SUPPLEMENTARY INFORMATION:

A. Purpose

In accordance with FAR 16.4, incentive contracts are normally used when a firm fixed-price contract is not appropriate and the required supplies or services can be acquired at lower costs, and sometimes with improved delivery or technical performance, by relating the amount of profit or fee payable under the contract to the contractor's performance.

The information required periodically from the contractor, such as cost of work already performed, estimated costs of further performance necessary to complete all work, total contract price for supplies or services accepted by the Government for which final prices have been established, and estimated costs allocable to supplies or services accepted by the Government and for which final prices have not been established, is needed to negotiate the final prices of incentive-related items and services. Contractors are required to submit the information in accordance with several incentive fee FAR clauses: FAR 52.216–16, Incentive Price Revision—Firm Target; FAR 52.216–17, Incentive Price Revision—Successive Targets; and FAR 52.216–10, Incentive Fee.

The contracting officer evaluates the information received to determine the contractor's performance in meeting the incentive target and the appropriate price revision, if any, for the items or services.

SUPPLEMENTARY INFORMATION:

A. Purpose

The policies implemented at FAR 37.115, Uncompensated Overtime, are based on Section 834 of Public Law 101–510 (10 U.S.C. 2331). The policies require insertion of FAR provision 52.237–10, Identification of Uncompensated Overtime, in all solicitations valued at or above the simplified acquisition threshold, for professional or technical services to be acquired on the basis of the number of hours to be provided.

The provision requires that offerors identify uncompensated overtime hours, in excess of 40 hours per week, and the uncompensated overtime rate for direct charge Fair Labor Standards Act—exempt personnel. This permits Government contracting officers to ascertain cost realism of proposed labor rates for professional employees and discourages the use of uncompensated overtime.

B. Annual Reporting Burden

The burden placed on offerors is the time required to identify and support any hours in excess of 40 hours per week included in their proposal or subcontractor's proposal. It is estimated that there will be 27,546 service contracts awarded annually at \$150,000 or more, of which 65 percent, or 17,905, contracts will be competitively awarded. About seven proposals will be received for each contract award. Of the total 125,335 (17,905 × 7) proposals received, only 25 percent, or 31,334, proposals are expected to include uncompensated overtime hours. It is estimated that offerors will take about

30 minutes to identify and support any hours in excess of 40 hours per week included in their proposal or subcontractor's proposal.

Number of Respondents: 31,334.

Responses per Respondent: 1.

Total Annual Responses: 31,334.

Average Burden Hours per Response:

.5.

Total Burden Hours: 15,667.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulation (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

A. Overview of Information Collection

Description of the Information Collection

1. *Type of Information Collection:* Revision/Renewal of a currently approved collection.

2. *Title of the Collection:*—Labor-related Requirements.

3. *Agency form number, if any:*—SF 1413, SF 1444.

Solicitation of Public Comment

Written comments and suggestions from the public should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

B. Purpose

This information collection requirement, OMB Control No. 9000-0066, currently titled "Professional Employee Compensation Plan," is proposed to be retitled "Labor-related Requirements," due to consolidation with currently approved information collection requirements OMB Control Nos. 9000-0175, 9000-0089, 9000-0014, and 9000-0155.

This clearance covers the information that offerors and contractors must submit to comply with the following labor requirements in the Federal Acquisition Regulation (FAR):

1. 52.222-2, Payment for Overtime Premiums. Paragraph (b) of this clause requires a contractor requesting overtime premiums that exceed the amount specified in paragraph (a) of the clause to do the following: (1) Identify the work unit; e.g., department or section in which the requested overtime will be used, together with present workload, staffing, and other data of the affected unit sufficient to permit the Contracting Officer to evaluate the necessity for the overtime; (2) Demonstrate the effect that denial of the request will have on the contract delivery or performance schedule; (3) Identify the extent to which approval of overtime would affect the performance or payments in connection with other Government contracts, together with identification of each affected contract; and (4) Provide reasons why the required work cannot be performed by using multishift operations or by employing additional personnel.

2. 52.222-6, Construction Wage Rate Requirements, paragraph (c) requires the contractor to establish additional classifications, if any laborer or mechanic is to be employed in a
