DEPARTMENT OF COMMERCE

Bureau of the Census

[Docket Number 180927898-8898-01]

Census Tracts for the 2020 Census— Final Criteria

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of final criteria and program implementation.

SUMMARY: Census tracts are relatively permanent small-area geographic divisions of a county or statistically equivalent entity defined for the tabulation and presentation of data from the decennial census and selected other statistical programs. The Census Bureau is publishing this notice in the **Federal Register** to announce final criteria for defining census tracts for the 2020 Census. Census tracts defined by these criteria will also be used to tabulate and publish estimates from the American Community Survey (ACS) and potentially data from other Bureau of the Census (Census Bureau) censuses and surveys. In addition to census tracts, the Participant Statistical Areas Program (PSAP) encompasses the review and update of census block groups, census designated places, and census county divisions.

DATES: This notice's final criteria will be applicable on December 13, 2018.

FOR FURTHER INFORMATION CONTACT: Requests for additional information on this proposed program should be directed to Vincent Osier at the Geographic Standards, Criteria, and Quality Branch, Geography Division, U.S. Census Bureau, via email at geo.psap.list@census.gov or telephone at 301-763-3056.

SUPPLEMENTARY INFORMATION:

Background

Census tracts are relatively permanent small-area geographic divisions of a county or statistically equivalent entity¹

¹For the Census Bureau's purposes, the term "county" includes parishes in Louisiana; boroughs, city and boroughs, municipalities, and census areas in Alaska; independent cities in Maryland, Missouri, Nevada, and Virginia; districts and islands in American Samoa; districts in the U.S. Virgin Islands; municipalities in the

defined for the tabulation and presentation of data from the decennial census and selected other statistical programs. The Census Bureau is publishing this notice in the **Federal Register** to announce final criteria for defining census tracts for the 2020 Census. Census tracts defined by these criteria will also be used to tabulate and publish estimates from the American Community Survey (ACS)² and potentially data from other Census Bureau censuses and surveys.

In addition to providing final criteria for census tracts, this notice contains a summary of comments received in response to proposed criteria published in the **Federal Register** on February 15, 2018 (83 FR 6941) as well as the Census Bureau's response to those comments. After publication of final criteria in the **Federal Register**, the Census Bureau will offer designated governments or organizations an opportunity to review and, if necessary, suggest updates to the boundaries and attributes of the census tracts in their geographic area through the Participant Statistical Areas Program (PSAP). The program also encompasses the review and update of census block groups, census designated places, and census county divisions.

I. History of Census Tracts

In 1905, Dr. Walter Laidlaw originated the concept of permanent, small geographic areas as a framework for studying change from one decennial census to another in neighborhoods within New York City. For the 1910 Census, eight cities—New York, Baltimore, Boston, Chicago, Cleveland, Philadelphia, Pittsburgh, and St. Louis—delineated census tracts (then termed "districts") for the first time. No additional jurisdictions delineated census tracts until just prior to the 1930 Census, when an additional ten cities chose to do so. The increased interest in census tracts for the 1930 Census is attributed to the promotional efforts of Howard Whipple Green, who was a statistician in Cleveland, Ohio, and later the chairman of the American Statistical Association's Committee on Census Enumeration Areas. For more than twenty-five years, Mr. Green strongly encouraged local citizens, via committees, to establish census tracts

Commonwealth of the Northern Mariana Islands; municipios in Puerto Rico; and the areas constituting the District of Columbia and Guam. This notice will refer to all these entities collectively as "counties".

²The ACS is conducted in the United States and in Puerto Rico. In Puerto Rico the survey is called the Puerto Rico Community Survey. For ease of discussion, throughout this document the term ACS is used to represent the surveys conducted in the United States and in Puerto Rico.
