

HCV, as required under § 610.40(e) (21 CFR 610.40(e)). The draft guidance also provides guidance to blood establishments on how to report the implementation of these recommendations.

In accordance with § 610.40(e), each donation, including autologous donations, found to be reactive by a donor screening test must be further tested using a licensed, approved, or cleared supplemental test, when available. If no such supplemental test is available, blood establishments must perform one or more licensed, approved, or cleared tests as adequate and appropriate to provide additional information concerning the reactive donor's infection status (§ 610.40(e)). The draft guidance provides recommendations for adequate and appropriate testing under § 610.40(e), with the licensed HCV NAT (nucleic acid test) and anti-HCV donor screening tests that are currently available, to provide additional information concerning the anti-HCV reactive donor's infection status. The draft guidance, when finalized, will update the recommendations related to the use of an appropriate multiantigen supplemental test contained in "Guidance for Industry: 'Lookback' for Hepatitis C Virus (HCV): Product Quarantine, Consignee Notification, Further Testing, Product Disposition, and Notification of Transfusion Recipients Based on Donor Test Results Indicating Infection with HCV" dated December 2010.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on further testing of donations that are reactive on a licensed donor screening test for antibodies to HCV. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

II. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR part 601 have been approved under OMB control number 0910–0338; and the collections of information in 21 CFR part 610 and

21 CFR 630.40 have been approved under OMB control number 0910–0116.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of February 16, 2018 (83 FR 7052), FDA published a notice announcing the public meeting entitled “Pediatric Medical Device Development” with a 30-day comment period post the meeting to request comments. The public meeting was held on August 13 and 14, 2018. FDA is reopening the comment period for the public meeting until November 26, 2018. The Agency believes that this will allow adequate time for interested persons to submit comments without significantly delaying action by the Agency.

Dated: September 19, 2018.

[Docket No. FDA-2018-D-3324]

Recommendations for Requalification of Blood Donors Deferred Because of Reactive Test Results for Antibodies to Human T-Lymphotropic Virus Types I and II; Draft Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a draft document entitled “Recommendations for Requalification of Blood Donors Deferred Because of Reactive Test Results for Antibodies to Human T-Lymphotropic Virus Types I and II (anti-HTLV-I/II); Draft Guidance for Industry.” The draft guidance document provides blood establishments that collect Whole Blood and blood components with recommendations for a requalification method for deferred donors, based on a determination that their previous reactive test results for anti-HTLV-I/II were falsely positive.

DATES: Submit either electronic or written comments on the draft guidance by December 24, 2018 to ensure that the Agency considers your comment on this draft guidance before it begins work on the final version of the guidance.
