ENVIRONMENTAL PROTECTION AGENCY

Proposed Information Collection Request; Comment Request; Transportation Conformity Determinations for Federally Funded and Approved Transportation Plans, Programs and Projects, EPA ICR No. 2130.06, OMB Control No. 2060–0561

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), “Transportation Conformity Determinations for Federally Funded and Approved Transportation Plans, Programs, and Projects” (EPA ICR No. 2130.06, OMB Control No. 2060–0561), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR.

DATES: Comments must be submitted on or before January 18, 2019.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Astrid Terry, Office of Transportation and Air Quality, Environmental Protection Agency, 2000 Traverwood Drive, Ann Arbor, MI 48105; telephone number: 734–214–4812; email address: terry.astri@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit https://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Transportation conformity is required under Clean Air Act section 176(c) (42 U.S.C. 7506(c)) to ensure that federally supported transportation activities are consistent with (“conform to”) the purpose of the state air quality implementation plan (SIP). Transportation activities include transportation plans, transportation improvement programs (TIPs), and federally funded or approved highway or transit projects. Conformity to the purpose of the SIP means that transportation activities will not cause or contribute to nonattainment for air quality violations, worsen existing violations, or delay timely attainment of the relevant national ambient air quality standards (NAAQS or “standards”) or interim milestones.

Transportation conformity applies under EPA’s conformity regulations at 40 CFR parts 51 and 93, subpart A, to areas that are designated nonattainment, and those redesignated to attainment after 1990 (“maintenance areas” with plans developed under Clean Air Act section 175A) for the following transportation-related criteria pollutants: Ozone, particulate matter (PM2.5 and PM10), carbon monoxide (CO), and nitrogen dioxide (NO2). EPA published the original transportation conformity rule on November 24, 1993 (58 FR 62188), and subsequently published several revisions. EPA develops the conformity regulations in coordination with the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA).

Transportation conformity determinations are required before federal approval or funding is given to certain types of transportation planning documents as well as non-exempt highway and transit projects. EPA considered the following in renewing the existing ICR:

• Burden estimates for transportation conformity determinations (including both regional and project-level) in current nonattainment and maintenance areas for the ozone, PM2.5, PM10, and CO NAAQS;
• Federal burden associated with EPA’s adequacy review process for submitted SIP motor vehicle emissions budgets that are to be used in conformity determinations;
• Efficiencies in areas making conformity determinations for multiple NAAQS;
• Differences in conformity resource needs in large and small metropolitan areas and isolated rural areas;
• Reduced burden from areas no longer determining conformity for the 1997 PM2.5 NAAQS due to revocation; 2
• Reduced burden from areas completing 20 years of maintenance for PM10, NO2 and CO NAAQS, at which time transportation conformity is no longer required; and,
• Increased burden due to areas being designated as nonattainment for the 2015 ozone NAAQS. 3

This ICR does not include burden associated with the general development of transportation planning

1 Some projects are exempt from all or certain conformity requirements; see 40 CFR 93.126, 93.127, and 93.128.
2 See 81 FR 58010 (published on August 24, 2016 and effective October 24, 2016).
3 See 83 FR 25776 (effective August 3, 2018) and 83 FR 35136 (effective September 24, 2018) for San Antonio, Texas.
