### Forest Service

*Title:* Environmental Justice and the Urban Forest in Atlanta, GA.

*OMB Control Number:* 0596–0237.

*Summary of Collection:*

Environmental justice is defined by the Environmental Protection Agency as the “fair treatment and meaningful involvement of *all* people . . . with respect to the development, implementation, and enforcement of environmental laws, regulations and policies.” This information collection addresses environmental justice in urban settings. Cities are often (though not always) places of particular concern for environmental justice inquires due to the greater concentration of environmental pollutants and human populations. The following statutes and regulations are relevant to this request for information collection: Executive Order 12898, Memorandum of Understanding on Environmental Justice and Executive Order 12898, National Environmental Policy Act of 1969 (Pub. L. 91–190), the Civil Rights Act of 1964 (Pub. L. 88–352).

*Need and Use of the Information:* The study provides an integrated approach to assessing residents' relationship to the urban forest. The collection addresses environmental justice from the perspective of urban trees; and how this resource may contribute to environmental justice in a given community or neighborhood. The agency will use this information to determine whether their programs, policies, and activities have disproportionately high and adverse human health or environmental effects on minority populations and low-income populations. If the information is not collected, efforts at the federal level to evaluate environmental justice will remain limited to methodologies that reproduce incomplete assessments of environmental justice.

*Description of Respondents:* Individuals or households.

*Number of Respondents:* 1,900.

*Frequency of Responses:* Reporting: Other (one time).

*Total Burden Hours:* 215.
