Federal Energy Regulatory Commission

[Project No. 2808–017]

Notice of Availability of Draft Environmental Assessment: KEI (Maine) Power Management (III) LLC

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the subsequent license application for the Barker’s Mill Hydroelectric Project, located on the Little Androscoggin River in Androscoggin County, Maine, and has prepared a draft Environmental Assessment (EA) for the project. The project does not occupy lands of the United States.

The draft EA contains staff’s analysis of the potential effects of continued operation and maintenance of the project and concludes that licensing the project, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the draft EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at http://www.ferc.gov using the “eLibrary” link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FEBOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.

You may also register online at http://www.ferc.gov/docs-filing/ferconline.asp to be notified via email of new filings and issuances related to these or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice.

The Commission strongly encourages electronic filing. Please file comments using the Commission’s eFiling system at http://www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters.

For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: September 27, 2018.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

Federal Energy Regulatory Commission

[Docket No. CP18–548–000]

Notice of Application: Eastern Shore Natural Gas Company

Take notice that on September 14, 2018, Eastern Shore Natural Gas Company (Eastern Shore), 500 Energy Lane, Suite 200, Dover, Delaware, 19901, filed in Docket No. CP18–548–000 an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission’s regulations for authorization to construct, own and operate: (i) About 4.9 miles of 16-inch-diameter loop line and appurtenant facilities in Kent County, Delaware; (ii) about 7.39 miles of 8-inch-diameter mainline extension and appurtenant facilities in Sussex County, Delaware; (iii) about 6.83 miles of 10-inch-diameter mainline extension in Wicomico and Somerset Counties, Maryland; (iv) upgrades to an existing pressure control facility, including 0.35 miles of 10-inch-diameter mainline extension in Sussex County, Delaware; and (v) delivery point measurement and regulating facilities in Sussex County, Delaware and Somerset County, Maryland (Del-Mar Energy Pathway Project). Eastern Shore states that the proposed facilities will result in an increase of 11,800 dekatherms per day of additional firm transportation service and 2,500 dekatherms per day of off-peak transportation service, or 14,300 dekatherms per day total. Eastern Shore estimates the cost of the Del-Mar Energy Pathway Project to be $37,100,000, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCONlineSupport@ferc.gov or call toll-free, (888) 206–3676 or TTY, (202) 502–8659.

Any questions regarding this application should be directed to Mark C. Parker, P.E., Engineering Manager, Eastern Shore Natural Gas Company; 500 Energy Lane, Suite 200, Dover, DE, 19901 at 1 (844) 366–3764, or by email at maparker@esng.com.

Pursuant to section 157.9 of the Commission’s rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 3 copies of filings made with the Commission and must provide a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list and will be notified of any meetings associated with the Commission’s environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission’s final order.

As of the February 27, 2018 date of the Commission’s order in Docket No. CP16–4–001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new Natural Gas Act section 3 or section 7 proceeding.1 Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to “show good cause why the time limitation should be waived,” and should provide justification by reference to factors set forth in Rule 214(d)(1) of the Commission’s Rules and Regulations.2

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy
