SUPPLEMENTARY INFORMATION:

I. Background

In accordance with § 51.118 of title 10 of the *Code of Federal Regulations*, the

NRC is issuing the final Supplement 59 to the GEIS regarding the renewal of Entergy Operations, Inc. operating license NPF–38 for an additional 20 years of operation for WF3. Draft Supplement 59 to the GEIS was noticed by the NRC in the **Federal Register** on August 23, 2018 (83 FR 42713), and noticed by the Environmental Protection Agency on August 24, 2018 (83 FR 42892). The public comment period on draft Supplement 59 to the GEIS ended on October 9, 2018, and the comments received are addressed in final Supplement 59 to the GEIS.

II. Discussion

As discussed in Chapter 5 of the final Supplement 59 to the GEIS, the NRC determined that the adverse environmental impacts of license renewal for WF3 are not so great that preserving the option of license renewal for energy-planning decisionmakers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Entergy Operations Inc.; (3) consultation with Federal, State, local, and Tribal agencies; (4) the NRC staff's independent environmental review; and (5) consideration of public comments received during the scoping process and on the draft supplemental environmental impact statement.

Dated at Rockville, Maryland, this 20th day of November, 2018.

For the Nuclear Regulatory Commission. Emmanuel C. Sayoc,

Acting Chief, License Renewal Projects Branch, Division of Materials and License Renewal, Office of Nuclear Reactor Regulation.

Omaha Public Power District, Fort Calhoun Station, Unit No. 1, Partial Site Release

AGENCY: Nuclear Regulatory Commission.

ACTION: Partial site release; public meeting and request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering two requests from the Omaha Public Power District (OPPD) to approve the release of land areas, under the control of the NRC power reactor license for the Fort
