

This matching program meets these requirements.

Barbara Demopolus,

CMS Privacy Advisor, Information Security and Privacy Group, Division of Security, Privacy Policy and Governance, Office of Information Technology, Centers for Medicare & Medicaid Services.

Participating Agencies

Department of Health and Human Services (HHS), Centers for Medicare & Medicaid Services (CMS), and the Peace Corps.

Authority for Conducting the Matching Program

The statutory authority for the matching program is 42 U.S.C. 18001, *et seq.*

Purpose(s)

The purpose of the matching program is to assist CMS in determining individuals' eligibility for financial assistance in paying for private health insurance coverage. In this matching program, the Peace Corps provides CMS with data identifying all Peace Corps volunteers and the dates when each volunteer was eligible for coverage under a Peace Corps health benefit plan, which CMS and state administering entities (AEs) use to verify whether an individual who is applying for or is enrolled in private health insurance coverage under a qualified health plan through a federally-facilitated or state-based health insurance exchange is eligible for coverage under a Peace Corps health benefit plan. CMS makes the data provided by the Peace Corps available to AEs through a data services hub to use in determining the applicant's or enrollee's eligibility for financial assistance (including an advance tax credit and cost sharing reduction, which are types of insurance affordability programs) in paying for private health insurance coverage. Peace Corps health benefit plans provide minimum essential coverage, and eligibility for such plans usually precludes eligibility for financial assistance in paying for private coverage. The data provided by the Peace Corps under this matching program will be used by CMS and AEs to authenticate identity, determine eligibility for financial assistance, and determine the amount of the financial assistance.

Categories of Individuals

The categories of individuals whose information is involved in the matching program are:

- Active and recently separated Peace Corps volunteers, identified in data CMS receives from the Peace Corps; and
- Consumers who apply for or are enrolled in private insurance coverage under a qualified health plan through a federally-facilitated health insurance exchange (and other relevant individuals, such as applicants' and enrollees' household members), whose records are matched against the data CMS receives from the Peace Corps.

Categories of Records

The categories of records which will be provided by the Peace Corps to CMS in this matching program are identity records and minimum essential coverage period records, consisting of these data elements:

1. Record type.
2. data record number.
3. social security number of Peace Corps volunteer.
4. last name of Peace Corps volunteer.
5. middle name of Peace Corps volunteer.
6. first name of Peace Corps volunteer.
7. gender of Peace Corps volunteer.
8. date of birth of Peace Corps volunteer.
9. Peace Corps volunteer coverage begin date.
10. Peace Corps volunteer actual end date.
11. Peace Corps volunteer projected coverage end date. CMS will not send any data about individual applicants/enrollees to the Peace Corps in order to receive this data about Peace Corps volunteers. The Peace Corps will send CMS a bulk file each day from Tuesday through Saturday, which will contain this data for all active Peace Corps volunteers and all Peace Corps volunteers who left service within the prior three months.

System(s) of Records

The records used in this matching program about Peace Corps volunteers will be disclosed to CMS from the Peace Corps system of records identified below, and will be matched against applicant/enrollee records in the CMS system of records identified below:

A. System of Records Maintained by CMS

- MCMS Health Insurance Exchanges System (HIX), CMS System No. 09-70-0560, last published in full at 78 FR 63211 (Oct. 23, 2013), as amended at 83 FR 6591 (Feb. 14, 2018).

B. System of Records Maintained by the Peace Corps

- Peace Corps Manual Section 897, Attachment B, PC-17 Volunteer

Applicant and Service Records System, 75 FR 53000 (Oct. 14, 2010). Routine use (i), which authorizes disclosure of records "to verify active or former Volunteer service," authorizes the Peace Corps' disclosures to CMS.
