1995 (47 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060–0392.

Title: 47 CFR 1 Subpart J—Pole Attachment Complaint Procedures.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 1,775 respondents; 1,775 responses.

Estimated Time per Response: 0.5–75 hours.

Frequency of Response: On occasion reporting and third-party disclosure requirements.

Obligation to Respond: Required to obtain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 224.

Total Annual Burden: 2,941 hours.

Total Annual Cost: $450,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: No questions of a confidential nature are asked. However, respondents may request that materials or information submitted to the Commission in a complaint proceeding be withheld from public inspection under 47 CFR 0.459.

Needs and Uses: The Commission is requesting OMB approval for a revision to an existing information collection. 47 CFR 1.1424 states that the procedures for handling pole attachment complaints filed by incumbent local exchange carriers (ILECs) are the same as the procedures for handling other pole attachment complaints. Currently, OMB Collection No. 3060–0392, among other things, tracks the burdens associated with utilities defending against complaints brought by ILECs related to unreasonable rates, terms, and conditions for pole attachments. In Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, WC Docket No. 17–84, Report and Order, Declaratory Ruling, and Further Notice of Proposed Rulemaking, FCC 17–154 (rel. Nov. 29, 2017) (Wireline Infrastructure Order), the Commission, among other things, expanded the type of pole attachment complaints that can be filed by ILECs, now allowing them to file complaints related to a denial of pole access by utilities. The Commission will use the information collected under this revision to 47 CFR 1.1424 to hear and resolve pole access complaints brought by ILECs and to determine the merits of the complaints.

OMB Control Number: 3060–0741.

Title: Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, GN Docket No. 17–84.

Form Number(s): N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 5,357 respondents; 573,928 responses.

Estimated Time per Response: 0.5–4.5 hours.

Frequency of Response: On occasion reporting requirements; recordkeeping and third-party disclosure requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 222 and 251.

Total Annual Burden: 575,448 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission’s rules.

Needs and Uses: Section 251 of the Communications Act of 1934, as amended, 47 U.S.C. 251, is designed to accelerate private sector development and deployment of telecommunications technologies and services by spurring competition. Section 222(e) is also designed to spur competition by prescribing requirements for the sharing of subscriber list information. These information collection requirements are designed to help implement certain provisions of sections 222(e) and 251, and to eliminate operational barriers to competition in the telecommunications services market. Specifically, these information collection requirements will be used to implement (1) local exchange carriers’ (“ILECs”) obligations to provide their competitors with dialing parity and non-discriminatory access to certain services and functionalities; (2) incumbent local exchange carriers’ (“ILECs”) duty to make network information disclosures; and (3) numbering administration. The Commission estimates that the total annual burden of the entire collection, as revised, is 575,840 hours. This revision relates to a change in one of many components of the currently approved collection—specifically, certain reporting, recordkeeping and/or third-party disclosure requirements under section 251(c)(5). In November 2017, the Commission adopted new rules concerning certain information collection requirements implemented under section 251(c)(5) of the Act, pertaining to network change disclosures. Most of the changes to those rules apply specifically to a certain subset of network change disclosures, namely notices of planned copper retirements. In addition, the changes remove a rule that prohibits incumbent LECs from engaging in useful advanced coordination with entities affected by network changes. The changes are aimed at removing unnecessary regulatory barriers to the deployment of high-speed broadband networks. As a result of these changes, the total annual burden hours have been reduced by 392 hours. The Commission estimates that the revision does not result in any additional outlays of funds for hiring outside contractors or procuring equipment.

Federal Communications Commission.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1122]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction
Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. 

OMB Control Number: 3060–1122. 

Title: Preparation of Annual Reports to Congress for the Collection and Expenditure of Fees or Charges for Enhanced 911 (E911) Services under the NET 911 Improvement Act of 2008. 

Form No.: Not applicable. 

Type of Review: Extension of a currently approved collection. 

Respondents: State, Local or Tribal Government. 

Number of Respondents and Responses: 56 respondents and 56 responses. 

Estimated Time per Response: 55 hours. 

Frequency of Response: Annual reporting requirement. 

Obligation to Respond: Voluntary. 

Total Annual Burden: 3,080 hours. 

Total Annual Cost: No Cost. 

Privacy Act Impact Assessment: No impact(s). 

Nature and Extent of Confidentiality: There is no need for confidentiality. 

Needs and Uses: The Federal Communications Commission (Commission) is directed by statute (New and Emerging Technologies 911 Improvement Act of 2008, Public Law 110–283, 122 Stat. 2620 (2008) (NET 911 Act)) to submit an annual “Fee Accountability Report” to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representative “detailing the status in each State of the collection and distribution [of] fees or charges” for “the support or implementation of 911 or enhanced 911 services,” including “findings on the amount of revenues obligated or expended by each State or political subdivision thereof for any purpose other than the purpose for which any such fees or charges are specified.” (NET 911 Act, 122 Stat. at 2622). The statute directs the Commission to submit its first annual report within one year after the date of enactment of the NET 911 Act. Given that the NET 911 Act was enacted on July 23, 2008, the first annual report was due to Congress on July 22, 2009.

Description of Information Collection: The Commission will collect information for the annual preparation of the Fee Accountability Report via a web-based survey that appropriate State officials (e.g., State 911 Administrators and Budget Officials) will be able to access to submit data pertaining to the collection and distribution of fees or charges for the support or implementation of 911 or enhanced 911 services, including data regarding whether their respective state collects and distributes such fees or charges, the nature (e.g., amount and method of assessment or collection) and the amount of revenues obligated or expended for any purpose other than the purpose for which any such 911 or enhanced 911 service fees or charges are specified. Consistent with Sections 6(f) of the NET 911 Act, the Commission will request that state officials report this information with respect to the fees and charges in connection with implementation of 911 or E–911 services within their state, including any political subdivision, Indian tribe and/or village and regional corporation serving any region established pursuant to the Alaska Native Claims Settlement Act that otherwise lie within their state boundaries. In addition, consistent with the definition of “State” set out in Section 3(40) of the Communications Act, the Commission will collect this information from, states as well as the District of Columbia and the inhabited U.S. Territories and possessions.
