DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: U.S. Census Bureau.

Title: Spatial, Address, and Imagery Data Program (SAID).

OMB Control Number: 0607-XXXX.

Form Number(s): N/A.

Type of Request: Regular submission.

Needs and Uses: The Spatial, Address, and Imagery Data (SAID) Program, formerly known as the Geographic Support System Partnership Program, is one of seven voluntary geographic partnership programs that collect data to update the U.S. Census Bureau's geographic database of addresses, streets, boundaries, and imagery known as the Master Address File/Topologically Integrated Geocoding and Referencing (MAF/TIGER) System.

The data within the MAF/TIGER System supports the Census Bureau's geographic framework for data collection, tabulation and dissemination. This framework enables the Census Bureau field personnel to navigate to the appropriate locations for data collection, and it enables the Census Bureau to accurately link demographic data from surveys and the decennial census to locations and areas, such as cities, school districts, and counties for data tabulation and dissemination.

The data collected in the SAID Program is also used to define geographic boundaries, including census blocks, and to place households and group quarters in a specific census block. The SAID Program follows the process below:

1. The Census Bureau invites participants, including tribal, state, county, and local governments; federal agencies; and other organizations each fiscal year.
2. Participants provide a current address data with associated location points and attributes, spatial data, and/or imagery that is no more than two years old.
3. Participants upload the requested data files to a Census Bureau Secure File Transfer Protocol site, per Census Bureau procedures, or provide a media from which the data can be acquired.
4. The Census Bureau updates the MAF/TIGER System with the address and street centerline data provided by

the participants and uses the provided imagery for quality control and change detection.

5. The Census Bureau uses these updated addresses, streets, and imagery to support Census Bureau field operations, surveys, and data tabulation.

The SAID Program provides the Census Bureau with a continuous method to obtain current, accurate, and complete address, spatial, and imagery data. The SAID Program helps the Census Bureau maintain its geographic framework for data collection, tabulation, and dissemination between decennial censuses and to support ongoing programs, such as the American Community Survey and the Population Estimates Program. Over the past six years, the SAID Program, under the name of the Geographic Support System Partnership Program, has enabled the Census Bureau to update addresses and street centerlines across the country, with participation covering nearly 94 percent of the housing units in the nation. Moving forward, the SAID Program will continue to focus on acquiring addresses, street centerlines, and imagery in targeted areas. The Geographic Support System Partnership Program was previously included in the Geographic Partnership Program Generic Clearance (OMB Control Number 0607-0795).

Affected Public: Tribal, state, county, and local governments and organizations.

DEPARTMENT OF COMMERCE

International Trade Administration

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Brenda E. Brown, Office of AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-4735.

Background

Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspended investigation, an interested party, as defined in section 771(9) of the Tariff Act of 1930, as amended (the Act), may request, in accordance with 19 CFR 351.213, that the Department of Commerce (Commerce) conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation.

All deadlines for the submission of comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting date.

Respondent Selection

In the event Commerce limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, Commerce intends to select respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports during the period of review. We intend to release the CBP data under Administrative Protective Order (APO) to all parties having an APO within five days of

publication of the initiation notice and to make our decision regarding respondent selection within 21 days of publication of the initiation **Federal Register** notice. Therefore, we encourage all parties interested in commenting on respondent selection to submit their APO applications on the date of publication of the initiation notice, or as soon thereafter as possible. Commerce invites comments regarding the CBP data and respondent selection within five days of placement of the CBP data on the record of the review.

In the event Commerce decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, Commerce finds that determinations concerning whether particular companies should be "collapsed" (*i.e.*, treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the respondent selection phase of a review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (*i.e.*, investigation, administrative review, new shipper review or changed circumstances review). For any company subject to a review, if Commerce determined, or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, if companies are requested to complete
