regulations (50 CFR 17.22(b)(5) and 17.32(b)(5)) regarding conservation activities for the Morro shoulderband snail.

Applicants’ Proposed Activities

The applicants have applied for a permit for incidental take of the Morro shoulderband snail. Take is likely to occur in association with activities necessary to construct a single-family residence. The site contains 2.79 acres of suitable upland habitat for the Morro shoulderband snail, all of which is in critical habitat designated for the species. The HCP includes measures to minimize take of Morro shoulderband snail in the form of injury and mortality. Mitigation for unavoidable take of the species consists of the permanent protection of 1.37 acres of suitable and occupied onsite habitat as a conservation easement to be dedicated to the County of San Luis Obispo.

Our Preliminary Determination

The Service made a preliminary determination that issuance of the incidental take permit is neither a major Federal action that will significantly affect the quality of the human environment within the meaning of section 102(2)(C) of NEPA (42 U.S.C. 4321 et seq.), nor will it individually or cumulatively have more than a negligible effect on the species covered in the HCP. The Service considers the effects of the taking of the Morro shoulderband snail to be minor as the affected area is small (approximately 1.42 acres) and includes the permanent protection of 1.37 acres of suitable, occupied habitat in a conservation easement. Therefore, based on this preliminary determination, the permit qualifies for a categorical exclusion under NEPA.

Public Comments

If you wish to comment on the permit application, draft HCP, and associated documents, you may submit comments by one of the methods in ADDRESSES.

Determination

On the basis of the record † developed in the subject five-year review, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the order (the "Order") issued on August 25, 2013, finding a violation of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 ("section 337"). The complaint asserts claims 6, 35, 39, 46, and 128 of the '440 patent, and claim 22 of the '454 patent. The final ID finds no violation as to asserted claims 6, 35, and 39 of the '440 patent, and asserted claim 22 of the '454 patent. The final ID finds no violation as to asserted claims 1 and 8 of the '916, asserted claims 6, 35, and 39 of the '440 patent, and asserted claim 22 of the '454 patent. The final ID finds no violation as to asserted claims 1, 12, and 16 of the '128 patent, asserted claim 10 of the '241 patent, and asserted claims 37, 46, and 50 of the '440 patent.

In particular, the Final ID finds that asserted claims 1 and 8 of the '916 patent read on the accused products under the DOE. The Final ID also finds that asserted claims 1 and 8 are not invalid for obviousness under 35 U.S.C. 103. The Final ID further finds that Zeiss has satisfied the technical prong of the domestic industry requirement with respect to the '916 patent.

The Final ID finds that asserted claims 6, 35, 37, 39, 46, and 50 of the '440 patent read on the accused products. The Final ID also finds that asserted claim 37 is invalid as anticipated under 35 U.S.C. 102, but that asserted claims 6, 35, 39, 46, and
