

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 117**

[Docket No. USCG–2018–0085]

Drawbridge Operation Regulation; Anacostia River, Washington, DC**AGENCY:** Coast Guard, DHS.**ACTION:** Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Frederick Douglass Memorial Bridge across the Anacostia River, mile 1.2, at Washington, DC. The deviation is necessary to accommodate the construction and replacement of the existing Frederick Douglass Memorial Bridge with a fixed bridge on an alignment 18 feet south of the existing bridge. The current Frederick Douglass Memorial Bridge will be removed in its entirety. This deviation allows the bridge to remain in the closed-to-navigation position during construction.

DATES: This deviation is effective from 6 a.m. on February 2, 2018, through 6 a.m. on August 1, 2018.

ADDRESSES: The docket for this deviation, [USCG–2018–0085], is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Marty Bridges, Bridge Administration Branch Fifth District, Coast Guard; telephone (757) 398–6422, email Martin.A.Bridges@uscg.mil.

SUPPLEMENTARY INFORMATION: The District of Columbia Department of Transportation, who owns and operates the Frederick Douglass Memorial Bridge, has requested a temporary deviation from the current operating regulation. This temporary deviation is necessary to facilitate the construction and replacement of the existing Frederick Douglass Memorial Bridge with a fixed bridge on an alignment 18 feet south of the existing bridge. The existing bridge is a swing span bridge, and has a vertical clearance in the closed-to-navigation position of 42 feet above mean high water.

The current operating schedule is set out in 33 CFR 117.253. Under this temporary deviation, the bridge will be maintained in the closed-to-navigation

position from 6 a.m. on February 2, 2018, through 6 a.m. on August 1, 2018. The Anacostia River is used by a variety of vessels including small commercial vessels and recreational vessels. The Coast Guard has carefully coordinated the restrictions with waterway users in publishing this temporary deviation.

Vessels able to pass through the bridge in the closed position may do so at anytime. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notice to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impacts caused by this temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: January 30, 2018.

Hal R. Pitts,*Bridge Program Manager, Fifth Coast Guard District.*

BILLING CODE 9110–04–P**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52**

[EPA–R05–OAR–2015–0824; FRL–9973–59–Region 5]

Air Plan Approval; Ohio; Infrastructure SIP Requirements for the 2012 PM_{2.5} NAAQS; Multistate Transport**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving elements of the State Implementation Plan (SIP) submission from Ohio regarding the infrastructure requirements of section 110 of the Clean Air Act for the 2012 annual fine particulate matter (PM_{2.5}) National Ambient Air Quality Standard (NAAQS). The infrastructure requirements are designed to ensure that the structural components of each state’s air quality management program are adequate to meet the state’s responsibilities under the CAA. This action pertains specifically to infrastructure requirements concerning interstate transport provisions.

DATES: This final rule is effective on March 5, 2018.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–R05–OAR–2015–0824. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either through www.regulations.gov or at the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Anthony Maietta, Environmental Protection Specialist, at (312) 353–8777 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT:

Anthony Maietta, Environmental Protection Specialist, Control Strategies Section, Air Programs Branch (AR–18)), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353–8777, maietta.anthony@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What is being addressed by this document?
- II. What comments did we receive on the proposed action?
- III. What action is EPA taking?
- IV. Statutory and Executive Order Reviews

I. What is being addressed by this document?

On December 4, 2015, the Ohio Environmental Protection Agency (OEPA) submitted a request for EPA to approve its infrastructure SIP for the 2012 annual PM_{2.5} NAAQS. On December 7, 2017, EPA proposed to approve the portion of the submission dealing with requirements one and two (otherwise known as “prongs” one and two) of the provision for interstate pollution transport under Clean Air Act section 110(a)(2)(D)(i), also known as the “good neighbor” provision.

The December 4, 2015 OEPA submittal included a demonstration that Ohio’s SIP contains sufficient major programs related to the interstate transport of pollution, and demonstrates

additional revisions to the Ohio SIP that further address interstate transport based on requests by the neighboring states of Indiana and West Virginia. Ohio's submittal also included a technical analysis of its interstate transport of pollution relative to the 2012 PM_{2.5} NAAQS that demonstrates that current controls are adequate for Ohio to show that it meets prongs one and two of the "good neighbor" provision. Review of the state's submittal included ensuring that Ohio's analysis was corroborated by updated modeling projections in guidance issued by EPA after the submittal on December 4, 2015. After review, EPA proposed to approve Ohio's request relating to prongs one and two of the "good neighbor" provision.

