SUPPLEMENTARY INFORMATION: NEH is an independent agency within the executive branch of the United States government, established by the National Foundation on the Arts and the Humanities Act of 1965. NEH extends financial assistance to individuals and organizations to support research, education, preservation, and public programs in the humanities. It also has statutory authority to extend financial assistance to cultural organizations to enable infrastructure development and capacity building, including through the design, purchase, construction, restoration, or renovation of facilities needed for humanities activities and historic landscapes.

NEPA and implementing regulations promulgated by CEQ (40 CFR parts 1500-1508) established a broad national policy to use all practicable means and

measures, including financial and technical assistance, in a manner calculated to foster and promote the general welfare, as well as to create and maintain conditions under which man and nature can exist in productive harmony and fulfill the social, economic, and other requirements of present and future generations of Americans. The CEQ regulations implementing the procedural provisions of NEPA are designed to ensure that this national policy, environmental considerations, and associated public concerns are given careful attention and appropriate weight in all decisions of the federal government. Sections 102(2) of NEPA and 40 CFR 1505.1 and 1507.3 require federal agencies to develop and, as needed, revise implementing procedures consistent with the CEQ regulations. NEH is issuing the following NEPA implementing procedures that comply with NEPA and supplement the CEQ regulations.

In accordance with CEQ regulations (40 CFR 1507.3), NEH consulted with CEQ prior to publication of the proposed procedures set forth below. These proposed procedures include proposed categorical exclusions specific to NEH projects and actions that NEH determined will not normally have a potentially significant effect, individually or cumulatively, on the human environment.

Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distribute impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. These procedures have not been designated a “significant regulatory action” because they do not: (1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy; a section of the economy; productivity; competition; jobs; the environment; public health or safety; or State, local, or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with an action taken or planned by another Agency; (3) materially alter the budgetary impact of entitlements,
