

(a) Effective Date

This AD is effective November 23, 2018.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Bombardier, Inc., Model DHC-8-301, -311, and -315 airplanes, certificated in any category, serial numbers 100 through 672 inclusive.

(d) Subject

Air Transport Association (ATA) of America Code 52, Doors.

(e) Reason

This AD was prompted by reports indicating that the forward right-hand type I emergency exit door could not be opened during maintenance. An investigation determined that the exit door handle was jammed due to corroded center and lower shaft ball bearings. We are issuing this AD to address corrosion of the emergency exit door ball bearings, which could result in the inability to open the emergency exit door during an emergency evacuation and consequently impede airplane egress.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Revision of Maintenance or Inspection Program

Within 60 days after November 23, 2018 (the effective date of this AD): Revise the maintenance or inspection program, as applicable, to incorporate de Havilland Inc. Dash 8 Series 300 Maintenance Task Card Task Number 5220/12 ("Servicing of Forward RH Emergency Exit Mechanisms"), dated March 15, 2017; and Temporary Revision 52-042, dated April 10, 2018, to the DHC-8-300 Aircraft Maintenance Manual (AMM). The initial compliance time for doing the task is at the time specified in de Havilland Inc. Dash 8 Series 300 Maintenance Task Card Task Number 5220/12 ("Servicing of Forward RH Emergency Exit Mechanisms"), dated March 15, 2017, or within 60 days after November 23, 2018, whichever occurs later.

(h) Inspection and Replacement

Within 5,000 flight hours or 36 months, whichever occurs first, after November 23, 2018 (the effective date of this AD): Do a detailed inspection of all ball bearings of the forward right-hand type I emergency exit for corrosion, seal damage, and loss of lubricant; replace bearings as applicable; and apply corrosion inhibiting compound (CIC); in accordance with the Accomplishment Instructions of Bombardier Service Bulletin 8-52-65, dated July 26, 2017. Do all applicable replacements before further flight.

(i) No Alternative Actions or Intervals

After the maintenance or inspection program has been revised as required by paragraph (g) of this AD, no alternative actions (e.g., inspections) or intervals may be used unless the actions and intervals are approved as an alternative method of compliance (AMOC) in accordance with the

procedures specified in paragraph (j)(1) of this AD.

Navigation on the waterway is commercial and recreational.

From November 15, 2018 to February 15, 2019, the draw shall open for recreational vessels in accordance with the following schedule: Monday through Friday, 7 a.m. to 3:30 p.m., the draw need not open for the passage of recreational vessels except between 11 a.m. and noon when the draw shall open on signal when notice is given to the bridge tender. NPRM Notice of proposed rulemaking

§ Section

U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard routinely receives requests for fireworks displays in the Delaware River Adjacent to Penn's Landing in Philadelphia, Pennsylvania. As a result, the Coast Guard previously issued a rule creating a recurring safety zone location for this location, listed as entry (a)16 in the table to 33 CFR 165.506. That regulation lists possible days of anticipated enforcement as July 2nd, 3rd, 4th, or 5th; Columbus Day; December 31st, and January 1st. In recent years, however, the number of firework events at this location have significantly increased. To date in the year 2018 there have been 13 requests for fireworks events at this location—many more than the anticipated number of approximately 3 events covered by the current regulation. The additional requests fall outside the enforcement dates listed in the CFR. As a result, the Coast Guard had to issue numerous temporary safety zones to cover the additional events that fall outside of the coverage of the current regulation. In accordance with good cause exceptions found in 5 U.S.C. 553, the rules creating these temporary safety zones are generally not preceded by notice of proposed rulemaking due to the short lead-time often provided to the Coast Guard.

In response, on September 21, 2018, the Coast Guard published a notice of proposed rulemaking (NPRM) titled "Safety Zone; Penn's Landing Fireworks, Delaware River, Philadelphia PA" (83 FR 47852). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action. During the comment period that ended October 22, 2018, we received one comment.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The Captain of the Port Delaware Bay (COTP) has determined that potential hazards associated with the fireworks to be used in this type of display will be a safety concern for anyone within a 500 yard radius of the fireworks barge. The purpose of this rule is to ensure safety of vessels and the navigable waters in the safety zone before, during and after the scheduled event.
