www.regulations.gov by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 550 12th Street SW, PCP, Room 9009, Washington, DC 20202–0023.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Kashka Kubzdela, 202–245–7377 or email NCES.Information.Collections@ed.gov.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand the Department’s information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimated burden accurate; (4) how can the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: High School and Beyond 2020 (HS&B:20) Base-Year Test Sampling and Recruitment
OMB Control Number: 1850–NEW
Type of Review: A new information collection.
Respondents/Affected Public: Individuals or Households.
Total Estimated Number of Annual Responses: 4,836.
Total Estimated Number of Annual Burden Hours: 2,728.
Abstract: The High School and Beyond 2020 study (HS&B:20) will be the sixth in a series of longitudinal studies at the high school level conducted by the National Center for Education Statistics (NCES), within the Institute of Education Sciences (IES) of the U.S. Department of Education. HS&B:20 will follow a nationally-representative sample of ninth grade students from the start of high school in the fall of 2020 to the spring of 2024 when most will be in twelfth grade. The study sample will be freshened in 2024 to create a nationally representative sample of twelfth-graders. A high school transcription collection and additional follow-up data collections beyond high school are also planned. The NCES secondary longitudinal studies examine issues such as students’ readiness for high school; the risk factors associated with dropping out of high school; high school completion; the transition into postsecondary education and access/choice of institution; the shift from school to work; and the pipeline into science, technology, engineering, and mathematics (STEM). They inform education policy by tracking long-term trends and elucidating relationships among student, family, and school characteristics and experiences.
HS&B:20 will follow the Middle Grades Longitudinal Study of 2017/18 (MGLS:2017) which followed the Early Childhood Longitudinal Study, Kindergarten Cohort of 2011 (ECLS–K:2011), thereby allowing for the study of all transitions from elementary school through high school and into higher education and/or the workforce.
HS&B:20 will include surveys of students, parents, students’ math teachers, counselors, and administrators. Students will also receive assessments in mathematics and reading, and be given a 2-minute vision test and a 10-minute hearing test. This request is to conduct, beginning in January 2019, state, school district, school, and parent recruitment activities, including collection of student rosters and selection of the base-year test sample in preparation for the HS&B:20 base-year field test, scheduled to take place in the fall of 2019. Approval for the base-year field test data collection and base-year full-scale sampling and recruitment activities will be requested in a separate submission in early 2019.
Dated: November 15, 2018.
Stephanie Valentine,
Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

[Docket No. EL19–8–000]
PJM Interconnection, L.L.C.; Notice of Filing

Take notice that on October 29, 2018, PJM Interconnection, L.L.C. (PJM), pursuant to sections 205 and 206 of the Federal Power Act (FPA), 16 U.S.C. 824e, filed proposed revisions to the Amended and Restated Operating Agreement of PJM (Operating Agreement) to amend the provisions relating to the recovery of major maintenance, inspection, and overhaul costs in the wholesale markets administered by PJM.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestors parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible online at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERConlineSupport@ferc.gov, or call (866) 208–3676 (toll free), For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on November 19, 2018.
DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission
[Docket No. IC19–5–000]

Commission Information Collection Activities (FERC–500); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC–500 (Application for License/Relicense and Exemption for Water Projects with More than 5 Megawatt Capacity).

DATES: Comments on the collection of information are due January 22, 2019.

ADDRESSES: You may submit comments (identified by Docket No. IC19–5–000) by either of the following methods:

• eFiling at Commission’s website: http://www.ferc.gov/docs-filing/docs-filing.asp.

• Mail/Hand Delivery/Courier: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: http://www.ferc.gov/help/submission-guide.asp. For user assistance, contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208–3676 (toll-free), or (202) 502–8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/download comments and issuances in this docket may do so at http://www.ferc.gov/docs-filing/docs-filing.asp.

FOR FURTHER INFORMATION CONTACT: Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502–8663, and fax at (202) 273–0873.

SUPPLEMENTARY INFORMATION:
Title: FERC–500, Application for License/Relicense and Exemption for Water Projects with More than 5 Megawatt Capacity.

OMB Control No.: 1902–0058

Abstract: Pursuant to the Federal Power Act, the Commission is authorized to issue licenses and exemptions to citizens of the United States, or to any corporation organized under the laws of United States or any State thereof, or to any State or municipality for the purpose of constructing, operating, and maintaining dams, water conduits, reservoirs, power houses, transmission lines, or other project works necessary or convenient for the development and improvement of navigation and for the development, transmission, and utilization of power across, along, from, or in any of the streams or other bodies of water over which Congress has jurisdiction under its authority to regulate commerce with foreign nations and among the several States, or upon any part of the public lands and reservations of the United States.

FERC–500 is an application (for water projects with more than 5 megawatt capacity) for a hydropower license or exemption. FERC–500 includes certain reporting requirements in 18 CFR 4, 5, 8, 16, 141, 154.15, and 292. Depending on the type of application, it may include project description, schedule, resource allocation, project operation, construction schedule, cost, and financing; and an environmental report. After an application is filed, the Federal agencies with responsibilities under the Federal Power Act (FPA) and other statutes, the States, Indian tribes, and other participants have opportunities to request additional studies and provide comments and recommendations.

Submittal of the FERC–500 application is necessary to fulfill the requirements of the FPA in order for the Commission to make the required finding that the proposal is economically, technically, and environmentally sound, and is best adapted to a comprehensive plan for improving/developing a waterway or waterways.

Type of Respondent: Applicants for major hydropower licenses or exemptions greater than 5 MW

Estimate of Annual Burden 3:
Applicants for licenses are required to include an estimate of their cost to prepare the license application, which would include nearly all of the reporting requirements in FERC–500.4 Because the requirements for an exemption application are largely the same as that of a license application, the license application costs are a good estimate of the exemption application costs and of the overall burden of preparing license and exemption applications for projects greater than 5 MW.

To estimate the burden, we used actual data reported by applicants for proposed projects greater than 5 MW filed in fiscal years (FY) 2016 through 2018, and averaged the reported license application costs. The results are presented in the table below.

---

1 There is a pending Notice of Proposed Rulemaking in Docket No. RM18–14–000 which proposes to make some changes to FERC–500. This notice does not reflect the proposed changes to FERC–500 due to Docket No. RM18–14.

2 Statutes include the Electric Consumers Protection Act (ECPA), the National Environmental Policy Act (NEPA), the Endangered Species Act, the Federal Water Pollution Control Amendments of 1972 (the Clean Water Act), and the Coastal Zone Management Act.

3 “Burden” is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to Title 5 Code of Federal Regulations 1320.3.

4 Exceptions would be 18 CFR 2.19, 4.201, 4.202, 4.303, 4.35, 8.1, 8.2, 16.19, 141.15, and 292.208, none of which directly relate to preparation of a license or exemption application for a project greater than 5 MW.
