid unnecessary regulatory or operational impediments to global business while still preserving core protections for customers and other market participants. The GMAC will also make recommendations for appropriate international standards for regulating futures, swaps, options, and derivatives markets, as well as intermediaries.

Additionally, the GMAC will assist the Commission in assessing the impact on U.S. markets and firms of the Commission's international efforts and the initiatives of foreign regulators and market authorities. The GMAC will also assist with identifying methods to improve both domestic and international regulatory structures while continuing to allow U.S. markets and firms to remain competitive in the global market.

The GMAC will operate for two years from the date of renewal unless the Commission directs that the GMAC terminate on an earlier date. A copy of the GMAC renewal charter has been filed with the Commission; the Senate Committee on Agriculture, Nutrition and Forestry; the House Committee on Agriculture; the Library of Congress; and the General Services Administration's Committee Management Secretariat. A copy of the renewal charter will be posted on the Commission's website at <http://www.cftc.gov>.

Dated: September 10, 2018.
