20, 2018 until approximately 8:30 p.m. on October 20, 2018, the fireworks barge will be loading and staging at Pier 50. The safety zone will expand to all navigable waters around and under the fireworks barge within a radius of 420 feet in approximate position 37°48′15″ N, 122°23′27″ W (NAD 83) 30 minutes prior to the start of the 10 minute fireworks display, scheduled to begin at 9:30 p.m. on October 20, 2018.

(b) Enforcement period. The zone described in paragraph (a) of this section will be enforced from 11 a.m. on October 20, 2018 until approximately 10:10 p.m. on October 20, 2018. The Captain of the Port San Francisco (COTP) will notify the maritime community of periods during which these zones will be enforced via Notice to Mariners in accordance with 33 CFR 165.7.

(c) Definitions. As used in this section, “designated representative” means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer on a Coast Guard vessel or a Federal, State, or local officer designated by or assisting the COTP in the enforcement of the safety zone.

(d) Regulations. (1) Under the general regulations in 33 CFR part 165, subpart C, entry into, transiting or anchoring within this safety zone is prohibited unless authorized by the COTP or the COTP’s designated representative.

(2) The safety zone is closed to all vessel traffic, except as may be permitted by the COTP or a designated representative.

(3) Vessel operators desiring to enter or operate within the safety zone must contact the COTP or a designated representative to obtain permission to do so. Vessel operators given permission to enter or operate in the safety zone must comply with all directions given to them by the COTP or a designated representative. Persons and vessels may request permission to enter the safety zones on VHF—23A or through the 24-hour Command Center at telephone (415) 399–3547.

Anthony J. Ceraolo,
Captain, U.S. Coast Guard, Captain of the Port, San Francisco.

DEPARTMENT OF HOMELAND SECURITY
Coast Guard
33 CFR Part 165
[Docket Number USCG–2018–0910]
RIN 1625–AA00

Safety Zone; Fox River, Brown County Fireworks, Green Bay, WI
AGENCY: Coast Guard, DHS.
ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the Fox River in Green Bay, WI, for all navigable waters within a 210-foot radius of the approximate launch position at 44°31.016′ N, 088°01.016′ W (NAD 83). This action is necessary to protect spectators, mariners, vessels, and property from potential hazards associated with a fireworks display. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port Lake Michigan or a designated representative.

DATES: This rule is effective from 7 p.m. through 7:30 p.m. on October 26, 2018.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov, type USCG–2018–0910 in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions on this document, call or email the marine event coordinator, MSTD Kaleena Carpino, Prevention Department, Coast Guard Sector Lake Michigan, Milwaukee, WI; telephone (414) 747–7148, email D09-SMB-SECLakeMichigan-WWM@uscg.mil.

IV. Discussion of the Rule

The legal basis for this rule is the Coast Guard’s authority to establish safety zones: 33 U.S.C. 1231; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

The Coast Guard will enforce a safety zone on October 26, 2018, from 7 p.m. through 7:30 p.m., for a fireworks display on Fox River in Green Bay, WI. The Captain of the Port Lake Michigan has determined that this fireworks display will pose a significant risk to public safety and property. Such hazards include premature and accidental detonations, falling and burning debris, and collisions among spectator vessels.

With the aforementioned hazards in mind, the Captain of the Port Lake Michigan has determined that this temporary safety zone is necessary to protect persons and vessels during the fireworks display in the waters of Fox River, in Green Bay, WI. This zone is effective and will be enforced from 7 p.m. through 7:30 p.m. on October 26, 2018. The safety zone will encompass all navigable waters of Fox River within a 210-foot radius of the approximate launch position at 44°31.016′ N, 088°01.016′ W (NAD 83).
Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port Lake Michigan or a designated on-scene representative. The Captain of the Port or a designated on-scene representative may be contacted via VHF Channel 16.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive Orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive Orders, and we discuss First Amendment rights of protesters.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control costs through a budgeting process. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the size, location, duration, and time-of-year of the safety zone. The safety zone created by this rule will be relatively small and enforced for only 30 minutes. Under certain conditions, vessels may still transit through the safety zone when permitted by the Captain of the Port. Moreover, the Coast Guard will issue Broadcast Notice to Mariners via VHF–FM marine channel 16 about the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities that might be small entities: The owners or operators of vessels intending to transit or anchor in the affected portion of Fox River, in Green Bay, WI between 7 p.m. through 7:30 p.m. on October 26, 2018. This safety zone will not have a significant economic impact on a substantial number of small entities for the reasons cited in the Regulatory Planning and Review section. Additionally, before the enforcement of the zone, we will issue local Broadcast Notice to Mariners and Public Notice of Safety Zone so vessel owners and operators can plan accordingly.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132. Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a safety zone surrounding a fireworks display on Fox River, in Green Bay, WI. It is categorically excluded from further review under paragraph L[60(a)] of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 01. A Record of Environmental Consideration supporting this determination is available in the docket where indicated under ADDRESSES.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

