Light-Walled Rectangular Pipe and Tube From Turkey: Rescission of Antidumping Duty Administrative Review; 2017–2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is rescinding the administrative review of the antidumping duty order on light-walled rectangular pipe and tube (LWRPT) from Turkey for the period of review (POR) May 1, 2017, through April 30, 2018.

SUPPLEMENTAL INFORMATION:

Background

On May 1, 2018, Commerce published in the Federal Register a notice of opportunity to request an administrative review of the antidumping duty order on LWRPT from Turkey for the POR May 1, 2017, through April 30, 2018.\(^1\) On May 31, 2018, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), Noksel Celik Boru Sanayi A.S. (Noksel), requested a review of the order with respect to itself.\(^2\) On July 12, 2018, in accordance with section 751(a) of the Act and 19 CFR 351.221(c)(1)(i), Commerce initiated an administrative review of the antidumping duty order on LWRPT from Turkey with respect to Noksel.\(^3\) On August 7, 2018, Noksel timely withdrew its request for an administrative review of itself.\(^4\) No other party requested a review.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication date of the notice of initiation of the requested review. Noksel withdrew its request for review within the 90-day deadline. Because Commerce received no other requests for review of Noksel, and no other requests were made for a review of the antidumping duty order on LWRPT from Turkey with respect to other companies, we are rescinding the administrative review covering the POR May 1, 2017, through April 30, 2018, in full, in accordance with 19 CFR 351.213(d)(1).

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of LWRPT from Turkey during the May 1, 2017, through April 30, 2018, at rates equal to the cash deposit rate for estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after the date of publication of this notice in the Federal Register.

Notification to Importers

This notice serves as the only reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4).

James Maeder,
Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations performing the duties of Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION: On May 12, 2017, the CPSC published in the Federal Register a notice of proposed rulemaking (NPR) on a safety standard for table saw blade-contact injuries. 82 FR 22190. In January 2017, staff began collecting additional information on incident data identified in the National Electronic Injury Surveillance System (NEISS) for table saws to: (1) Obtain information regarding the type of table saws involved in the cases to generate national estimates by saw type and estimated risk of injury associated with each table saw type; (2) gain information regarding the type and usage pattern of the blade guard; and (3) collect additional injury and incident data.

On April 27, 2017, the Commission held a decisional hearing on the NPR. The Commission directed “staff to analyze and seek public comment on the Table Saw Study started in January 2017, based on the most appropriate time period that will generate information to determine a national estimate from NEISS incidents. Results will be published in the Federal Register for notice and comment as part of the docket for this rulemaking.”

CPSC staff has completed the report titled, Table Saw Blade-Contact Injuries Special Study Report, 2017. The report is available on the CPSC’s website at: https://www.cpsc.gov/Newsroom/FOIA/ReportList?field_nfr_type_value=commission, and in http://www.regulations.gov, under Supporting and Related Materials, docket number CPSC–2011–0074, and from the CPSC’s Division of the Secretariat, at the location listed in the ADDRESSES section of this notice.

The CPSC invites comments on the report. Comments should be submitted by February 4, 2019. Information on how to submit comments can be found in the ADDRESSES section of this notice.

Abioye Mosheim, Acting Secretary, Consumer Product Safety Commission.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Intent To Prepare a Draft Supplemental Environmental Impact Statement (DSEI) for the Haile Gold Mine in Lancaster County, South Carolina

AGENCY: U.S. Army Corps of Engineers, DoD

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers, Charleston District intends to prepare a Draft Supplemental Environmental Impact Statement (DSEIS) to assess the likely social, economic and environmental effects of the proposed expansion of an existing gold mine with the potential to impact Waters of the United States near Kershaw in Lancaster County, South Carolina. The DSEIS will assess potential effects of a range of alternatives.

DATES: Public Scoping Meeting: A public scoping meeting has not been scheduled; however, a local public notice will be issued by the Charleston District, and a meeting announcement will be published in local newspapers once the date and location for the scoping meeting has been determined.

ADDRESSES: Mr. Shawn Boone, Project Manager, Charleston District, Regulatory Division, 69–A Hagood Avenue, Charleston, SC 29403.

FOR FURTHER INFORMATION CONTACT: For further information and/or questions about the proposed mine expansion project and DSEIS, please contact Mr. Shawn Boone, Project Manager, by telephone: 843–329–8158, or toll-free 1–866–329–8187, or by mail: shawn.a.boone@usace.army.mil. For inquiries from the media, please contact the Corps, Charleston District Corporate Communications Officer (CCO), Ms. Glenn Jeffries by telephone: (843) 329–8123.

SUPPLEMENTARY INFORMATION: The Corps is evaluating a proposal from OceanacGold for the expanded development of the Haile Gold Mine in accordance with Corps regulations and the policies and procedures that are established in the National Environmental Policy Act (NEPA). Based on the available information, the Corps has determined that the expansion of the mine has the potential to significantly affect the quality of the human environment and therefore warrant the preparation of a Supplemental EIS. Additional information about the proposed project and the NEPA process is available on the project website at: www.hailegoldmineseis.com.

1. Description of Proposed Project. The Haile Gold Mine expansion plan (the proposed Project) includes the ore mining and processing operations that would recover gold and silver by excavating pits and underground deposits, storing excavated soils and overburden, processing the ore, managing surface water and ground water during operations, reclaiming the site at the end of operations, and monitoring site conditions post-mining. The site of the Project is currently an operating mine which was the subject of an Environmental Impact Statement published in 2014.

2. Alternatives. A range of alternatives to the proposed action will be identified, and those found to be reasonable alternatives will be fully evaluated in the DSEIS, including: The no-action alternative, the applicant’s proposed alternative, alternative site configurations, alternatives that may result in avoidance and minimization of impacts, and mitigation measures not in the proposed action. However, this list is not exclusive and additional alternatives may be considered for inclusion.
