(2) The alternate test procedure for the BAS basic models listed in paragraph (1) of this Order is the test procedure for ceiling fans prescribed by DOE at 10 CFR part 430, subpart B, appendix U, except that under section 3.3.2 of appendix U, the stability criteria for low speed is relaxed from 5 percent to 10 percent. The alternative test procedure shall apply as follows:

3.3.2 Airflow and Power Consumption Testing Procedure

Measure the airflow (CFM) and power consumption (W) for HSSD ceiling fans until stable measurements are achieved, measuring at high speed only. Measure the airflow and power consumption for LSSD ceiling fans until stable measurements are achieved, measuring first at low speed and then at high speed. Airflow and power consumption measurements are considered stable for high speed if:

(1) The average air velocity for all axes for each sensor varies by less than 5% compared to the average air velocity measured for that same sensor in a successive set of air velocity measurements, and

(2) Average power consumption varies by less than 1% in a successive set of power consumption measurements.

Airflow and power consumption measurements are considered stable for low speed if:

(1) The average air velocity for all axes for each sensor varies by less than 10% compared to the average air velocity measured for that same sensor in a successive set of air velocity measurements, and

(2) Average power consumption varies by less than 1% in a successive set of power consumption measurements.

(3) Representations. BAS may not make representations about the efficiency of the basic models identified in paragraph (1) of this Order for compliance, marketing, or other purposes unless the basic model has been tested in accordance with the provisions set forth above and such representations fairly disclose the results of such testing in accordance with 10 CFR part 430, subpart B, appendix U and 10 CFR 429.32, as specified in this Order.

(4) This waiver shall remain in effect according to the provisions of 10 CFR 430.27.

(5) This waiver is issued on the condition that the statements, representations, and documentation provided by BAS are valid. If BAS makes any modifications to the configuration of these basic models, the waiver will no longer be valid and BAS will either be required to use the current Federal test method or submit a new application for a test procedure waiver. DOE may revoke or modify this waiver at any time if it determines the factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of the basic models’ true energy consumption characteristics.

(6) Granting of this waiver does not release BAS from the certification requirements set forth at 10 CFR part 429.

Signed in Washington, DC, on October 9, 2018.

Kathleen B. Hogan,
Deputy Assistant Secretary for Energy Efficiency Energy Efficiency and Renewable Energy.

DEPARTMENT OF ENERGY
Senior Executive Service Performance Review Board

AGENCY: Department of Energy.

ACTION: Designation of Performance Review Board Chair.

SUMMARY: This notice provides the Performance Review Board Chair designee for the Department of Energy. This listing supersedes all previously published lists of Performance Review Board Chair.

DATES: This appointment is effective as of September 30, 2018.

Dennis M. Miotla
Signed in Washington, DC, on October 2, 2018.

Erin S. Moore,
Director, Office of Corporate Executive Management, Office of the Chief Human Capital Officer.

DEPARTMENT OF ENERGY
Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE), pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years, an information collection request with the Office of Management and Budget (OMB). This information collection request consists of forms that will certify to DOE that respondents were advised of the requirements for occupying or continuing to occupy a Human Reliability Program (HRP) position. The forms include: Human Reliability Program Certification (DOE F 470.3), Acknowledgement and Agreement to Participate in the Human Reliability Program (DOE F 470.4), Authorization and Consent to Release Human Reliability Program Records in Connection with HRP (DOE F 470.5), Refusal of Consent (DOE F 470.6), and Human Reliability Program (HRP) Alcohol Testing Form (DOE F 470.7). The HRP is a security and safety reliability program for individuals who apply for or occupy certain positions that are critical to the national security. It requires an initial and annual supervisory review, medical assessment, management evaluation, and a DOE personnel security review of all applicants or incumbents. It is also used to ensure that employees assigned to nuclear explosive duties do not have emotional, mental, or physical conditions that could result in an accidental or unauthorized detonation of nuclear explosives.

DATES: Comments regarding this proposed information collection must be received on or before December 17, 2018. If you anticipate difficulty in
submitting comments within that period, contact the person listed below as soon as possible.

**ADRESSES:** Written comments may be sent to Regina Cano, U.S. Department of Energy, Office of Corporate Security Strategy (AU–1.2), 1000 Independence Ave, SW, Washington, DC 20585, telephone at (202) 586–7079, by fax at (202) 586–9779, or by email at regina.cano@hq.doe.gov.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Regina Cano, (202) 586–7079, regina.cano@hq.doe.gov. More information on the HRP can be found at https://www.energy.gov/ehss/human-reliability-program-handbook. Forms included in this collection can be found at https://www.energy.gov/cio/management-administration-forms-0000-1999.

