

notice of availability of the Agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.51(b).

Dated: September 26, 2018.

Leslie Kux,

Associate Commissioner for Policy.

[FR Doc. 2018-21395 Filed 10-1-18; 8:45 am]

BILLING CODE 4164-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 70

[EPA-R07-OAR-2018-0642; FRL-9983-78—Region 7]

Air Plan Approval; Iowa; State Implementation Plan and Operating Permits Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Iowa State Implementation Plan (SIP) and the Operating Permits Program. The revisions include updating definitions, clarifying permit rule exemptions and permit-by-rule regulations, revising methods and procedures for performance test/stack test and continuous monitoring systems, and updating the Prevention of Significant Deterioration (PSD) regulations and Operating Permits Program. In addition, the State has removed its rules that implement the Clean Air Interstate Rule (CAIR) and revised their acid rain rules. These revisions will not impact air quality and will ensure consistency between the state and Federally approved rules.

DATES: Comments must be received on or before November 1, 2018.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R07-OAR-2018-0642 to <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](https://www.regulations.gov). The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the

official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Stephanie Doolan, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219 at (913) 551-7719, or by email at Doolan.Stephanie@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” and “our” refer to EPA. This section provides additional information by addressing the following:

- I. What is being addressed in this document?
- II. What SIP revisions are being proposed by EPA?
- III. What Operating Permit Plan revisions are being proposed by EPA?
- IV. Have the requirements for approval of a SIP and the Operating Permits Program revisions been met?
- V. What actions are proposed?
- VI. Incorporation by Reference
- VII. Statutory and Executive Order Reviews

I. What is being addressed in this document?

EPA is proposing to approve a submission from the State of Iowa to revise the Iowa SIP and the Operating Permits Program. The revisions to the Iowa SIP revise the definition for EPA reference method and volatile organic compounds (VOCs), clarifies permit rule exemptions and the State's permit-by-rule regulation, and revises methods and procedures for performance test/stack test and continuous monitoring systems. In addition, the State has removed its rules that implement the CAIR. The State has also revised their Prevention of Significant Deterioration (PSD) regulations to incorporate the most recent Federal requirements. Iowa has also revised their Operating Permits Program by revising the definition for EPA Reference Method, clarifying insignificant activities as applied to internal combustion engines, revising forms used to submit emission inventories and due dates as well as revising the public participation rules. In addition, the State revised their acid rain rules to include the most recent EPA Reference Method.

EPA is not acting on Chapter 25.2—Continuous emission monitoring under the acid rain program, as these provisions are not approved in the operating permits program. EPA is also not acting on the New Source Performance Standards, emission standards for hazardous air pollutants, emission standards for hazardous air pollutants for source categories, and emission guidelines that were submitted in this SIP revision. These will be addressed separately.

II. What SIP revisions are being proposed by EPA?

EPA is proposing the following revisions to the Iowa SIP:

Chapter 20—Scope of Title-Definitions: The State revised the definition of “EPA reference method,” to adopt the most current EPA methods for measuring air pollutant emissions (stack testing and continuous monitoring). EPA revised the reference methods in 40 CFR parts 51, 60, 61 and 63 on August 30, 2016. These updates will ensure that state reference methods are equivalent to Federal reference methods and are no more stringent than Federal methods.

The State revised the definition of “volatile organic compounds” (VOC) to reflect changes made to the Federal definition of VOC on August 1, 2016. EPA finalized a regulation on August 1, 2016, to exclude the compound 1,1,2,2-tetrafluoro-1-(2,2,2-trifluoroethoxy) Ethane (HFE-347pcf2) from the Federal definition because this compound makes a negligible contribution to tropospheric ozone formation. This revision to the VOC definition ensures consistency with the Federal definition.

Chapter 22—Controlling Pollution: The State made three revisions under Chapter 22, “Permits required for new or existing stationary sources,” subrule 22.1(2), “Permitting exemptions.” The revisions to permitting exemptions do not relieve the owner or operator of any source from any obligation to comply with any other applicable requirements.

The introductory paragraph to 22.1(2) “i”, “Initiation of construction, installation, reconstruction, or alteration (modification) to equipment,” now cross-refers to subrule 31.3(1) in the Iowa SIP as the previous reference no longer exists. Subrule 31.3(1) refers to definitions for nonattainment new source review requirements for areas designated nonattainment on or after May 18, 1998.

