DEPARTMENT OF JUSTICE

[OMB Number 1105–0025]

Agency Information Collection Activities: Proposed Collection; Comments Requested

ACTION: 30-Day notice of information collection under review: Federal Coal Lease Request.

The Department of Justice (DOJ), Antitrust Division (ATR), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the **Federal Register** Volume 83, Number 175, page 45685 on September 10, 2018, allowing for a 60 day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until December 17, 2018. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments (especially regarding the estimated public burden or associated response time), suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Jill Ptacek, Antitrust Division, United States Department of Justice, 450 5th Street NW, Suite 8000, Washington, DC 20530. Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- The quality, utility and clarity of the information to be collected; and

—How to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Federal Coal Lease Reserves.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Numbers: ATR-139 and ATR-140, Antitrust Division, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as brief abstract:* Primary: Business or other for Profit. Other: None. The Department of Justice evaluates the competitive impact of issuances, transfers and exchanges of federal coal leases. These forms seek information regarding a prospective coal lessee's existing coal reserves. The Department uses this information to determine whether the issuance, transfer or exchange of the federal coal lease is consistent with the antitrust laws.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond. It is estimated that 10 respondents will complete each form, with each response taking approximately two hours.

(6) An estimate of the total public burden (in hours) associated with the collection: There are an estimated 20 annual burden hours associated with this collection, in total.

If additional information is required, contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, Washington, DC 20530.

Dated: November 8, 2018.

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations Part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or

other mine if the Secretary of Labor (Secretary) determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. That the application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

II. Petition for Modification

Docket Number: M-2018-019-C.
Petitioner: Knight Hawk Coal, LLC, 1710 State Route 154, Pinckneyville, Illinois 62274.

Mine: Prairie Eagle Underground Mine, MSHA I.D. No. 11-03147, located in Perry County, Illinois.

Regulation Affected: 30 CFR 75.500(d) (Permissible electric equipment).

Modification Request: The petitioner requests a modification of the existing standard to permit the use of nonpermissible, low-voltage or battery-powered electronic testing and diagnostic equipment in or inby the last open crosscut.

The petitioner states that:

(1) The nonpermissible electronic testing and diagnostic equipment would be limited to laptop computers, oscilloscopes, vibration analysis machines, cable fault detectors, point temperature probes, infrared temperature devices, signal analyzer devices, ultrasonic measuring devices, electronic component testers, and electronic tachometers.

(2) Permissible, approved voltage measuring instruments will be used when possible.

(3) All other testing and diagnostic equipment used in or inby the last open crosscut will be permissible

(4) Other testing and diagnostic equipment may be used if approved in advance by MSHA's District office.

(5) All nonpermissible, low-voltage or battery-powered electronic testing and diagnostic equipment to be used in or inby the last open crosscut will be examined prior to use by a certified person to ensure equipment is being maintained in a safe operating condition.

(6) The results of such inspection will be recorded and retained for one year and made available to MSHA on request.

(7) A qualified person, as defined in 30 CFR 75.151, will continuously monitor for methane immediately before
