ACTION: Notice; issuance of permit.

SUMMARY: This notice sets forth the incidental take permit, which was address in the Environmental Assessment. On November 6, 2017, we published a notice of availability of the draft Environmental Assessment and requested review and comment in the Federal Register (82 FR 51398). The public comment period for the Environmental Assessment closed on December 6, 2017, and no comments were received. NMFS has issued the requested permit under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

This permit authorizes the incidental take of up to a total of six sea turtles, all live, in any combination, of any incidental takes of ESA-listed sea turtles that are harmed due to interactions with other fisheries in the area. Specifically, GSML will remove, taking into account any human safety considerations, any turtles it encounters entangled in fishing lines, nets, and trap ropes. If any of these sea turtles require care, GSML will transport them to a permitted sea turtle rehabilitation facility.
