SUPPLEMENTARY INFORMATION: The ITARA became law on June 22, 2016. Title II of ITARA authorizes the Secretary of the Interior (Secretary) to establish and carry out an Indian trust asset management demonstration project (demonstration project or project). The demonstration project will allow participating Tribes to enter into, approve, and carry out surface leasing transaction or forest land management activity without approval of the Secretary if certain conditions are met.

Once the demonstration project is established, eligible Tribes may request to participate by submitting to the Secretary a complete application package. Applications must include a copy of a resolution or other appropriate action by the governing body of the Indian Tribe in support of or authorizing the application and state that the Indian Tribe is requesting to participate in the demonstration project. The Secretary will provide a written notice to each Tribe approved to participate in the project.

Tribes that have been selected to participate in the project may submit to the Secretary a proposed Indian trust asset management plan. Under section 204(a)(2) of ITARA, Indian trust asset management plans must:

(A) Identify the trust assets that will be subject to the plan;

(B) Establish trust asset management objectives and priorities for Indian trust assets that are located within the reservation, or otherwise subject to the jurisdiction, of the Indian Tribe;

(C) Allocate trust asset management funding that is available for the Indian trust assets subject to the plan in order to meet the trust asset management objectives and priorities;

(D) Identify functions or activities that are being or will be performed by the Indian Tribe under contract, compacts, or other agreements under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5301 *et seq.*), which may include any of the surface leasing or forest land management activities authorized by the proposed management plan and describe the practices and procedures that the Indian Tribe will follow;

(E) Establish procedures for nonbinding mediation or resolution of any dispute between the Indian Tribe and the United States relating to the trust asset management plan;

(F) Include a process for the Indian Tribe and the Federal agencies affected by the trust asset management plan to conduct evaluations to ensure that trust assets are being managed in accordance with the plan; and

(G) Identify any Federal regulations that will be superseded by the plan.

Further, in accordance with section 204(c), an Indian trust asset management plan, and any activity carried out under the plan, shall not be approved unless the proposed plan is consistent with any treaties, statutes, and executive orders that are applicable to the trust assets, or the management of the trust assets, identified in the plan.

The Secretary may approve an Indian trust asset management plan that includes a provision authorizing the Tribe to enter into, approve, and carry out a surface leasing transaction or forest management activity without approval of the Secretary, regardless of whether the surface leasing transaction or forest land management activity would require such an approval under otherwise applicable law (including regulations), under certain conditions described in section 205. Under section 204(b), the Secretary has 120 days to approve or disapprove a Tribe's proposed management plan.

A draft template of an Indian trust asset management plan is available at the following website: <https://www.bia.gov/as-ia/raca/regulations-and-other-documents-in-development>.

Cancellation of Withdrawal Application and Withdrawal Proposal and Termination of Environmental Impact Statement for California Desert Conservation Area Withdrawal, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of cancellation.

SUMMARY: The Bureau of Land Management (BLM) has canceled its withdrawal application and the withdrawal proposal relating to 1,337,904 acres of public lands within designated California Desert National Conservation Lands. The BLM has determined that the lands are no longer needed in connection with the proposed withdrawal. This notice terminates the temporary segregation from location and entry under the United States mining laws, subject to valid existing rights, the provision of existing withdrawals, other segregations of record, and the requirements of applicable law, as described further below. The BLM has also terminated the preparation of an

Environmental Impact Statement evaluating this application and proposal.

DATES: This Notice is applicable on February 7, 2018.

FOR FURTHER INFORMATION CONTACT: Russell Scofield, Desert Renewable Energy Conservation Plan Implementation Lead, phone: 760-833-7139, 1201 Bird Center Drive, Palm Springs, CA 92262-8001; email ascofiel@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to reach the BLM contact person. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Withdrawal was published in the **Federal Register** (81 FR 95738) on December 28, 2016, of the Department's proposal to withdraw 1,337,904 acres of public lands within designated California Desert National Conservation Lands from location and entry under the United States mining laws, but not from mineral or geothermal leasing or mineral materials laws, subject to valid existing rights. Because the BLM has determined that the lands are no longer needed in connection with the proposed withdrawal, the BLM has canceled the proposed withdrawal and its application in support thereof and has terminated the associated environmental analysis process.

Pursuant to 43 CFR 2310.1-4, the segregative effect for the lands described in 81 FR 95738 is terminated and the lands opened as follows: At 10 a.m. on March 9, 2018, the public lands described will be opened to location and entry under the United States mining laws, subject to valid existing rights, the provision of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of lands under the mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The BLM will not intervene in disputes between rival locators over possessory rights given that Congress

has provided for such determinations in local courts.

Jerome E. Perez,
California State Director.
