§ 156.50 Financial support.

(d) * * * * * * * * * *  
(3) If the requirements set forth in paragraph (d)(2) of this section are met, the participating issuer will be provided a reduction in its obligation to pay the Federally-facilitated Exchange user fee specified in paragraph (c) of this section equal in value to the sum of the following:

(i) The total dollar amount of the payments for contraceptive services submitted by the applicable third-party administrators, as described in paragraph (d)(2)(ii)(D) of this section; and

(ii) An allowance for administrative costs and margin. The allowance will be no less than 10 percent of the total dollar amount of the payments for contraceptive services specified in paragraph (d)(3)(i) of this section. HHS will specify the allowance for a particular calendar year in the annual HHS notice of benefit and payment parameters.

(4) If the amount of the adjustment under paragraph (d)(3) of this section is greater than the amount of the participating issuer’s obligation to pay the Federally-facilitated Exchange user fee in a particular month, the participating issuer will be provided a credit in succeeding months in the amount of the excess.

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

48 CFR Parts 212, 225, and 252  
[Docket DARS–2018–0028]
RIN 0750–AJ71

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement a section of the National Defense Authorization Act for Fiscal Year 2018 that repeals the Fiscal Year 2015 restrictions on the source of photovoltaic devices in contracts awarded by DoD that result in DoD ownership of photovoltaic devices by means other than DoD purchase of the photovoltaic devices as end products.

DATES: Effective December 5, 2018.

FOR FURTHER INFORMATION CONTACT: Ms. Amy G. Williams, telephone 571–372–6106.

SUPPLEMENTARY INFORMATION:

I. Background

DoD published a proposed rule in the Federal Register at 83 FR 42832 on August 24, 2018, to implement section 813(b) of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2018 (Pub. L. 115–91). Section 813(b) repeals section 858 of the NDAA for FY 2015 (Pub. L. 113–291), but does not repeal section 846 of the NDAA for FY 2011 (Pub. L. 111–383), with regard to sources of photovoltaic devices purchased by contractors that become property of DoD. There were no public comments submitted in response to the proposed rule. There are no changes from the proposed rule in the final rule.

II. Applicability to Contracts at or Below the Simplified Acquisition Threshold and for Commercial Items, Including Commercially Available Off-the-Shelf Items

This rule does not affect the applicability of DFARS clause 252.225–7017, Photovoltaic Devices, and DFARS provision 252.225–7018, Photovoltaic Devices—Certification. A determination was signed by the Director, Defense Procurement and Acquisition Policy, on October 13, 2011, to not apply the requirements of section 846 of the NDAA for FY 2011 to contracts at or below the simplified acquisition threshold, but to apply the rule to contracts for the acquisition of commercial items, including commercially available off-the-shelf items.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic,

contained in this final rule do not pertain to hospitals.

Section 202 of the Unfunded Mandates Reform Act of 1995 also requires that agencies assess anticipated costs and benefits before issuing any rule that may result in expenditure in any 1 year by state, local, or tribal governments, in the aggregate, or by the private sector, of $100 million in 1995 dollars, updated annually for inflation. In 2018, that threshold is approximately $150 million. HHS anticipates this rule would not impact state governments or the private sector.

Executive Order 13132 establishes certain requirements that an agency must meet when it issues a proposed rule (and subsequent final rule) that imposes substantial direct requirement costs on state and local governments, preempts state law, or otherwise has federalism implications. HHS does not anticipate this rule would impose direct requirement costs on state or local governments, preempt state law, or otherwise have federalism implications.

List of Subjects in 45 CFR Part 156

Administrative appeals, Administrative practice and procedure, Advertising, Advisory Committees, American Indian/Alaska Natives, Brokers, Conflict of interest, Consumer protection, Cost-sharing reductions, Grant programs-health, Grants administration, Health care, Health insurance, Health maintenance organization (HMO), Health records, Hospitals, Individuals with disabilities, Loan programs-health, Organization and functions (Government agencies), Medicaid, Payment and collections reports, Public assistance programs, Reporting and recordkeeping requirements, State and local governments, Sunshine Act, Taxes, Technical assistance, Women, and Youth.

