The components sourced from abroad include T-Piece/plastic pipes and stainless-steel flanges (duty rate ranges from 3.1 to 6.2%).

Movado Group, Inc. (Movado) submitted a notification of proposed production activity to the FTZ Board for its facility in Moonachie, New Jersey. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on January 31, 2018.

Movado's facility is located within Subzone 49J. The facility is used for the assembling of parts and components into finished watches and clocks, as

well as kitting activities involving watches and jewelry. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Movado from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status components noted below, Movado would be able to choose the duty rates during customs entry procedures that apply to wrist watches, travel clocks, and electrically operated alarm clocks (duty rate ranges from duty-free to 27.8%). Movado would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.