**SUPPLEMENTARY INFORMATION:** Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request pertains to the Human Reliability Program (HRP). This information collection request contains: (1) OMB No.: 1910–5122; (2) Information Collection Request Title: Human Reliability Program; (3) Type of Review: extension; (4) Purpose: This collection provides for DOE management to ensure that individuals who occupy HRP positions meet program standards of reliability and physical and mental suitability; (5) Annual Estimated Number of Respondents: 43,960; (6) Annual Estimated Number of Total Responses: 43,999; (7) Annual Estimated Number of Burden Hours: 3,819; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: $342,888; (9) Response Obligation: Mandatory.

Signed in Washington, DC, on October 9, 2018.

Matthew B. Moury,
Associate Under Secretary for Environment, Health, Safety and Security.

**BILLING CODE 4450–01–P**

**DEPARTMENT OF ENERGY**

**Energy Information Administration**

**Agency Information Collection Extension**

**ACTION:** Notice.

**SUMMARY:** EIA submitted an information collection request for extension as required by the Paperwork Reduction Act of 1995. The information collection requests a three-year extension with no changes of Form NWPA–830G, “Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste,” Appendix G, under OMB Control Number 1901–0260, Form NWPA–830G, “Appendix G—Standard Remittance Advice for Payment of Fees,” (including Annex A to Appendix G), which is part of the Standard Contract collects information concerning a company’s quarterly payments into the Nuclear Waste Fund of ongoing fees for spent nuclear fuel disposal. Form NWPA–830G, is a mandatory form that serves as the source document for entries into DOE accounting records to transmit data from purchasers to DOE concerning payment of the Spent Nuclear Fuel Disposal Fee into the Nuclear Waste Fund. Although the Department of Energy determined that, effective May 16, 2014, the Spent Nuclear Fuel Disposal Fee is $0.00 mills per kWh, it has (through its Office of the General Counsel) directed EIA to continue activities associated with the collection and verification of net electricity generation data and estimation of the spent nuclear fuel disposal fees that would otherwise accrue from this generation.

**DATES:** Comments on this information collection must be received no later than November 15, 2018. If you anticipate any difficulties in submitting your comments by the deadline, contact the DOE Desk Officer at 202–395–4718.

**ADDRESSES:** Written comments should be sent to DOE Desk Officer: Brandon Debruhl, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503, Email: Brandon_F.Debruhl@omb.eop.gov and to Michael Scott, U.S. Department of Energy, U.S. Energy Information Administration, 1000 Independence Ave, SW, Washington, DC 20585, Michael.Scott@eia.gov.

**FOR FURTHER INFORMATION CONTACT:** Michael Scott, (202) 586–0253, email Michael.Scott@eia.gov. Form NWPA–830G, “Appendix G—Standard Remittance Advice for Payment of Fees,” may be accessed from this URL: https://www.eia.gov/survey/form/nwpa_830g/proposed/2019/appendix_g.pdf, and Annex A to Appendix G from the URL below: https://www.eia.gov/survey/form/nwpa_830g/proposed/2019/annex_a_appendix_g.pdf

**SUPPLEMENTARY INFORMATION:** This information collection request contains:

(1) OMB No. 1901–0260;
(2) Information Collection Request Title: Form NWPA–830G, Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste, Appendix G;
(3) Type of Request: Three-year extension;
(4) Purpose: Form NWPA–830G, is the source document for entries into DOE accounting records to transmit data from purchasers to DOE concerning payment of the Spent Nuclear Fuel Disposal Fee into the Nuclear Waste Fund. Appendix G collects payment data based on a utility’s net electricity generated and sold. 15 U.S.C. 772(b) provides that EIA may require all persons owning or operating facilities or business premises who are engaged in any phase of energy supply or major energy consumption to make available to the Administrator such information and periodic reports, records, documents, and other data, relating to the purposes of this Act, including full identification of all data and projections as to source, time and methodology of development.

The Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.) required that DOE enter into Standard Contracts with all generators or owners of spent nuclear fuel and high-level radioactive waste of domestic origin. Form NWPA–830G Appendix G—Standard Remittance Advice for Payment of Fees, including Annex A to Appendix G, is an Appendix to this Standard Contract. Appendix G and Annex A to Appendix G are commonly referred to as Remittance Advice (RA) forms. RA
