containment buildings and drip pads; air emission standards for large quantity generators; recordkeeping and reporting requirements; flexibilities for VSQGs and SQGs; and export/import requirements.

**Form Numbers:** None.

**Respondents/affected entities:** Private business or other for-profit.

**Respondent’s obligation to respond:** Mandatory (40 CFR part 262 and 265).

**Estimated number of respondents:** 644,345.

**Frequency of response:** On occasion.

**Total estimated burden:** 526,989 hours per year. Burden is defined at 5 CFR 1320.00(b).

**Total estimated cost:** $31,367,417 per year, which includes $63,345 in annualized capital or operation & maintenance costs.

**Changes in the Estimates:** There is an increase of 273,470 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due primarily to changes in the universe size due to the 2016 Hazardous Waste Generators Improvements Rule.

Courtney Kerwin,
Director, Regulatory Support Division.

[FR Doc. 2018–23558 Filed 10–26–18; 8:45 am]
rules are being consolidated into this ICR.

Form Numbers: None. 
Respondents/affected entities: Entities potentially affected by this action are Business or other for-profit. 
Respondent’s obligation to respond: Required to obtain benefit (Sections 1004 and 2002 of RCRA). 
Estimated number of respondents: 2,076. 
Frequency of response: One time. 
Total estimated burden: 3,236. 
Burden is defined at 5 CFR 1320.03(b). 
Total estimated cost: $108,068 (per year), which includes $106,716 in annualized labor and $1,343 in annualized capital or operation & maintenance costs. 
Changes in Estimates: The burden hours are likely to stay substantially the same. 
Dated: October 18, 2018.
Barnes Johnson, 
Director, Office of Resource Conservation and Recovery.

EPA is soliciting public comments on the proposal to collect information described in this Notice. The proposed information collection is being made pursuant to section 3006(c)(2)(A) of the PRA. The EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Under the authority of sections 3004, 3005, 3008 and 3010 of the Resource Conservation and Recovery Act (RCRA), as amended, EPA revised the RCRA hazardous waste permitting program to allow a “standardized permit.” The standardized permit is available to facilities that generate hazardous waste and routinely manage the waste on-site in non-thermal units such as tanks, containers, and containment buildings. In addition, the standardized permit is available to facilities that receive hazardous waste generated off-site by a generator under the same ownership as the receiving facility, and then store or non-thermally treat the hazardous waste in containers, tanks, or containment buildings. The RCRA standardized permit consists of two components: A uniform portion that is included in all cases, and a supplemental portion that the Director of a regulatory agency includes at his or her discretion. The uniform portion consists of terms and conditions, relevant to the unit(s) at the permitted facility, and is established on a national basis. The Director, at his or her discretion, may also issue a supplemental portion on a case-by-case basis. The supplemental portion imposes site-specific permit terms and conditions that the Director determines necessary to institute corrective action under section 264.101 (or state equivalent), or otherwise necessary to protect human health and the environment. Owners and operators have to comply with the terms and conditions in the supplemental portion, in addition to those in the uniform portion.

Form numbers: None. 
Respondents/affected entities: Entities potentially affected by this action are Business or other for-profit. 
Respondent’s obligation to respond: Voluntary (40 CFR 278.275). 
Estimated number of respondents: 86. 
Frequency of response: On occasion. 
Total estimated burden: 13,948 hours. 
Burden is defined at 5 CFR 1320.03(b). 
Total estimated cost: $1,242,205 (per year), includes $862,478 in annualized labor and $579,727 in annualized capital or operation & maintenance costs. 
Changes in estimates: The burden hours are likely to stay substantially the same. 

ADDITIONAL INFORMATION:

Submit your comments, referencing by Docket ID No. EPA–HQR–OLEM–2018–0691, online using www.regulations.gov (our preferred method), by email to rcradocket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 22822T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Jeff Gaines, Office of Resource Conservation and Recovery, (5303P), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 703–308–8655; fax number: 703–308–8617; email address: gaines.jeff@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3006(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the
