§ 52.2570 Identification of plan.

(c) * * * * * * * * * * (121) On September 11, 2009, the Wisconsin Department of Natural Resources (WDNR) submitted a State Implementation Plan (SIP) revision request. The State’s ambient air quality standards were revised by adding fine particulate matter, PM2.5, standards and revising the coarse particulate matter, PM10, standards. Wisconsin added annual and 24-hour PM2.5 standards. It also revoked the annual PM10 ambient air quality standard while retaining the 24-hour PM10 standard. On January 4, 2018, the WDNR submitted a SIP revision request updating its ambient air quality standards for fine particulate matter to be consistent with EPA’s 2012 revisions to the fine particulate matter national ambient air quality standards. Wisconsin also revised its incorporation by reference rule to update references to the EPA monitoring methods.
