

gear and effort specifications (*i.e.*, haul duration, number of nets, etc.) would be dependent upon the discretion of the vessel captains' typical fishing practices, but would remain within commercial regulations.

CFF is requesting an exemption from the minimum size possession restriction in the Monkfish Fishery Management Plan (FMP) found at 50 CFR 648.93(a) to accurately sample all monkfish during these selected fishing trips. Funding for this research has been awarded under the Monkfish Research Set-Aside Program.

If approved, CFF may request minor modifications and extensions to the EFP throughout the study period. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.
