Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received final OMB approval on October 9, 2018, for the information collection requirements contained in the modifications to the Commission’s rules in 47 CFR part 64.

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060–1186.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

Needs and Uses: The Commission has found that rural call completion is a continuing problem imposing needless economic and personal costs on local communities, and that continued Commission focus on the issue is warranted. The information collected

through these data collections will be used by the Commission to determine whether long distance providers are complying with their sections 201 and 202 obligations to provide telephone service to both rural and nonrural customers on a just, reasonable, and nondiscriminatory basis. The Commission revised this collection to eliminate the existing reporting requirement and to require covered providers to provide rural call completion contact information, which will be used to facilitate industry collaboration to address call completion issues.

Federal Communications Commission.
