Abstract: Section 1018 of the Residential Lead Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4852d) requires that sellers and lessors of most residential housing built before 1978 disclose known information on the presence of lead-based paint and lead-based paint hazards, and provide an EPA approved pamphlet to purchasers and renters before selling or leasing the housing. Sellers of pre-1978 housing are also required to provide prospective purchasers with ten days to conduct an inspection or risk assessment for lead-based paint hazards before obligating purchasers under contracts to purchase the property. The rule does not apply to rental housing that has been found to be free of lead-based paint, zero-bedroom dwellings, housing for the elderly,

housing for the handicapped, or short-term leases. The affected parties and the information collection-related requirements related to each are described below:

1. Sellers of pre-1978 housing must attach certain notification and disclosure language to their sales/leasing contracts. The attachment lists the information disclosed and a statement of compliance by the seller, purchaser and any agents involved in the transaction.

2. Lessors of pre-1978 housing must attach notification and disclosure language to their leasing contracts. The attachment, which lists the information disclosed and a statement of compliance with all elements of the rule, must be signed by the lessor, lessee and any agents acting on their behalf. Agents and lessors must retain the information for three years from the completion of the transaction.

3. Agents acting on behalf of sellers or lessors are specifically required by Section 1018 to comply with the disclosure regulations described above.

Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Form numbers: None.

Respondents/affected entities: Persons engaged in selling or leasing certain residential dwellings built before 1978, or who are real estate agents representing such parties.

Respondent's obligation to respond: Mandatory (see 40 CFR part 790).

Estimated number of respondents: 21,504,926 (total).

Frequency of response: On occasion.

Total estimated burden: 5,952,344 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$130,067,754 (per year), which includes \$0 annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is a decrease of 514,832 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease to the estimated number of respondents based on updates to data sources, and revisions based on market factors.