II. What comments did we receive on the proposed action?

Our December 7, 2017 proposed rule provided a 30-day review and comment period. The comment period closed on January 8, 2018. EPA received 17 anonymous comments that were not relevant and/or not adverse, and one supportive comment from a student at Cornell University.

III. What action is EPA taking?

EPA approved the majority of Ohio's 2012 PM_{2.5} infrastructure SIP submission on September 19, 2016 (81 FR 64072). In today's action, EPA is approving the portion of Ohio's December 4, 2015 submission certifying that the current Ohio SIP is sufficient to meet the required infrastructure requirements under CAA section 110(a)(2)(D)(i)(I), specifically prongs one and two, as set forth above.

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of

1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 3, 2018. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Particulate matter, Reporting and recordkeeping requirements.

Dated: January 23, 2018.

Cathy Stepp,

Regional Administrator, Region 5.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

■ 2. In § 52.1870, the table in paragraph (e) is amended by revising the entry for "Section 110(a)(2) infrastructure requirements for the 2012 PM_{2.5} NAAQS" to read as follows:

§ 52.1870 Identification of plan.

* * * * *
(e) * * *

EPA-APPROVED OHIO NONREGULATORY AND QUASI-REGULATORY PROVISIONS

Title	Applicable geographical or non-attainment area	State date	EPA approval	Comments
* Section 110(a)(2) infrastructure requirements for the 2012 PM _{2.5} NAAQS.	* Statewide ...	* 12/4/2015	* 2/2/2018, [insert Federal Register citation].	* Approved CAA elements: 110(a)(2)(A), (B), (C), (D), (E), (F), (G), (H), (J), (K), (L), and (M). We are not taking action on the visibility portion of (D)(i)(II), prong four.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2016-0211; FRL-9973-58—Region 5]

Air Plan Approval; Indiana; Regional Haze Five-Year Progress Report State Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the state of Indiana on March 30, 2016. Indiana’s SIP revision addresses requirements of the Clean Air Act (CAA) and EPA’s rules that require states to submit periodic reports describing progress toward reasonable progress goals (RPGs) established for regional haze and a determination of the adequacy of the state’s existing regional haze SIP. Indiana’s progress report notes that Indiana has implemented the measures in the regional haze SIP due to be in place by the date of the progress report and that Federal Class I areas affected by emissions from Indiana are meeting or exceeding the RPGs for 2018. Indiana also determined that the state’s regional haze SIP is adequate to meet these reasonable progress goals for the first implementation period and requires no substantive revision at this time.

DATES: This final rule is effective on March 5, 2018.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R05-OAR-2016-0211. All documents in the docket are listed on the *www.regulations.gov* website. Although listed in the index, some

information is not publicly available, *i.e.*, Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either through *www.regulations.gov* or at the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Michelle Becker, Life Scientist, at (312) 886-3901 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT: Michelle Becker, Life Scientist, Attainment Planning and Maintenance Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-3901, *Becker.Michelle@epa.gov*.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. Background
- II. What action is EPA taking?
- III. Statutory and Executive Order Reviews

I. Background

States are required to submit a progress report in the form of a SIP revision every five years that evaluates progress towards the RPGs for each mandatory Class I Federal area within the state and in each mandatory Class I Federal area outside the state which may be affected by emissions from within the state. See 40 CFR 51.308(g). In addition, the provisions under 40 CFR 51.308(h) require states to submit, at the same time as the 40 CFR 51.308(g) progress report, a determination of the adequacy of the state’s existing regional

haze SIP. The first progress report SIP is due five years after submittal of the initial regional haze SIP.

On December 7, 2017 (82 FR 57694), EPA published a notice of proposed rulemaking (NPR) proposing approval of Indiana’s March 30, 2016 Regional Haze Five-Year Progress Report SIP revision on the basis that it satisfies the requirements of 40 CFR 51.308(g) and (h).

The specific details of Indiana’s March 30, 2016 SIP revision and the rationale for EPA’s approval are discussed in the NPR and will not be restated here. EPA received four comments on the proposed action, three were not relevant to the rulemaking and one was in support of the proposed approval of the Regional Haze Progress Report SIP.

II. What action is EPA taking?

EPA is approving Indiana’s March 30, 2016 Regional Haze Five-Year Progress Report SIP submittal as meeting the requirements of 40 CFR 51.308(g) and (h).

III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
