Commission also notes that the Exchange has represented that it has the necessary systems capacity to handle the additional traffic associated with the listing and trading of this new product and it expects that the Exchange considered this expansion of the permissible range of strike prices in making such a representation.40

The Commission also believes that it is consistent with the Act to apply margin requirements to the proposed Index options that are otherwise applicable to options on broad-based indexes. The Commission further believes that the Exchange’s proposed minimum trading increment, series openings, and other aspects of the proposed rule change are appropriate and consistent with the Act.

As a national securities exchange, the Exchange is required, under Section 6(b)(1) of the Act,41 to enforce compliance by its members and persons associated with its members with the provisions of the Act, Commission rules and regulations thereunder, and its own rules. The Exchange has asserted its belief that there is a low potential for manipulation of the Index settlement value.42 The Exchange has represented that it has an adequate surveillance program in place for options traded on the Index, and will monitor for any potential manipulation of the Index settlement value according to its current surveillance procedures and additional surveillance measures.43 The Commission also notes the Exchange’s representation that it has the necessary systems capacity to support the new options series that will result from this proposal.44

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,45 that the proposed rule change (SR–MIAX–2018–6(b)(1)) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.46

Eduardo A. Aleman,
Assistant Secretary.

DEPARTMENT OF TRANSPORTATION
Federal Motor Carrier Safety Administration
[Docket No. FMCSA–2018–0236]

Hours of Service of Drivers: Rota-Mill, Inc.; Application for Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that it has received an application from Rota-Mill, Inc. (Rota-Mill) requesting exemptions from two requirements of the hours-of-service (HOS) regulations for drivers of commercial motor vehicles (CMVs): (1) The 30-minute rest break provision and (2) the requirement that short-haul drivers utilizing the record of duty status (RODS) exception return to their work-reporting location within 12 hours of coming on duty. The first exemption would enable drivers engaged in the transportation of milled asphalt and related materials and equipment to use 30 minutes or more of on-duty “waiting time” at a jobsite to satisfy the requirement for the 30-minute rest break, provided they do not perform any other work during the break. The second exemption would allow these drivers to use the short-haul exception, but return to their work-reporting location within 14 hours instead of the current 12 hours.

FMCSA requests public comment on Rota-Mill’s application for exemptions.
