

Commission's Rules of Practice and Procedures (18 CFR 385.214). Motions to intervene are more fully described at <http://www.ferc.gov/resources/guides/how-to/intervene.asp>. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the Projects is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Western Area Power Administration

Pacific Northwest-Pacific Southwest Intertie Project—Rate Order No. WAPA–181

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of rate order extending transmission service rates.

SUMMARY: The Deputy Secretary of Energy extends, on an interim basis, the existing Pacific Northwest-Pacific Southwest Intertie Project (Intertie) transmission service rates through September 30, 2020. Existing Rate Schedules INT–FT5 and INT–NFT4 expired on April 30, 2018. The Administrator of the Western Area Power Administration (WAPA) approved rates for short-term sales of firm and non-firm transmission service on April 26, 2018, to cover the period

between May 1, 2018, and the date this rate extension goes into effect or October 31, 2018, whichever occurs first. The extended transmission service rates will be in effect on an interim basis until the Federal Energy Regulatory Commission (FERC) confirms, approves, and places them into effect on a final basis, or until they are replaced by other rates.

DATES: Transmission Service Rate Schedules INT–FT5 and INT–NFT4 will become effective October 22, 2018, and will remain in effect through September 30, 2020.

FOR FURTHER INFORMATION CONTACT: Mr. Ronald E. Moulton, Regional Manager, Desert Southwest Customer Service Region, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005–6457, or Ms. Tina Ramsey, Rates Manager, Desert Southwest Customer Service Region, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005–6457, (602) 605–2565, or e-mail dswpwrnrk@wapa.gov.

SUPPLEMENTARY INFORMATION: By Delegation Order No. 00–037.00B, effective November 19, 2016, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to WAPA's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to FERC.

Rate Schedules INT–FT5 and INT–NFT4 under Rate Order No. WAPA–157¹ were approved by FERC for a 5-year period through April 30, 2018. WAPA's Administrator approved the use of existing Intertie rates under his authority to set rates for short-term sales to cover the period between May 1, 2018, and the date this rate extension goes into effect or October 31, 2018, whichever occurs first.

In accordance with 10 CFR 903.23(a), WAPA is extending the Intertie transmission service rates under Rates Schedules INT–FT5 and INT–NFT4. Extending these rate schedules through September 30, 2020, will provide WAPA and its customers time to evaluate the potential benefits of combining transmission rates on Federal projects located within WAPA's Desert Southwest Region. Combining rates may lead to more efficient use of the Federal

transmission systems, diversify the customers who use those systems, and be financially advantageous. If, after a thorough evaluation, WAPA determines that combining transmission rates will produce material benefits, it would initiate a rate adjustment to combine the rates.

The notice of proposed rate extension was published in the **Federal Register** on March 9, 2018 (83 FR 10475). In accordance with 10 CFR 903.23(a), WAPA determined it was not necessary to hold a public information or public comment forum but provided a 30-day consultation and comment period on the proposed rate extension. The consultation and comment period ended on April 9, 2018.

Following DOE's review of WAPA's proposal, I hereby approve Rate Order No. WAPA–181, which extends existing Transmission Service Rate Schedules INT–FT5 and INT–NFT4 through September 30, 2020. Rate Order No. WAPA–181 will be submitted to FERC for confirmation and approval on a final basis.

Dated: September 11, 2018.

Dan Brouillette,

Deputy Secretary of Energy.
