

West Virginia received approval from the EPA to assume the NPDES program.

EPA's regulations at 40 CFR 123.62 establish procedures for revision of authorized state NPDES programs. Under § 123.62(a) a state may initiate a program revision and must keep EPA informed of proposed modifications to its statutory or regulatory authority. On May 13, 2015, West Virginia notified the EPA of enactment of HB 2283. On July 10, 2015, West Virginia submitted SB 357 for formal review by the EPA. Following additional correspondence between the EPA and the West Virginia Department of Environmental Protection and the West Virginia Environmental Hearing Board, the EPA has determined pursuant to 40 CFR 123.62(b)(1) that it has received such documents as are necessary for its review under the circumstances.

Section 123.62(b)(2) requires the EPA to issue a public notice and to provide at least a 30-day public comment period whenever the EPA determines that a state program revision is substantial. Section 123.62(b)(2) also requires the EPA to hold a public hearing regarding the proposed revision "if there is significant public interest based on requests received." The EPA has determined that HB 2283 and SB357 constitute substantial revisions to West Virginia's NPDES program.

According to the West Virginia Department of Environmental Protection, SB 537 amends West Virginia Code § 22-11-6(2) and § 22-11-8(a) to prohibit the incorporation or enforcement of water quality standards either expressly or by reference as effluent standards or limitations in West Virginia NPDES permits. SB 537 also adds West Virginia Code § 22-11-22a to establish a mining industry specific procedure to collect civil or administrative penalties and to enjoin violations of the West Virginia Water Pollution Control Act. HB 2283 revises W. Va. CSR 40-30-5f to delete the following language: "The discharge or discharges covered by a WV/NPDES permit are to be of such quality so as to not cause a violation of applicable water quality standards promulgated by 47 C.S.R. 2."

The 40 CFR 123.62(b)(3) states that the EPA will approve or disapprove program revisions on the requirements of this part. Furthermore 40 CFR 123.62(b)(4) indicates that a program revision shall become effective upon the approval of the EPA. Notice of approval of any substantial revision shall be published in the **Federal Register**.

The EPA will consider public comments received before October 17, 2018 when determining whether to

approve the WV NPDES Program revision.

*Acting Director, Water Protection Division,
U.S. Environmental Protection Agency,
Region 3.*