For the reasons set forth in the preamble, the Department of Health and Human Services amends 45 CFR part 156 as set forth below:

PART 156—HEALTH INSURANCE ISSUER STANDARDS UNDER THE AFFORDABLE CARE ACT, INCLUDING STANDARDS RELATED TO EXCHANGES

1. The authority citation for part 156 is revised to read as follows:

2. Section 156.50 is amended by revising paragraphs (d)(3) and (4) to read as follows:
environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Executive Order 13771

This rule is not an E.O. 13771 regulatory action, because this final rule is not significant under E.O. 12866.

V. Regulatory Flexibility Act

A final regulatory flexibility analysis (FRFA) has been prepared consistent with the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. The FRFA is summarized as follows:

This rule implements section 813(b) of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2018 (Pub. L. 115–91), which repealed of section 858 of the National Defense Authorization Act (NDAA) for FY 2015 (Pub. L. 113–291), while retaining the requirements of section 846 of the NDAAA for FY 2011 (Pub. L. 111–383), with regard to sources of photovoltaic devices purchased by contractors that become the property of DoD.

The objective of this rule is to revert to the regulations on photovoltaic devices that were in effect prior to superimposing the additional regulations required by section 858 on November 20, 2015 (80 FR 72599). By restoring the tie to the Buy American statute, this rule reinstates the Buy American exceptions for acquisitions of photovoltaic devices below the micro-purchase threshold, nonavailability, unreasonable cost, and public interest, including the DoD class determinations that exempt U.S.-made and qualifying country photovoltaic devices from the requirements of the Buy American statute, as well as the Governmentwide determination that removes the component test for commercially available off-the-shelf items.

No significant issues were raised by the public comments in response to the initial regulatory flexibility analysis. No public comments were received.

This rule generally applies at the prime contract level to other than small entities. When purchasing renewable energy generation via onsite photovoltaic devices, DoD can either purchase the photovoltaic devices and thereby own, operate, and maintain the devices for their full economic life (already covered in DFARS part 225 under standard Buy American statute/Trade Agreements regulations) or, for example, may do some variation of the following:

a. Enter into an energy savings performance contract, which is a contracting method in which the contractor provides capital to facilitate energy conservation measures and maintains them in exchange for a portion of the energy savings generated. Under this arrangement, the Government would take title to the devices during contract performance or at the conclusion of the contract. For example, DoD uses either the master indefinite delivery-indefinite quantity contract of the Department of Energy or the Army Corps of Engineers and awards task orders off one of those contracts. Generally, the same approved contractors are on each contract. Of the approved contractors, all but one are large businesses. There are subcontracting goals that each contractor has to meet, but the ultimate task order award is most often made to a large business.

b. Enter into a power purchase agreement, also referred to as a utility service contract, for the purchase of the power output of photovoltaic devices that are installed on DoD land or buildings, but owned, operated, and maintained by the contractor. At the conclusion of the contract, DoD would either require the contractor to dismantle and remove the photovoltaic equipment or abandon the equipment in place. Prime contractors for this type of contract would generally be large businesses, based on the capital costs involved in these projects. However, many developers tend to subcontract out the majority of the work to smaller companies.

There are approximately 80 manufacturers of photovoltaic devices. We do not currently have data available on whether any of the manufacturers of photovoltaic devices are small entities, because the Federal Procurement Data System does not collect such data on subcontractors.

There are no new reporting burdens under this rule. In fact, there is a de minimis reduction in burden, because no certification will be required if the value of the photovoltaic devices does not exceed the micro-purchase threshold, and identification of country of origin will no longer be required if the photovoltaic devices are domestic or U.S.-made. Furthermore, since the prime contractors subject to this rule are other than small businesses, the existing reporting requirements do not impact small entities.

DoD did not identify any significant alternatives that meet the requirements of the statute and would have less impact on small entities. The overall effect of this rule is deregulatory and it does not have significant impact on small entities.

