**Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People’s Republic of China: Amended Final Results of Countervailing Duty Administrative Review; 2015**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) is amending the final results of the countervailing duty administrative review of crystalline silicon photovoltaic cells, whether or
not assembled into modules (solar cells), from the People’s Republic of China (China) to correct a ministerial error.

**DATES:** Applicable October 30, 2018.

**SUPPLEMENTARY INFORMATION:**

**Background**

In accordance with section 751(a)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.221(b)(5), on July 23, 2018, Commerce published its final results in the administrative review of the countervailing duty order on solar cells from China for the period of review (POR) January 1, 2015, through December 31, 2015. On August 2, 2018, Canadian Solar Inc. (Canadian Solar), a respondent in this administrative review, submitted timely ministerial error allegations concerning the Final Results. On August 7, 2018, SolarWorld Americas, Inc. timely filed rebuttal comments to Canadian Solar’s allegations. No other parties submitted ministerial allegations or comments on Canadian Solar’s allegations. Complaints were filed with the U.S. Court of International Trade (the Court, or CIT) challenging the Final Results. The United States sought leave from the Court to address these ministerial error allegations. The Court granted the United States’ request and allowed until November 5, 2018, to issue any amended final results.

**Scope of the Order**

The merchandise covered by this order is crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels and building integrated materials. Merchandise covered by this order is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 8501.61.0000, 8507.20.80, 8541.40.6020, 8541.40.6030, and 8501.31.8000. These HTSUS subheadings are provided for convenience and customs purposes; the written description of the scope of this order is dispositive. A full description of the scope of the order is contained in the Final Results Decision Memorandum.

**Ministerial Errors**

Section 751(h) of the Act and 19 CFR 351.224(f) define a “ministerial error” as an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial. Commerce finds that an error alleged by Canadian Solar regarding the calculation of the benchmark used to calculate benefits in the Aluminum Extrusions for Less Than Adequate Remuneration (LTAR) Program constitutes a ministerial error within the meaning of 19 CFR 351.224(f).

In accordance with section 751(h) of the Act and 19 CFR 351.224(e), we are amending the Final Results to correct the ministerial error. Specifically, we are amending the net subsidy rates for the mandatory company respondents (i.e., Canadian Solar and Changzhou Trina Solar Energy Co., Ltd.) for the companies for which a review was requested that were not selected as mandatory company respondents (i.e., the non-selected companies subject to this review). The revised net subsidy rates are provided below.

**Amended Final Results**

As a result of correcting the ministerial error, we determine the countervailable subsidy rates for the producers/exporters under review to be as follows:
