SUPPLEMENTARY INFORMATION: In 2011, the BLM and OMYA Inc. entered into a Settlement Agreement to resolve the unauthorized use of public lands associated with OMYA's mining operations at its White Knob Quarry. In accordance with that Settlement Agreement, the BLM is considering a direct sale of public land to OMYA under the authority of 43 U.S.C. 1713 and 1719 (Sections 203 and 209 of FLPMA). The BLM published a Notice of Intent (NOI) to prepare an EA and an Amendment to the CDCA Plan in the **Federal Register** on October 4, 2012. The NOI provided for a 30-day public scoping period for the LUPA, announced the beginning of the scoping process for the EA, and sought public input on environmental issues. No public comments were received.

The Proposed Action (Alternative A) includes the direct land sale of 70 acres of public land to OMYA to resolve the unauthorized use and meet OMYA's need for additional land for disposal of mine waste. To accommodate the proposed land sale, a LUPA is required to change the land use designation of the affected parcel from an Area of Critical Environmental Concern (ACEC) to General Public Lands (GPL). The parcel proposed for sale is currently within the Granite Mountain Wildlife Linkage ACEC as designated in the Desert Renewable Energy and Conservation Plan. The ACEC provides a link for wildlife populations to the north and south of this area. The LUPA

would also satisfy the criteria for the sale of public lands under Sections 203 and 209 of FLPMA. In addition to the Proposed Action, two other alternatives are included in the EA. Alternative B (No Action), does not authorize a direct sale of public land, authorizes the continued management of the placer mining claims owned by OMYA and orders the restoration of the site consistent with the applicable mining law. Alternative C provides for a direct land sale of 45 acres of public land to OMYA; a LUPA to remove 45 acres from the Granite Mountain Wildlife Linkage ACEC; and change the land use designation of the affected parcel to GPL, with continued management of the remainder of the placer claims owned by OMYA consistent with the 1872 Mining Law. Alternative A is the BLM's preferred alternative in the EA.

Below are the legal descriptions of the public lands considered in the range of alternatives starting with the 70-acre parcel followed by the 45-acre parcel.
