**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Rubber Tire Manufacturing (40 CFR part 63, subpart XXXX) apply to existing and new facilities that are involved in rubber processing, tire production, tire cord production, and puncture sealant application. New facilities include those that commenced construction or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart XXXX.

**Form Numbers:** None.

**Respondents/affected entities:** Rubber tire manufacturers.

**Respondent's obligation to respond:** Mandatory (40 CFR part 63, subpart XXXX).

**Estimated number of respondents:** 23 (total).

**Frequency of response:** Initially, occasionally, semiannually, and annually.

**Total estimated burden:** 6,520 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$910,000 (per year), which includes \$0 annualized capital/startup and/or operation & maintenance costs.

**Changes in the estimates:** This ICR reflects the requirements for on-going compliance (existing facilities) with the rule. The number of sources presented in this ICR reflects current data obtained from industry, including information on the use of compliance alternatives used by the affected facilities. Based on consultations with the trade group, no facilities are using control devices to comply with the requirements.

**Abstract:** Section 609 of the Clean Air Act Amendments of 1990 (Act) provides general guidelines for the servicing of motor vehicle air conditioners (MVACs). It states that "no person repairing or servicing motor vehicles for consideration may perform any service on a motor vehicle air conditioner involving the refrigerant for such air conditioner without properly using approved refrigerant recycling equipment and no such person may perform such service unless such person has been properly trained and certified." In 1992, EPA developed regulations under section 609 that were published in 57 FR 31242, and codified

at 40 CFR Subpart B (Section 82.30 *et seq.*). The information required to be collected under the section 609 regulations is: Approved refrigerant handling equipment; approved independent standards testing organizations; technician training and certification; and certification, reporting and recordkeeping.

*Form Numbers:* None.

*Respondents/affected entities:* The following is a list of NAICS codes for organizations potentially affected by the information requirements covered under this ICR. It is meant to include any establishment that may service or maintain motor vehicle air conditioners.

4411 Automobile Dealers

4413 Automotive Parts, Accessories, and Tire Stores

44711 Gasoline Stations with Convenience Stores

8111 Automotive Repair and Maintenance

811198 All Other Automotive Repair and Maintenance

Other affected groups include independent standards testing organizations and organizations with technician certification programs.

*Respondent's obligation to respond:* Mandatory (40 CFR 82.36, 82.38, 82.40, 82.42).

*Estimated number of respondents:* 45,902 (per year).

*Frequency of response:* On occasion, biennially, only once.

*Total estimated burden:* 4,130 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$218,009 (per year), includes \$0 annualized capital or operation & maintenance costs.

*Changes in estimates:* There is a decrease of 33 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due in part to a decrease in the number of new technician certifications and the time allotted for maintenance of the technician certification records. The time associated with the maintenance of these records has decreased, recognizing the move towards electronic recordkeeping which may be more efficient. Additionally, a decrease in the market for small containers of CFC-12 refrigerant has also decreased the burden.

#### SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

*Abstract:* This information collection request pertains to trade secrecy claims submitted under Section 322 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA). EPCRA contains provisions requiring facilities to report to state and local authorities, and EPA, the presence of extremely hazardous substances (Section 302), inventory of hazardous chemicals (Sections 311 and 312) and manufacture, process and use of toxic chemicals (Section 313). Section 322 of EPCRA allows a facility to withhold the specific chemical identity from these EPCRA reports if the facility asserts a trade secret for that chemical claim for that chemical identity. The provisions in Section 322 establish the requirements and procedures that facilities must follow to request trade secret treatment of chemical identities, as well as the procedures for submitting public petitions to the Agency for review of the "sufficiency" of trade secret claims.

Trade secret protection is provided for specific chemical identities contained in reports submitted under each of the following sections of EPCRA: (1) Section 303 (d)(2)—Facility notification of changes that have or are about to occur; (2) Section 303 (d)(3)—Local Emergency Planning Committee (LEPC) requests for facility information to develop or implement emergency plans; (3) Section 311—Material Safety Data Sheets (MSDSs) submitted by facilities, or lists of those chemicals submitted in place of the MSDSs; (4) Section 312—Emergency and hazardous chemical inventory forms (Tier I and Tier II); and (5) Section 313 Toxic chemical release inventory form.

*Form Numbers:* EPA Form 9510-1.

*Respondents/affected entities:* Manufacturer and non-manufacturer facilities subject to reporting under