Subparagraph 22.1(2) “r”, applies to the exemption for an internal combustion engine with a brake horsepower rating of less than 400 measured at the shaft. The added

language (underlined below) clarifies that the owner or operator of an engine that was manufactured, ordered, modified or reconstructed after March 18, 2009, may use this exemption only if the owner or operator, prior to installing, modifying or reconstructing the engine, submits to the department a completed registration on forms provided by the department (*unless the engine is exempted from registration, as specified in this paragraph or on the registration form*). This revision clarifies that an engine that meets the definition of nonroad engine as specified in 40 CFR 1068.30,¹ is exempt from registration requirements. The engine must be in compliance with New Source Performance Standards (NSPS) for stationary compression ignition internal combustion engines (40 CFR part 60, subpart IIII); NSPS for stationary spark ignition internal combustion engines (40 CFR part 60, subpart JJJJ), and National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines (40 CFR part 63, subpart ZZZZ). The State also corrected punctuation errors in this subparagraph.

Subparagraph 22.1(2)“w”(1) applies to “small unit” exemptions from construction permitting. The SIP-approved list of criteria has the word “or” between the last two items in the list, which could lead affected owners and operators to conclude that an emission unit does not need to meet all the criteria in the list. This proposed revision changes the word “or” to “and” between the provision for “PM_{2.5}” and the one for “hazardous air pollutants” in the list of air pollutants. A spelling error will also be corrected with this proposed revision.

The revisions to subrule 22.8(1) “a”, “Permit by Rule,” allow powder coat material to be used in paint booths without being considered “sprayed material,” provided the powder coating is applied in an indoor-vented spray booth equipped with filters or an overspray powder recovery system. Included in this docket are justification materials from the state that evaluates that particulate emissions from powder coatings specified under the conditions in permit by rule, would not contribute to the exceedances of the ambient air quality standards for particulate matter. The justification was previously provided in support of the exemption for powder coatings for construction permits (22.1(2)“bb”). Owners and/or operators using the permit by rule must send a notification letter to the

Department and complete applicability questions for the facility. Facilities not eligible for permit by rule are required to apply for a construction permit as specified under 567 IAC subrules 22.1(1) and 22.1(3).

Chapter 25—Measurement of Emissions: The State revised subrule 25.1(9), “Methods and Procedures,” to adopt the most current EPA reference methods for measuring air pollutant emissions (performance test/stack test, 25.1(9)a, and continuous monitoring systems, 25.1(9)b). EPA revised the reference methods in 40 CFR parts 51, 60, 61 and 63 on August 30, 2016. These proposed updates will ensure that state reference methods are equivalent to Federal reference methods and are no more stringent than Federal methods.

Chapter 33—Special Regulations and Construction Permit Requirements for Major Stationary Sources—Prevention of Significant Deterioration (PSD) of Air Quality:

33.1—Purpose. The State revised the applicable date to incorporate the recent changes EPA made to the Federal requirements of the PSD program from August 19, 2015, to October 18, 2016.

33.1(3)—Definitions. The State revised the definition of “volatile organic compounds” (VOC) to reflect changes made to the Federal definition of VOC on August 1, 2016. The compound 1,1,2,2-tetrafluoro-1-(2,2,2-trifluoroethoxy) Ethane (HFE-347pcf2) was excluded from the Federal definition at 40 CFR 51.100(s) because this compound makes a negligible contribution to tropospheric ozone formation. This proposed revision to the state’s VOC definition ensures consistency with the Federal definition.

33.3(17)—Public participation. The State made revisions that addresses public participation requirements for the PSD program to reflect updates to the Federal regulations, at 40 CFR part 51, subpart I, published October 18, 2016. The revision removes the requirements for advertisement in a newspaper of general circulation in each region in which the proposed source will be constructed, and provides for posting of the public comment period on a website identified by the department.² The electronic notice shall be available for the duration of the public comment period and include the notice of public comment, the draft permit(s), information on how to access the administrative record for the draft permit(s), and how to request or attend a public hearing on the draft permits(s). The revision also requires the

department to be consistent in the method of providing public notice while using other means necessary to ensure adequate notice to the affected public.

33.3(22)—Permit rescission. This revision allows for rescission of PSD permits to be consistent with the Federal changes made to 40 CFR part 51, subpart I, published October 18, 2016, with regard to public participation. A notice of permit rescission may be posted on a publicly available website identified by the department.

