TSA-approved 3PK9-C Certifiers may begin certifying canine teams to TSA standards effective November 1, 2018, and may continue to certify teams thereafter. SUPPLEMENTARY INFORMATION:

Background

TSA created the Third-Party Canine-Cargo (3PK9-C) Program, under TSA's regulations for Certified Cargo Screening Programs (CCSP), *see* 49 CFR part 1549, to provide an efficient and effective method for screening air cargo to TSA's standards. Under this program, third-party canine teams trained in explosives detection can be certified by a non-governmental entity, acting under the approval of TSA, as meeting TSA's certification standards. Certified 3PK9-C teams can be deployed to screen air cargo for aircraft operators, foreign air carriers, and other TSA-regulated parties operating under a TSA-approved or accepted security program.

On May 18, 2018, TSA published a notice in the **Federal Register** seeking applications from qualified persons interested in becoming an approved 3PK9-C Certifier under the 3PK9-C Program. *See* 83 FR 23287.

The CCSP-K9 security program will define the requirements that TSA-regulated canine explosives detection teams must meet when screening cargo for air carriers and screening facilities and will include eligibility requirements for canine explosives detection teams. These eligibility requirements for canine explosives detection teams include, but are not limited to, experience, education, vetting, and citizenship requirements for canine team handlers. These eligibility requirements for canine explosives detection teams are not contained in the 3PK9 Certifier Order. The 3PK9 Security Program and Order
