n. Scoping Process

The Commission intends to prepare an environmental assessment (EA) in cooperation with the Corps ¹ on the project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meetings

FERC staff will conduct one agency scoping meeting and one public meeting. The agency scoping meeting will focus on resource agency and nongovernmental organization (NGO) concerns, while the public scoping meeting is primarily for public input. All interested individuals, organizations, and agencies are invited to attend one or both of the meetings, and to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EA. The times and locations of these meetings are as follows:

Agency Scoping Meeting

Date: March 7, 2018. Time: 9:00 a.m. (PST). Place: Howard's on the River. Address: 245 Lakeshore Drive, Pateros, WA 98846.

Public Scoping Meeting

Date: March 7, 2018. *Time:* 6:00 p.m. (PST). *Place:* Howard's on the River. *Address:* 245 Lakeshore Drive, Pateros. WA 98846.

Copies of the Scoping Document (SD1) outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list. Copies of the SD1 will be available at the scoping meeting or may be viewed on the web at *http:// www.ferc.gov* using the eLibrary link (see item m above).

Environmental Site Review

The Applicant and FERC staff will conduct a project environmental site

review beginning at 9:00 a.m. on March 8, 2018. All interested individuals, organizations, and agencies are invited to attend. All participants should meet at the Quick-E Mart parking lot at 2606 Foster Creek Ave., Bridgeport, WA 98813. All participants are responsible for their own transportation to the site. Anyone with questions about the site review should contact JT Steenkamp at (403) 384–7517 or email at *jt.steenkamp@shell.com.*

Objectives

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the EA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings are recorded by a stenographer and become part of the formal record of the Commission proceeding on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in the EA.
