

for Behavioral Health in 2011/2012 conducted a survey to determine health information technology (IT) readiness. This data focused only on the membership of the National Council for Behavioral Health and does not provide national baseline data on the four domains of interoperability that are outlined in the Interoperability Roadmap (finding, sending, receiving and integrating data into EHRs) for behavioral health care providers. Currently, these providers are not eligible to participate in interoperability driving efforts such as the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) initiative. However, some behavioral health providers may be eligible in the future to participate in value-based payment initiatives such as the Merit-Based Incentive Payment System (MIPS). Measuring and reporting the state of interoperability will help to determine the type of support these providers need and their readiness to participate in delivery system reform efforts in the future.

Collaboration between the Office of the National Coordinator for Health Information Technology (ONC) and SAMHSA on this data collection effort will provide an efficient manner to track trends in health IT adoption, use, and interoperability among behavioral health care providers. In addition, this collaboration will contribute to the development of strategic efforts to leverage health IT in behavioral health care settings to provide cost effective, high quality and patient-centered care. Results from this testing will allow ONC and SAMHSA to work together to quantitatively assess health IT adoption and interoperability among behavioral health care providers using SAMHSA's current national surveys, the National Survey of Substance Abuse Treatment Services (N-SSATS) and the National Mental Health Services Survey (N-MHSS).

The information obtained from these efforts will be used to develop a new set of questions on the use and implementation of EHRs in behavioral

health facilities for the N-SSATS and the N-MHSS surveys. Specifically, the information from the testing will be used to reduce respondent burden while simultaneously improving the quality of the data collected in these surveys.

Data from this testing will be collected mostly via telephone interviews, and few cases conducted with in-person interviews. Results of this test will not be disseminated or used to inform policy, program, or budget decisions. Findings will be shared between ONC and SAMHSA staff to decide how the tested questions will be incorporated in the surveys.

It is estimated that the total burden for this project is 40 hours, based on a maximum of 80 interviews with an average of 30 minutes per interview.

The request for OMB seeks approval to conduct this testing of EHR questions during the Fall of 2018 for possible implementation starting in 2020.

The total estimated burden for this study is 39.2 hours for the period from September through December 2018.

Survey	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
Interviews .....	80	1	80	.50	40

Written comments and recommendations concerning the proposed information collection should be sent by October 31, 2018 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov). Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202-395-7285. Copeland, Section Chief, FEMA, Grant Programs Directorate, 202-786-0810.

**SUPPLEMENTARY INFORMATION:** This proposed information collection previously published in the **Federal Register** on April 12, 2018 at 83 FR 15863 with a 60 day public comment period. No comments were received. Minor changes were made to the Estimated Total Annual Respondent Cost and Estimated Total Annual Cost to the Federal Government to accommodate updated wage rates. The updated costs are included below. The Transit Security Grant Program (TSGP) is a FEMA grant program that focuses on transportation infrastructure protection activities. The collection of information for TSGP is mandated by Section 1406, Title XIV of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1135), which directs the Secretary to establish a program for making grants to eligible public transportation agencies for security improvements. Additionally, information is collected in accordance with Section 1406(c) of the Implementing Recommendations of the 9/11 Commission Act of 2007 (6 U.S.C. 1135(c)) which authorizes the Secretary to determine the requirements for grant recipients, including application requirements. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

### Collection of Information

*Title:* FEMA Preparedness Grants: Transit Security Grant Program (TSGP).

*Type of Information Collection:* Revision of a currently approved information collection.

*OMB Number:* 1660-0112.

*FEMA Forms:* FEMA Form 089-4, TSGP Investment Justification; FEMA Form 089-4A, TSGP Investment Justification Background Document; FEMA Form 089-4B, TSGP Five-Year Security Capital and Operational Sustainment Plan.

*Abstract:* The TSGP is an important component of the Department's effort to enhance the security of the Nation's critical infrastructure. The program provides funds to owners and operators of transit systems to protect critical surface transportation infrastructure and the traveling public from acts of terrorism, major disasters, and other emergencies.

*Affected Public:* Business or other for-profit; State, local, or Tribal government.

*Estimated Number of Respondents:* 123.