40 CFR Part 52

Determination of Attainment by the Attainment Date and Clean Data Determination for the Logan, UT-ID 2006 24-Hour PM\textsubscript{2.5} Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is finalizing a determination of attainment by the attainment date and a clean data determination (CDD) for the 2006 24-hour fine particulate matter (PM\textsubscript{2.5}) Logan, Utah (UT)-Idaho (ID) nonattainment area. These determinations are based upon quality-assured, quality-controlled and certified ambient air monitoring data for the period 2015–2017, available in the EPA’s Air Quality System (AQS) database, showing that the area has attained the 2006 24-hour PM\textsubscript{2.5} National Ambient Air Quality Standards (NAAQS). Based on the final determination that the Logan, UT-ID nonattainment area is currently attaining the 24-hour PM\textsubscript{2.5} NAAQS, the EPA is also issuing the final determination that the obligation for Utah and Idaho to make submissions to meet certain Clean Air Act (CAA or the Act) requirements related to attainment of the NAAQS for this area is not applicable for as long as the area continues to attain the NAAQS. Additionally, the sanctions and Federal Implementation Plan (FIP) clocks triggered by the partial disapproval of the contingency measure element for the Idaho portion of the Logan, UT-ID PM\textsubscript{2.5} State Implementation Plan (SIP) will be suspended.

DATES: This final rule is effective on October 19, 2018.

ADDRESSES: The EPA has established dockets for this action under Docket ID No. EPA–R08–OAR–2018–0309 and/or Docket ID No. EPA–R10–OAR–2018–0316. All documents in the docket are listed on the https://www.regulations.gov website. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through http://www.regulations.gov, or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Crystal Ostigard, Air Program, EPA, Region 8, Mail Code 8P–AR, 1595 Wynkoop Street, Denver, Colorado 80202–1129, (303) 312–6602, ostigard.crystal@epa.gov, or Matthew Jentgen, Air Planning Unit, Office of Air and Waste (OAW–150), EPA, Region 10, 1200 Sixth Avenue, Suite 900, Seattle, Washington 98101; (206) 553–0340; jentgen.matthew@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background
On October 17, 2006 (71 FR 61144), the EPA revised the level of the 24-hour PM\textsubscript{2.5} NAAQS, lowering the primary and secondary standards from the 1997 standard of 65 micrograms per cubic meter (µg/m\textsuperscript{3}) to 35 µg/m\textsuperscript{3}. On November 13, 2009 (74 FR 59688), the EPA designated several areas as nonattainment for the 24-hour PM\textsubscript{2.5} NAAQS of 35 µg/m\textsuperscript{3}, including the Logan, Utah UT-ID nonattainment area. On July 17, 2018 (83 FR 33886), the EPA proposed to determine, based on the most recent 3 years (2015–2017) of valid data,\textsuperscript{1} that the Logan, UT-ID nonattainment area has attained the 2006 primary and secondary 24-hour PM\textsubscript{2.5} NAAQS by the December 31, 2017 attainment date. In addition, based on the CDD, the EPA also proposed to determine that the obligation to submit any remaining attainment-related SIP revisions arising from classification of the Logan, UT-ID area as a Moderate nonattainment area under subpart 4 of part D (of title I of the Act) for the 2006 24-hour PM\textsubscript{2.5} NAAQS is not applicable so long as the area continues to attain the 2006 24-hour PM\textsubscript{2.5} NAAQS.

Additional detail can be found in the July 17, 2018 (83 FR 33886) proposed action.

II. Response to Comments
The EPA received eight public comments on the proposed action. Three of the comments related to forestry practices and wildfire management, primarily in California. One comment related to child labor practices in South America. One comment related to homelessness in California. Another comment discussed

\textsuperscript{1} Meeting the requirements of 40 CFR part 50, appendix N, and part 58.
