SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; NYSE Arca, Inc.; Order Approving a Proposed Rule Change To Amend NYSE Arca Rule 1.1(ll) To Modify the Formula for Establishing the Official Closing Price for a Derivative Securities Product When There Is No Closing Auction or if the Closing Auction Is Less Than One Round Lot, by Excluding the NBBO Midpoint if the Midpoint Multiplied by 10% Is Less Than the NBBO Spread or if the NBBO Is Crossed

October 23, 2018.

I. Introduction

On August 29, 2018, NYSE Arca, Inc. ("Exchange" or "NYSE Arca") filed with the Securities and Exchange Commission ("Commission") pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") and Rule 19b–4 thereunder,2 a proposed rule change to amend NYSE Arca Rule 1.1(ll) to exclude from the time-weighted average price ("TWAP") calculation, for purposes of determining the Official Closing Price3 for an Exchange-listed security that is a Derivative Securities Product4 if the Exchange does not conduct a Closing Auction5 or if a Closing Auction trade is less than a round lot.6 As described in the Notice, the Exchange had sought a method for deriving the Official Closing Price that would be more indicative of the actual value of the securities, in particular for listed securities that are thinly traded or generally illiquid.7 Prior to approval of the OCP Filing, the Official Closing Price for such securities would have been based on a last-sale trade that may have been hours, days, or even months old and therefore not necessarily indicative of their true and current value.8 With approval of the OCP Filing, the Exchange adopted a revised calculation to derive the value for securities that have a potentially stale last-price, depending on when the last consolidated last-sale eligible trade occurred. Specifically, for such securities, the Official Closing Price would be derived by adding a percentage of the TWAP of the NBBO midpoint measured over the last five minutes before the end of Core Trading Hours and a percentage of the last consolidated last-sale eligible trade before the end of Core Trading Hours on that trading day.9

The Exchange now proposes to further amend NYSE Arca Rule 1.1(ll)(1)(B) to exclude from the TWAP calculation a midpoint that is based on an National Best Bid and Offer ("NBBO") that may not be reflective of the security’s true and current value. The proposed rule change was published for comment in the Federal Register on September 17, 2018.10 The Commission received no comment letters on the proposed rule change. This order approves the proposed rule change.

II. Description of the Proposed Rule Change

On March 20, 2018, the Commission approved the Exchange’s proposal ("OCP Filing") to amend NYSE Arca Rule 1.1(ll) to provide for how the Official Closing Price is determined for an Exchange-listed security that is a Derivative Securities Product if the Exchange does not conduct a Closing Auction or if a Closing Auction trade is less than a round lot.7 As described in the Notice, the Exchange had sought a method for deriving the Official Closing Price that would be more indicative of the actual value of the securities, in particular for listed securities that are thinly traded or generally illiquid.8 Prior to approval of the OCP Filing, the Official Closing Price for such securities would have been based on a last-sale trade that may have been hours, days, or even months old and therefore not necessarily indicative of their true and current value. With approval of the OCP Filing, the Exchange adopted a revised calculation to derive the value for securities that have a potentially stale last-price, depending on when the last consolidated last-sale eligible trade occurred. Specifically, for such securities, the Official Closing Price would be derived by adding a percentage of the TWAP of the NBBO midpoint measured over the last five minutes before the end of Core Trading Hours and a percentage of the last consolidated last-sale eligible trade before the end of Core Trading Hours on that trading day.9

The Exchange now proposes to further amend NYSE Arca Rule 1.1(ll)(1)(B) to exclude from the TWAP calculation a midpoint that is based on an National Best Bid and Offer ("NBBO") that may not be reflective of the security’s true and current value. The proposed rule change was published for comment in the Federal Register on September 17, 2018. The Commission received no comment letters on the proposed rule change. This order approves the proposed rule change.

12 The Exchange notes that its proposed change to the Official Closing Price calculation in this scenario is similar to how it considers an "Auction NBBO," which is used as a basis for determining the Auction Reference Price for the Core Open Auction.13 To qualify as an Auction NBBO for the Core Open Auction, there must be both a bid and an offer that is not zero, the NBBO cannot be crossed, and the midpoint of the NBBO when multiplied by a designated percentage cannot be greater than or equal to the spread of the NBBO.14

The Exchange also proposes a non-substantive clarifying change to NYSE Arca Rule 1.1(ll) to specify that the process under NYSE Arca Rule 1.1(ll)(1)(D) would be utilized if the Official Closing Price cannot be determined under NYSE Arca Rule1.1(ll)(1)(A), (B), or (C). The Exchange anticipates the implementation date for the proposed rule change will be in the first quarter of 2019, and the Exchange will announce such implementation date by Trader Update.16

III. Discussion and Commission’s Findings

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange. In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act, which requires, among other things, that the rules of a national securities exchange be

10 See Notice, supra, note 6, at 46981.
11 See Notice, supra, note 6, at 46981.
12 See Notice, supra, note 6, at 46981–82.
13 The term “Auction NBBO” means an NBBO that is used for purposes of pricing an auction. See NYSE Arca Rule 7.35–E(a)(5). The Exchange also uses the Auction NBBO for determining the Indicative Match Price in specified situations for the Closing Auction. See NYSE Arca Rule 7.35–E(a)(8)(C).
14 See NYSE Arca Rule 7.35–E(a)(5). The Exchange notes that, unlike its current proposal to codify a designated percentage of ten percent (10%) to be used in the TWAP calculation for the Official Closing Price, the designated percentage used for determining the Auction NBBO for the Core Open Auction is determined by the Exchange upon prior notice to ETP Holders. See Notice, supra, note 6, at 46982.
15 See proposed NYSE Arca Rule 1.1(ll)(1)(D).
16 See Notice, supra, note 6, at 46982.
17 In approving this proposed rule change, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78s(f).
achieve the Act’s objectives to protect investors and the public interest. Accordingly, the Commission finds that the proposed rule change is consistent with the requirements of the Act.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,22 that the proposed rule change (SR–NYSEArca–2018–63) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.

Eduardo A. Aleman,
Assistant Secretary.

BILLING CODE P

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; The Options Clearing Corporation; Order Approving Proposed Rule Change Related to The Options Clearing Corporation’s Board of Directors and Board Committee Charters

October 23, 2018.

I. Introduction

II. Background

As a general matter, the Proposed Rule Change would amend the charters to provide that in carrying out their responsibilities the Board and the committees would prioritize the safety and efficiency of OCC, generally support the stability of the broader financial system and consider the legitimate interests of Clearing Members, customers of Clearing Members and other relevant stakeholders, including OCC’s shareholders and other participant exchanges, taking into account prudent risk management standards (including systemic risk mitigation) and industry best practices.

A. Clarity and Transparency

Several of the changes within the Proposed Rule Change seek to better describe OCC’s current processes. Such changes range from clarification (e.g., changing “annually” to “each calendar year”) to removal of redundancies (e.g., where a requirement is found elsewhere in OCC’s rules) to stating the existing functions and responsibilities of OCC’s Board and Board committees. These changes are described in more detail below.

The Proposed Rule Change would make a number of changes to OCC’s Board committee charters to clarify that, where certain actions were required to be performed “annually” under the charters, those actions would now be required to occur “each calendar year.” OCC believes that it is appropriate to clarify which actions are required on an every twelve months-basis, particularly in cases where a regulatory requirement
