Proposed Establishment of Class E Airspace, and Amendment of Class D Airspace and Class E Airspace; Dothan, AL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish Class E surface airspace at Dothan Regional Airport, Dothan, AL. The Class E surface airspace would be established for the safety of aircraft landing and departing the airport when the air traffic control tower is closed. Also, this action proposes to amend Class D airspace by updating the airport’s name and geographic coordinates, as well as replacing the outdated term ‘Airport/Facility Directory’ with ‘Chart Supplement’. Additionally, the geographic coordinates of the airport and Wiregrass VORTAC would be adjusted in the associated Class E airspace to match the FAA’s aeronautical database; as well as removing the part-time status of the airspace for Class E airspace designated as an extension to a Class D surface area. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at this airport.
