OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Agency Information Collection Activities: Extension of Information Collection; Comment Request

AGENCY: Office of the Director of National Intelligence (ODNI).

ACTION: Notice.

SUMMARY: In December 2011, the ODNI accepted responsibility from the Information Security Oversight Office (ISOO) to manage the Standard Form 714, *Financial Disclosure Report*, in accordance with the responsibilities assigned to the Director of National Intelligence (DNI) as the Security Executive Agent. The Standard Form 714 is used across the U.S. Government for assessing an individual's eligibility (or continued eligibility) for access to certain types of classified information. This standard form must be completed and submitted as a condition for access to designated classified information,

along with a favorably adjudicated personnel security background investigation or reinvestigation. Accordingly, the ODNI is seeking to extend the current version of the Standard Form 714 for three additional years from its scheduled expiration on 28 February 2018. The ODNI proposed no changes to the Standard Form 714 and its instructions at this time.

DATES: Written comments must be received on or before March 14, 2018 to be assured of consideration.

ADDRESSES: Comments should be sent to: dni-foia@dni.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection and supporting statements should be directed to Ms. Patricia Gaviria, Director of the Information Management Division, Policy and Strategy, Office of the Director of National Intelligence, Washington, DC 20511; 301-243-1054.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), the ODNI is requesting extension in effect of Standard Form 714, proposing no changes to the Form and its instructions at this time. The ODNI invites the general public and other Federal agencies to comment on Standard Form 714. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection reflected in the Standard Form 714 meets the intent of section 1.3 ("Financial Disclosure") of Executive Order 12968, as amended ("Access to Classified Information"); (b) the accuracy of the estimated burden of the proposed information collection for Standard Form 714; (c) ways to enhance the quality, utility, and clarity of the information to be collected in the Standard Form 714; (d) ways, including the use of information technology, to minimize the burden of the collection of information on all respondents to the Standard Form 714; and (e) whether small businesses are affected by this collection. The comments that are submitted will be summarized and included in the ODNI request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record.

Abstract: The National Security Act of 1947, as amended; section 3001 of the Intelligence Reform and Terrorism Prevention Act of 2004; and Executive Order 13467, "Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information," as amended, authorize the

DNI, as the Security Executive Agent, to develop standard forms, including a standard financial disclosure form, that promotes uniformity and consistency in the implementation of the Government's security programs. The Standard Form 714 contains information that is used to assist in making eligibility determinations for access to specifically designated classified information pursuant to Executive Order 12968, as amended, "Access to Classified Information." The data may later be used as part of a review process to evaluate continued eligibility for access to such specifically designated classified information or as evidence in legal proceedings. In addition, law enforcement entities may use this data where pertinent to appropriate investigatory activity.

Respondent burden data follows below:

Title: Financial Disclosure Report.
OMB number: 3440-0001.
Agency form number: Standard Form 714.

Type of review: Regular.
Affected public: Business or other for-profit.

Estimated number of respondents: 86,000.

Estimated time per response: 2 hours.
Frequency of response: Annually.
Estimated total annual burden hours: 172,000 hours.

Dated: February 2, 2018.

Patricia A. Lewis,

Acting Chief Management Officer.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification request.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by March 14, 2018. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, at the above address, 703-292-8030, or ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2015-011) to Ari Friedlaender on December 3, 2014. The issued permit allows the permit holder to take biopsy samples and photographs for identification of humpback (n = 200 biopsy & photo-ID), Antarctic minke (n = 50 biopsy; 200 photo-ID), killer (n = 50; 200 photo-ID), and Arnoux's beaked (n = 50; 200 photo-ID) whales in the Southern Ocean. The permit also allowed for 10 satellite-tagging takes of humpback whales.

A recent modification to this permit, dated December 31, 2015, permitted the applicant to increase the number of satellite-tagging takes of humpback whales to 20 and to add 10 dart tag takes and 20 suction cup tag takes for both humpbacks and Antarctic minke whales. Now the permit holder proposes a modification to his permit to increase biopsy takes to 250 for all four whale species listed on the original permit. Of those 250 biopsy takes, 50 would be associated with approaches that would also include tagging and the remaining 200 biopsy takes would occur during approaches that do not involve tagging. The proposed modification would also increase the number of dart tags takes of humpback whales (from 10 to 30) and Antarctic minke whales (from 10 to 20) and increase the number of suction cup tagging takes of Antarctic minke whales from 20 to 30. In addition, the permit

holder proposes to add takes for dart tagging (n = 10) and suction cup tagging (n = 40) of Arnoux's beaked whales as well as 50 suction cup tagging takes for killer whales. Finally, the permit holder would add southern right whales to his ACA permit and is requesting 250 biopsy takes, 200 photo-ID takes, and 50 suction cup tagging takes for this species. This ACA permit modification would increase the consistency of takes with those allowed under the most recent amendment of National Marine Fisheries Service Permit No. 14809-03 on which the ACA permit holder is an approved Co-Investigator.

Location: Antarctic Peninsula between Marguerite Bay and the Gerlache Strait, inshore waters.

Dates of Permitted Activities: March 1–December 31, 2018.

Nadene G. Kennedy,

Polar Coordination Specialist, Office of Polar Programs.

NUCLEAR REGULATORY COMMISSION

[NRC-2018-0023]

Qualification and Training of Personnel for Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft regulatory guide; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft regulatory guide (DG), DG-1329, "Qualification and Training of Personnel for Nuclear Power Plants." The proposed revision describes methods acceptable to the NRC staff for complying with those portions of the Commission's regulations associated with the selection, qualifications, and training for nuclear power plant personnel. This proposed guide, Revision 4, updates the guidance with additional experience gained since Revision 3 was issued in 2000 by endorsing ANSI/ANS 3.1 2014, "Selection, Qualification and Training of Personnel for Nuclear Power Plants."

DATES: Submit comments by April 13, 2018. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or
