be expected to improve the individual’s functioning so that he or she is not disabled, we would find that DAA is material to the determination of disability and deny the claim for that reason.

Policy Interpretation Ruling

Titles II and XVI: Determining the Established Onset Date (EOD) in Blindness Claims

We are providing notice of SSR 18–02p which rescinds and replaces the following sections of SSR 83–20: “Titles II and XVI: Onset of Disability,”—(1) “Title II: Blindness Cases,” and (2) “Title XVI—Specific Onset is Necessary,” as it applies to blindness claims. Concurrently, we published a separate SSR, SSR 18–01p, “Titles II and XVI: Determining the Established Onset Date (EOD) in Disability Claims,” which rescinded and replaced all other parts of SSR 83–20. Therefore, as of October 2, 2018, the date this SSR was published in the Federal Register, SSR 83–20 is completely rescinded and replaced by SSR 18–01p and SSR 18–02p.

Purpose: This SSR explains how we determine the EOD in blindness claims under titles II and XVI of the Social Security Act (Act).

Policy Interpretation:

To be entitled to disability insurance (DI) benefits under title II of the Act or eligible for Supplemental Security Income (SSI) payments under title XVI of the Act based on blindness, a claimant must file an application, meet the relevant statutory definition(s), and satisfy the applicable non-medical requirements. If we find that a claimant meets the relevant statutory definitions and meets the applicable non-medical requirements during the period covered by his or her application, we then determine the claimant’s EOD. The EOD is the earliest date that the claimant meets both the relevant definitions and non-medical requirements during the period covered by his or her application.

Outline

I. What is the EOD?

A. What is the statutory definition of blindness?
B. What are the statutory definitions of disability for blind claimants and when do they apply?
1. What is the statutory definition of disability for a title II blind claimant who is younger than 55?
2. What is the statutory definition of disability for a title II blind claimant who is age 55 or older?
C. What are the non-medical requirements?
II. What are some special considerations related to the EOD?
A. What if a claimant meets all the requirements for DI benefits or SSI payments based on blindness and based on another impairment?
B. What happens when a claimant applies for DI benefits under title II and meets the statutory definition of blindness, but continues to work?
III. When is this SSR applicable?

Discussion

I. What is the EOD?

For title II blindness claims, the EOD is the earliest date that the claimant meets the statutory definitions of blindness and disability and the applicable non-medical requirements for entitlement to benefits during the period covered by his or her application. For title XVI blindness claims, the EOD is the earliest date that the claimant meets the statutory definition of blindness and the applicable non-medical requirements.
1. What is the statutory definition of disability for a title II blind claimant who is younger than 55?

For claimants who meet the statutory definition of blindness during the period under consideration and are younger than age 55, the Act defines disability as the inability to engage in any substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. If a claimant meets all the requirements for entitlement to DI benefits or eligibility for SSI payments based on blindness, and another impairment, the EOD for the other impairment may be before or after the EOD for blindness.

2. What is the statutory definition of disability for a title II blind claimant who is age 55 or older?

For claimants who meet the statutory definition of blindness during the period under consideration and are age 55 or older, the Act defines disability as the inability to engage in SGA requiring skills or abilities comparable to those of any gainful activity in which the claimant has previously engaged with some regularity and over a substantial period of time.

C. What are the non-medical requirements?

A claimant is not entitled to DI benefits or eligible for SSI payments based on blindness unless he or she meets the applicable non-medical requirements. The non-medical requirements—such as the insured status requirements—such as the insured status requirements as in effect for October 1972; (2) received aid under that plan because of blindness for December 1973; and (3) continues to be blind as defined under that plan.

B. What are the statutory definitions of disability for blind claimants and when do they apply?

A claimant who seeks DI benefits under title II based on blindness must show that he or she meets the statutory definition of blindness as well as the statutory definition of disability during the period under consideration. A claimant who seeks SSI payments under title XVI based on blindness need only show that he or she meets the statutory definition of blindness during the period under consideration. Title II of the Act defines disability differently for those who are younger than age 55 and those who are age 55 or older.

6 42 U.S.C. 423(d)(1)(A), (B); 20 CFR 404.1512(a), 404.1582, 404.1583.

17 42 U.S.C. 417(b)(1); 20 CFR 404.1512(a), 404.1582, 404.1583.

15 20 CFR 404.1582.

13 20 CFR 404.110 (describing how we determine fully insured status and explaining that an individual needs at least six quarters of coverage but not more than 40 quarters of coverage to be fully insured), 404.130(e) (explaining that a claimant is insured in a quarter for purposes of establishing a period of disability or becoming entitled to DI benefits if in that quarter the claimant meets the statutory definition of blindness and is fully insured).

11 20 CFR 404.320(a), (b)(4) (explaining that “[a] period of disability is a continuous period of time during which you are disabled” and that one of the requirements to be “entitled to a period of disability ... is that at least 5 consecutive months go by from the month in which [the claimant]’s period of disability begins and before the month in which it would end”).
applicable non-medical requirements during the period covered by his or her application.

For purposes of determining the EOD, if we find that the claimant meets the insured status requirements and the statutory definition of blindness, but he or she is performing SGA, we will establish up to two dates. First, we will establish a disability freeze date, which is the date the claimant first met the insured status requirements and the statutory definition of blindness. If the claimant later stops working or his or her work is no longer SGA, we will establish a second date called the “adjusted blind onset date” (ABOD). The ABOD is the date the claimant stopped performing SGA and became entitled to monthly cash benefits under title II of the Act, subject to a five-month waiting period.

The five-month waiting period begins with the first full month that the claimant does not perform SGA. However, if the claimant is age 55 or older and performing SGA, we consider how the claimant’s work activity compares with work he or she did in the past.16 We consider work to be non-comparable if it requires skills and abilities that are less than or different from those the claimant used in the work he or she did in the past.17 If the claimant is age 55 or older and performing “non-comparable” SGA, we will count the months the claimant performs “non-comparable” SGA in the waiting period if they also fall within the period of disability.

We cannot establish a disability freeze for DWB or CDB claimants under title II of the Act. There is also no freeze equivalent for SSI claimants under title XVI of the Act. However, to be eligible for SSI payments based on disability under title XVI, a claimant need only meet the statutory definition of blindness and the applicable non-medical requirements. Thus, a claimant seeking SSI payments based on blindness need not show that he or she is unable to perform SGA, but if the claimant is working, we will consider his or her earnings under the income and resource rules of title XVI of the Act.18 When a claimant’s income or resources exceed the Act’s limitations, he or she is ineligible for SSI payments under title XVI because he or she does not meet the applicable non-medical requirements,19 even though the claimant meets our statutory definition of blindness.20

III. When is this SSR applicable?

This SSR is applicable on October 2, 2018. We will use this SSR beginning on its applicable date. We will apply this SSR to new applications filed on or after the applicable date of the SSR and to claims that are pending on and after the applicable date. This means that we will use this SSR on and after its applicable date in any case in which we make a determination or decision. We expect that Federal courts will review our final decisions using the rules that were in effect at the time we issued the decisions. If a court reverses our final decision and remands a case for further administrative proceedings after the applicable date of this SSR, we will apply this SSR to the entire period at issue in appropriate cases when we make a decision after the court’s remand.
