AGENCY: Animal and Plant Health Inspection Service, Department of Agriculture.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) has submitted a Generic Information Collection Request (Generic ICR): “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” to OMB for approval under the Paperwork Reduction Act (PRA).

DATES: Comments must be submitted December 24, 2018.

ADDRESSES: Written comments may be submitted to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602.

FOR FURTHER INFORMATION CONTACT: To request additional information, please contact Ruth Brown (202) 720-8958.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The Agency received one comment in response to the 60-day notice published in the **Federal Register** of August 22, 2018 (83 FR 42459).

Title: Advance of Loan Funds and Budgetary Control and Related Burdens.

OMB Control Number: 0572-0015.

Summary of Collection: The Rural Utilities Service (RUS) is authorized by the Rural Electrification Act (RE Act) of 1936, as amended, "to make loans in several States and territories of the United States for rural electrification and for the purpose of furnishing and improving electric and telephone service in rural areas and to assist electric borrowers to implement demand side management, energy conservation programs, and on-grid and off-grid renewable energy systems." Borrowers will provide the agency with information that supports the use of the funds as well as identify the type of projects for which they will use the funds.

Need and use of the Information: RUS electric borrowers will submit RUS form 595 and 219. Form 595, Financial Requirement & Expenditure Statement, to request an advance of loan funds remaining for an existing approved loan and to report on the expenditure of previously advanced loan funds. Form 219, Inventory of Work Orders, serves as a connecting line and provides an audit trail that verifies the evidence supporting the propriety of expenditures for construction of retirement projects that supports the advance of funds. The information

Rural Utility Service

Title: 7 CFR 1773, Policy on Audits of RUS Borrowers.

OMB Control Number: 0572-0095.

Summary of Collection: Under the authority of the Rural Electrification Act of 1936 (ACT), as amended 7 U.S.C. 901 *et seq.*, the Administrator is authorized and empowered to make loans under certain specified circumstances for rural electrification and the furnishing of electric energy to persons in rural areas and for the purpose of furnishing and improving telephone service in rural areas. RUS, in representing the Federal Government as Mortgagee, relies on the information provided by the borrowers in their financial statements to make lending decisions as to borrowers' credit worthiness and to assure that loan funds are approved, advanced and disbursed for proper Act purposes. Borrowers are required to furnish a full and complete report of their financial condition, operations and cash flows, in form and substance satisfactory to RUS.

Need and Use of the Information: RUS will collect information to evaluate borrowers' financial performance, determine whether current loans are at financial risk, and determine the credit worthiness of future losses. If information is not collected, it would delay RUS' analysis of the borrowers' financial strength, thereby adversely impacting current lending decisions.

OMB Control Number: 0572-0147.

Summary of Collection: The 2008 Farm Bill (P.L. 110-246) authorized the Substantially Underserved Trust Area (SUTA) initiative. The SUTA initiative identifies the need and improves the availability of Rural Utility Service (RUS) programs to reach trust areas. The

initiative gives the Secretary of Agriculture certain discretionary authorities relating to financial assistance terms and conditions that can enhance the financing possibilities in areas that are underserved by certain RUS electric, water and waste, and telecom and broadband programs.

Need and use of the Information: RUS provides loan, loan guarantee and grant programs for rural electric, water and waste, and telecommunications and broadband infrastructure. Eligible applicants notify RUS in writing, at the time of application, that it seeks consideration under the requirements of 7 CFR 1700, subpart D. The data covered by this collection are those materials necessary to allow the agency to determine applicant and community eligibility, and an explanation and documentation of the high need for the benefits of the SUTA provisions.