VI. Paperwork Reduction Act

The rule contains information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C chapter 35); however, these changes to the DFARS do not impose additional information collection requirements to the paperwork burden previously approved under OMB Control Number 0704–0229, entitled “Defense Federal Acquisition Regulation Supplement (DFARS) Part 225, Foreign Acquisition, and related clauses at DFARS 252.225.”

List of Subjects in 48 CFR Parts 212, 225, and 252

Government procurement.

Jennifer Lee Hawes,
Regulatory Control Officer, Defense Acquisition Regulations System.

Therefore, 48 CFR parts 212, 225, and 252 are amended as follows:

1. The authority citation for 48 CFR parts 212, 225, and 252 continues to read as follows:

PART 212—ACQUISITION OF COMMERCIAL ITEMS

2. Amend section 212.301 by revising paragraphs (f)(ix)(J) and (K) to read as follows:

212.301 Solicitation provisions and contract clauses for the acquisition of commercial items. * * * * * (f) * * * (ix) * * * (J) Use the clause at 252.225–7017, Photovoltaic Devices, as prescribed in 225.7017–4(a), to comply with section 846 of Public Law 111–383.

(K) Use the provision at 252.225–7018, Photovoltaic Devices—Certificate, as prescribed in 225.7017–4(b), to comply with section 846 of Public Law 111–383.

PART 225—FOREIGN ACQUISITION

3. Amend section 225.7017–1 by revising the definitions of “covered contract” and “domestic photovoltaic device” to read as follows:

* * * * *
225.7017–1 Definitions.

Covered contract means an energy savings performance contract, a utility services contract, or a private housing contract awarded by DoD, to be performed in the United States, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products. DoD is deemed to own a photovoltaic device if the device is—

(1) Installed in the United States on DoD property or in a facility owned by DoD; and

(2) Reserved for the exclusive use of DoD in the United States for the full economic life of the device.

Domestic photovoltaic device means a photovoltaic device that is manufactured in the United States.

4. Revise section 225.7017–2 to read as follows:

225.7017–2 Restriction.

5. Revise section 225.7017–3 to read as follows:

225.7017–3 Exceptions.

DoD requires the contractor to utilize domestic photovoltaic devices in covered contracts that exceed the simplified acquisition threshold, with the following exceptions:

(a) Qualifying country. Qualifying country photovoltaic devices may be utilized in any covered contract, because 225.103(a)(1)(A) provides an exception to the Buy American statute because 225.103(a)(1)(A) provides an exception to the Buy American statute, and adding “domestic photovoltaic device as specified, or,” in its place; and

ii. In paragraph (c)(2), removing “photovoltaic device as specified, or,” and adding “photovoltaic device, or,” in its place; and

iii. Revising paragraphs (c)(3), (4), and (5).

The revisions read as follows:

(a) * * *

Domestic photovoltaic device means a photovoltaic device that is manufactured in the United States.

(c) * * *

(1) More than the micro-purchase threshold but less than $25,000, then the Contractor shall utilize only domestic photovoltaic devices, unless, in its offer, it specified utilization of qualifying country or other foreign photovoltaic devices in paragraph (d)(2) of the Photovoltaic Devices—Certificate provision of the solicitation.

(3) $80,317 or more but less than $100,000, then the Contractor shall utilize under this contract only domestic photovoltaic devices, unless, in its offer, it specified utilization of Free Trade Agreement country photovoltaic devices (other than Bahrainian, Korean, Moroccan, Panamanian, or Peruvian photovoltaic devices), qualifying country photovoltaic devices, or foreign photovoltaic devices in paragraph (d)(4) of the Photovoltaic Devices—Certificate provision of the solicitation. If the Contractor certified in its offer that it will utilize a Free Trade Agreement country photovoltaic device (other than a Bahrainian, Korean, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device, then the Contractor shall utilize a Free Trade Agreement country photovoltaic device (other than a Bahrainian, Korean, Moroccan, Panamanian, or Peruvian photovoltaic device) under this contract, or foreign photovoltaic devices in paragraph (d)(4) of the Photovoltaic Devices—Certificate provision of the solicitation.

