BILLING CODE P
Rule 17f–4 contains two general conditions. First, a fund’s custodian must be obligated, at a minimum, to exercise due care in accordance with reasonable commercial standards in discharging its duty as a securities intermediary to obtain and thereafter maintain financial assets. If the fund deals directly with a depository, the depository’s contract or written rules for its participants must provide that the depository will meet similar obligations. All funds that deal directly with securities depositories in reliance on rule 17f–4 would have either modified their contracts with the relevant securities depository, or negotiated a modification in the securities depository’s written rules when the rule was amended. Therefore, we estimate there is no ongoing burden associated with this collection of information.5

Second, the custodian must provide, promptly upon request by the fund, such reports as are available about the internal accounting controls and financial strength of the custodian. If a fund deals directly with a depository, the depository’s contract with or written rules for its participants must provide that the depository will provide similar financial reports. Custodians and depositories usually transmit financial reports to funds twice each year.6 The Commission staff estimates that 49 custodians spend approximately 914 hours (by support staff) annually in transmitting such reports to funds.7 In addition, approximately 80 funds (i.e., two percent of all funds) deal directly with a securities depository and may request periodic reports from their depository. Commission staff estimates that depositories spend approximately 19 hours (by support staff) annually transmitting reports to the 80 funds.8 The total annual burden estimate for compliance with rule 17f–4’s reporting requirement is therefore 933 hours.9

If a fund deals directly with a securities depository, rule 17f–4 requires that the fund implement internal control systems reasonably designed to prevent an unauthorized officer’s instructions (by providing at least for the form, content, and means of giving, recording, and reviewing all officers’ instructions). All funds that seek to rely on rule 17f–4 should have already implemented these internal control systems when the rule was amended. Therefore, there is no ongoing burden associated with this collection of information requirement.10

Based on the foregoing, the Commission staff estimates that the total annual hour burden of the rule’s collection of information requirements is 933 hours.

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act. This estimate is not derived from a comprehensive or even representative survey or study of the costs of Commission rules.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid control number.

Written comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (b) the accuracy of the Commission’s estimate of the burden of the collections of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burdens of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to Charles Riddle, Acting Director/Chief Information Officer, Securities and Exchange Commission, C/O Candace Kenner, 100 F Street NE, Washington, DC 20549; or send an email to: PRA_Mailbox@sec.gov.

Dated: November 28, 2018.

Assistant Secretary.