Chapter 34—Provisions for Air Quality Emissions Trading Programs. Due to the regulations being phased out and replaced with the Cross-State Air Pollution Rule published in the **Federal Register** on August 8, 2011 at 76 FR 48208, Iowa is implementing the Cross-State Air Pollution Rule through a Federal Implementation Plan, and removing its regulations that implement CAIR. Because the State CAIR trading programs created by these rules are no longer being implemented, and because the rules serve no other purpose, removal of the rules from the SIP does not interfere with any applicable requirement concerning attainment or any other requirement of the CAA.

EPA is proposing to approve the rescission of the following chapters in the Iowa SIP:

- 34.201, CAIR NO_x Annual Trading Program Provisions;
- 34.202, CAIR Designated Representative for CAIR NO_x sources;
- 34.203, Permits;
- 34.204, Reserved;
- 34.205, CAIR NO_x Allowance Allocations;
- 34.206, CAIR NO_x Allowance Tracking System;
- 34.207, CAIR NO_x Allowance Transfers;
- 34.208, Monitoring and Reporting;
- 34.209, CAIR NO_x Opt-in Units;
- 34.210, CAIR SO₂ Trading Program;
- 34.211–34.219, Reserved;
- 34.220, CAIR NO_x Ozone Season Trading Program;
- 34.221, CAIR NO_x Ozone Season Trading Program General Provisions;
- 34.222, CAIR Designated Representative for CAIR NO_x Ozone Season Sources;
- 34.223, CAIR NO_x Ozone Season Permits;
- 34.224, Reserved;
- 34.225, CAIR NO_x Ozone Season Allowance Allocations;
- 34.226, CAIR NO_x Ozone Season Allowance Tracking System;
- 34.227, CAIR NO_x Ozone Season Allowance Transfers;
- 34.228, CAIR NO_x Ozone Season Monitoring and Reporting, and 34.229, CAIR NO_x Ozone Season Opt-in Units.

² The “department” is the Iowa Department of Natural Resources and the permitting authority.

III. What operating permits plan revisions are being proposed by EPA?

EPA is proposing to approve the following revisions to Iowa's Operating Permits Program (Title V) as follows:

Chapter 22.100—Definitions for Title V Operating Permits: The State revised the definition of “EPA reference method,” to adopt the most current EPA methods for measuring air pollutant emissions (stack testing and continuous monitoring). EPA revised the reference methods in 40 CFR parts 51, 60, 61 and 63 on August 30, 2016. These updates will ensure that state reference methods are equivalent to Federal reference methods and are no more stringent than Federal methods.

Chapter 22.103—Insignificant activities:

Subparagraph 22.103(2)“b”(6) applies to the exemption for internal combustion engines that are used for emergency response purpose with a brake horsepower rating of less than 400 measured at the shaft. The revision adds that emergency engines that are subject to the following rules are not to be considered insignificant: New Source Performance Standards (NSPS), 40 CFR part 60 subpart IIII (stationary compression ignition internal combustion engines); NSPS 40 CFR part 60, subpart JJJJ (stationary spark ignition internal combustion engines), and National Emission Standards for hazardous air pollutants, 40 CFR part 63, subpart ZZZZ (reciprocating internal combustion engines).

Chapter 22.106, Title V permit fees: The revision to 22.106(2) applies to emission inventories and documentation due dates. The revision specifies that emissions inventories will be submitted with forms specified by the department. For emissions in Polk and Linn Counties, three copies of forms should be submitted that document actual emissions for the previous calendar year annually by March 31. Emissions in other counties are required to submit two copies of forms documenting actual emissions for the previous calendar year annually by March 31. With this revision, the following forms have been removed: Form 1.0, “Facility Identification”; Form 4.0, “Emission Unit—Actual Operations and Emissions” for each emission unit; Form 5.0, “Title V Annual Emissions Summary/Fee”, and Part 3, “Application Certification.”

Chapter 22.107, Title V permit processing procedures:

The revision to subrule 22.107(6), “Public notice and public participation,” updates the Title V program to reflect the changes made to

Federal regulations at 40 CFR 70.7(h), published October 18, 2016. The revision removes the requirements for advertisement in a newspaper of general circulation and adds that posting of the notice, including the draft permit, for the duration of the public comment period on a public website identified by the permitting authority.³

Chapter 22.120: This chapter applies to the acid rain program. In Iowa, all provisions of the acid rain program are approved under the Title V Operating Permits Program. Therefore, the test methods as applied in Chapter 22.100 apply to Chapter 22.120 to include the most recent EPA reference method revision to 40 CFR part 75 (August 30, 2016).

