DATES: Comments will be accepted on or before November 13, 2018. This proposed action will be effective the day following the end of the comment period unless comments are received which result in a contrary determination. The life of this CMA is estimated to cover the 18-month period from October 30, 2018 through April 29, 2020.

Compliance, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. SUPPLEMENTARY INFORMATION: *FY17 Match:* VA will submit to DMDC an electronic file of all VA pension and disability compensation beneficiaries as of the end of September 2017. Defense Manpower Data Center (DMDC) will perform a one-time match by SSN with Reserve pay data submitted by the military services and the USCG. For each SSN match, or “hit,” of both data sets, DMDC will provide VA the individual’s name and other identifying data, to include the number of training days and paid active duty days, for each matched record. Training days and paid active duty days will be reported as separate totals. The hits will be furnished to VA, which will be responsible for verifying and determining that the data in the DMDC electronic files is consistent with the VA files.

Subsequent Matches: DMDC updates VA-DoD Identity Repository (VADIR) monthly. The electronic data provided by the VA will contain information on approximately 4.2 million pension and disability compensation recipients. VA will use the Reserve military pay data in VADIR to match against VA recipients of VA disability compensation or pension and to resolve any discrepancies or inconsistencies on an individual basis. VA will initiate actions to obtain an election by the individual of which pay he or she wishes to receive and will be responsible for making final determinations as to positive identification, eligibility for, or amounts of pension or disability compensation benefits, adjustments thereto, or any recovery of overpayments, or such other action as authorized by law.

Participating Agencies: The Department of Defense (DoD), Defense

Manpower Data Center, DoD and Department of Veterans Affairs (VA).

Authority for Conducting the Matching Program: Title 38 U.S.C. 5304(c), Prohibition Against Duplication of Benefits, provides that VA disability compensation or pension based upon his or her previous military service shall not be paid to a person for any period for which such person receives active service pay.

Title 10 U.S.C. 12316, Payment of Certain Reserves While on Duty, further provides that a Reservist who is entitled to disability payments due to his or her earlier military service and who performs duty for which he or she is entitled to DoD/USCG compensation may elect to receive for that duty either the disability payments, or if he or she waives such payments, the DoD/USCG compensation for the duty performed.

Purpose(s): The purpose of this agreement is to verify eligibility for DoD/USCG members of the Reserve forces who receive VA disability compensation or pension to receive, in lieu and upon election, military pay and allowances when performing reserve duty.

1. For the FY17 match, VA will provide to DMDC identifying information on all VA recipients receiving a VA disability compensation or pension. DMDC will match the information with its Reserve military pay data and provide for each match (hit) the number of training days and the number of active duty days for which the veteran was paid in FY17. The VA will use this information to make, where appropriate, necessary VA payment adjustments. For subsequent matches, VA will use the Reserve military pay data in the VA-DoD Identity Repository (VADIR to match against VA recipients of VA disability compensation or pension). DMDC sends Reserve military pay data to VADIR monthly; the data provided by DMDC include all data elements required for the match.
