routine animal health management. A few events, such as infected-herd investigations, occur only a few times a year.

In addition, the bovine brucellosis program regulations in part 78 provide a system for classifying States or portions of States according to the rate of B. abortus infection present and the general effectiveness of a brucellosis control and eradication program. The program also provides for the creation of brucellosis management areas within a State and for testing and movement mitigation activities before regulated animals are permitted to move interstate. This system enhances the ability of States to move healthy, brucellosis-free cattle and bison interstate and internationally. This management area and testing system also enhances the effectiveness of the Brucellosis Eradication Program by decreasing the likelihood that infected animals will be moved interstate or internationally.

The creation of brucellosis management areas allows States that have found B. abortus in wildlife (which are nonregulated animals) to mitigate the risk of transmission and spread of disease while maintaining the State’s disease-free status in regulated domestic livestock. The State must sign a memorandum of understanding with the Administrator that describes its brucellosis management plan. The brucellosis management plan developed by the State must define the geographic brucellosis management area and describe the surveillance and mitigation activities that the State will conduct to identify occurrence of B. abortus in domestic livestock and wildlife and potential risks for spread of the disease.

We are asking Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

1. Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
2. Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.25 hours per response.

Respondents: Commercial livestock farm owners and managers; animal agriculture-related business owners and managers; private veterinarians; animal agriculture-related agencies and organizations; breed registry agencies; agriculture extension agents; fair and exhibition officials; owners, operators, and managers of livestock markets; owners, operators, and managers of slaughter establishments and dairy plants; and State animal health officials and laboratory personnel (including wildlife biologists).

Estimated annual number of respondents: 82,884.

Estimated annual number of responses per respondent: 12.

Estimated annual number of responses: 955,943.

Estimated total annual burden on respondents: 241,387 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of December 2018.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

Pursuant to the authority delegated to the FTZ Board’s Executive Secretary (15 CFR Sec. 400.36(f)), the application to establish Subzone 168F was approved on December 6, 2018, subject to the FTZ Act and the Board’s regulations, including Section 400.13, and further subject to FTZ 168’s 1,955.59-acre activation limit.

Dated: December 6, 2018.

Andrew McGilvray,
Executive Secretary.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE
Foreign-Trade Zones Board

[S–173–2018]

Approval of Subzone Status: BAUER-Pileco Inc., Conroe, Texas

On October 19, 2018, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the Port of Houston Authority, grantee of FTZ 84, requesting subzone status subject to the existing activation limit of FTZ 84, on behalf of BAUER-Pileco Inc., in Conroe, Texas.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the Federal Register inviting public comment (83 FR 53850, October 25, 2018). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval.

Pursuant to the authority delegated to the FTZ Board’s Executive Secretary (15 CFR Sec. 400.36(f)), the application to establish Subzone 84Z was approved on December 6, 2018, subject to the FTZ Act and the Board’s regulations, including Section 400.13, and further subject to FTZ 84’s 2,000-acre activation limit.

Dated: December 6, 2018.

Andrew McGilvray,
Executive Secretary.