Chapter 30—Fees: The revision to “Fees Associated with Title V Operating Permits” at 30.4(2) “b” removes the following forms: Form 1.0, “Facility Identification”; Form 5.0, “Title V Annual Emissions Summary/Fee”, and Part 3, “Application Certification.” The revision also adds the language “with forms specified by the department.”

IV. Have the requirements for approval of a SIP and the Operating Permits Program revisions been met?

The submission met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The State held a public comment period from December 20, 2017 to January 22, 2018, with a public hearing on January 22, 2018. No comments were received. The submissions also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, these revisions meet the substantive SIP requirements of the CAA, including section 110 and implementing regulations. These revisions are also consistent with applicable EPA requirements of Title V of the CAA and 40 CFR part 70.

V. What actions are proposed?

EPA is proposing to approve revisions to the Iowa SIP and the Operating Permits Program. The proposed revisions clarify rules, makes revisions and corrections, and rescinds rules no longer relevant to the air program. EPA has determined that approval of these revisions will not impact air quality and will ensure consistency between the state and federally-approved rules, and ensure Federal enforceability of the state's revised air program rules.

VI. Incorporation by Reference

In this document, EPA is proposing to include regulatory text in an EPA final rule that includes incorporation by

reference. In accordance with requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference the Iowa Regulations described in the proposed amendments to 40 CFR part 52 set forth below. EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

VII. Statutory and Executive Order Reviews

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866.
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because

³ Iowa Department of Natural Resources.

application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

40 CFR Part 70

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Operating permits, Reporting and recordkeeping requirements.

Dated: September 25, 2018.

Edward H. Chu,

Acting Regional Administrator, Region 7.

For the reasons stated in the preamble, EPA proposes to amend 40 CFR parts 52 and 70 as set forth below:

EPA-APPROVED IOWA REGULATIONS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart Q—Iowa

- 2. Amend § 52.820, paragraph (c), by:
 - a. Revising the table entries “567–20.2”, “567–22.1”, “567–22.8”, “567–25.1”, “567–33.1”, and “567–33.3”, and
 - b. Removing the table entries and the heading for “Chapter 34—Provisions for Air Quality Emissions Trading Programs” in its entirety.

The revisions read as follows:

§ 52.820 Identification of plan.

BILLING CODE 6560–50–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

42 CFR Parts 405 and 423

[CMS–4174–P]

RIN 0938–AT27

Medicare Program: Changes to the Medicare Claims and Medicare Prescription Drug Coverage Determination Appeals Procedures

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Proposed rule.

SUMMARY: This proposed rule would revise the regulations setting forth the appeals process that Medicare beneficiaries, providers, and suppliers must follow in order to appeal adverse determinations regarding claims for benefits under Medicare Part A and Part B or determinations for prescription drug coverage under Part D. These changes would help streamline the appeals process and reduce administrative burden on providers, suppliers, beneficiaries, and appeal adjudicators. These revisions, which include technical corrections, would also help to ensure the regulations are clearly arranged and written to give stakeholders a better understanding of the appeals process.

DATES: To be assured consideration, comments must be received at one of

the addresses provided below, no later than 5 p.m. on December 3, 2018.

ADDRESSES: In commenting, please refer to file code CMS–4174–P. Because of staff and resource limitations, we cannot accept comments by facsimile (FAX) transmission.

Comments, including mass comment submissions, must be submitted in one of the following three ways (please choose only one of the ways listed):

1. *Electronically.* You may submit electronic comments on this regulation to <http://www.regulations.gov>. Follow the “Submit a comment” instructions.

2. *By regular mail.* You may mail written comments to the following address *only*: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS–4174–P, P.O. Box 8013, Baltimore, MD 21244–1850.

Please allow sufficient time for mailed comments to be received before the close of the comment period.

3. *By express or overnight mail.* You may send written comments to the following address *only*: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS–4174–P, Mail Stop C4–26–05, 7500 Security Boulevard, Baltimore, MD 21244–1850.

For information on viewing public comments, see the beginning of the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Joella Roland, (410) 786–7638 or Nishamarie Sherry, (410) 786–1189.

SUPPLEMENTARY INFORMATION: *Inspection of Public Comments:* All comments
