

has proven a violation of section 337: (1) Based on infringement of claims 1, 7, and 9 of the '359 patent; claims 15–17, and 19 of the '123 patent; and claims 11–13, 15, 17–19, and 21 of the '890 patent by Respondents Alison and Nano; and (2) based on infringement of claims 12, 15, and 16 of the '359 patent by Respondent Nano.

Specifically, with respect to the '359 patent, the Commission affirms with modifications the ALJ's constructions of the "lofty fibrous batting" limitation in claim 1 and the "about 1 to 20%" limitation in claim 9. The Commission modifies the ALJ's constructions of the additional limitation in claim 5 and the "the total surface area of that cross section" limitation in claim 12. Applying these claim constructions, the Commission affirms the ID's findings that Respondents infringe claims 1, 7 and 9, and that Respondent Nano infringes claims 12, 15, and 16, but reverses the ID's finding that Respondents infringe claim 5. The Commission also reverses the ID's finding that Aspen's domestic industry products practice claim 5, but affirms the ID's finding that Aspen's domestic industry products practice the other asserted claims of the '359 patent. The Commission further affirms with modifications the ID's findings that claims 1, 5, 7, 9, and 12 of the '359 patent are not anticipated by Ramamurthi and that claims 9 and 16 are not rendered obvious in view of Ramamurthi and other prior art. The Commission takes no position on the ID's findings on secondary considerations of nonobviousness,

With respect to the '123 patent and the '890 patent, the Commission affirms with modifications the ID's findings that claim 15 of the '123 patent and claims 11–13, 15, 17, and 21–23 of the '890 patent are not obvious in view of Ramamurthi and either Uchida or Yada. As with the '359 patent, the Commission takes no position on the ID's findings on secondary considerations of nonobviousness.

The Commission has determined that the appropriate form of relief is a limited exclusion order prohibiting the unlicensed entry of infringing composite aerogel insulation materials that are manufactured abroad by or on behalf of, or imported by or on behalf of Respondents or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns. The Commission has carefully considered the submissions of the parties and has determined that the public interest factors enumerated in section 337(d) do not preclude issuance of its order.

Finally, the Commission has determined that excluded composite aerogel insulation materials may be imported and sold in the United States during the period of Presidential review (19 U.S.C. 1337(j)) with the posting of a bond of one-hundred (100) percent of the entered value for all infringing products manufactured by, for, or on behalf of Respondents. The Commission's Order and Opinion were delivered to the President and to the United States Trade Representative on the day of their issuance.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

**SUPPLEMENTARY INFORMATION:** On September 15, 2017, the Commission instituted this investigation under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 ("section 337"), based on a complaint and an amended complaint filed by Aqua Shield, Inc. of West Babylon, NY ("Aqua Shield"). 82 FR 43402, 43402–03 (Sept. 15, 2017). The complaint, as amended, alleges a violation of section 337 by reason of infringement of certain claims of U.S. Patent No. U.S. Patent No. 6,637,160. On January 23, 2018, the presiding administrative law judge (Chief Judge Bullock) issued the ID, which grants the motion. The ID finds that the private parties' motion complies with Commission Rule 210.21(b), finding that the parties have provided a confidential and a public version of the Agreement, and also finding that the parties' motion states that "[t]here are no other agreements, written or oral, express or implied, regarding the subject matter of this Investigation." The ID further considers the public interest, as is required under Commission Rule 210.50(b)(2), and determines that the "termination of this Investigation does not impose any undue burdens on the public health and welfare, competitive conditions in the United States economy, production of like or directly competitive articles in the United States, or United States consumers." Accordingly, the ID grants the motion. No petitions for review of the ID were filed.

The Commission has determined not to review the ID. This investigation is terminated.