(ii) $100,000 or more but less than $180,000, then the Contractor shall utilize under this contract only domestic photovoltaic devices, unless, in its offer, it specified utilization of Free Trade Agreement country photovoltaic devices (other than Bahrainian, Moroccan, Panamanian, or Peruvian photovoltaic devices), qualifying country photovoltaic devices, or foreign photovoltaic devices in paragraph (d)(5) of the Photovoltaic Devices—Certificate provision of the solicitation.
its offer that it will utilize a Free Trade Agreement country photovoltaic device (other than a Bahrainian, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device, then the Contractor shall utilize a Free Trade Agreement country photovoltaic device (other than a Bahrainian, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device; or, at the Contractor’s option, a domestic photovoltaic device; or

(5) $180,000 or more, then the Contractor shall utilize under this contract only U.S.-made, designated country, or qualifying country photovoltaic devices.

* * * * *

9. Amend section 252.225–7018 by—

a. In the introductory text, removing “225.7017–5(b)” and adding “225.7017–4(b)” in its place;

b. Removing clause date “(JAN 2018)” and adding “(DEC 2018)” in its place;

c. Revising paragraphs (b)(1) and (2); and

d. Revising paragraphs (d)(1), (d)(2) introductory text, and (d)(3) through (6).

The revisions read as follows:

* * * * *

(b) * * *

(1) If more than the micro-purchase threshold but less than $180,000, then the Government will not accept an offer specifying the use of other foreign photovoltaic devices in paragraph (d)(2)(ii), (d)(3)(ii), (d)(4)(ii), or (d)(5)(ii) of this provision, unless the offeror documents to the satisfaction of the Contracting Officer that the price of the foreign photovoltaic device plus 50 percent is less than the price of a comparable domestic photovoltaic device.

(2) If more than the micro-purchase threshold but less than $180,000, then the Contractor may not utilize photovoltaic devices that are U.S.-made, qualifying country, or designated country photovoltaic devices.

(3) If $25,000 or more but less than $80,317—

(i) The offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

(ii) The offeror certifies that each photovoltaic device to be utilized in performance of the contract is a Canadian photovoltaic device or a qualifying country photovoltaic device; or

(iii) The foreign (other than Canadian or qualifying country) photovoltaic devices to be utilized in performance of the contract are the product of...

(4) If $80,317 or more but less than $100,000—

(i) The offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

(ii) The offeror certifies that each photovoltaic device to be utilized in performance of the contract is a Free Trade Agreement country photovoltaic device (other than a Bahrainian, Korean, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device; or

(iii) The foreign (other than Canadian or qualifying country) photovoltaic devices to be utilized in performance of the contract are the product of...

(5) If $100,000 or more but less than $180,000—

(i) The offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

(ii) The offeror certifies that each photovoltaic device to be utilized in performance of the contract is a Free Trade Agreement country photovoltaic device (other than a Bahrainian, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device; or

(iii) The offered foreign photovoltaic devices (other than those from countries listed in paragraph (d)(5)(ii) of this provision) are the product of...

(6) If $180,000 or more, the Offeror certifies that each photovoltaic device to be used in performance of the contract is—

(i) A U.S.-made photovoltaic device; or

(ii) A designated country photovoltaic device or a qualifying country photovoltaic device.

Defense Federal Acquisition Regulation Supplement: Documentation for Interagency Contracts (DFARS Case 2018–D073)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement a section of the National Defense Authorization Act for Fiscal Year 2019 that removes the requirement to make a best procurement approach determination to use an interagency acquisition.

FOR FURTHER INFORMATION CONTACT: Ms. Carrie Moore, telephone 571–372–6093.

SUPPLEMENTARY INFORMATION:

I. Background

DoD is amending the DFARS to implement section 875 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115–232). Section 875 amends section 865 of the NDAA for FY 2009 (Pub. L. 110–417) by removing the requirement for agencies,
