General description of reports: The Board is continuously seeking vendors who are interested in doing business with the Board through various outreach events, minority/diversity conferences, meetings, and events targeted to either a specific industry classification of vendors or an upcoming acquisition. Vendors are encouraged during these efforts to register in the Board's database of interested vendors (FR 1400A). In announcing an acquisition, Board staff contacts vendors registered in the Board database via electronic mail or by telephone, and provides the Solicitation Package (FR 1400B) and applicable

attachments. The Solicitation, Offer, and Award form (SOA) (Attachment A of FR 1400B) is required with proposals offered in response to a solicitation issued by the Board. The Supplier Information Form (Attachment N of FR 1400B) is required for the entry of a vendor into the Board's contract writing and invoice payment system. As a result of the criteria used by the Board to evaluate proposals, the Solicitation Package may also include the Past Performance Data Sheet and Past Performance Questionnaire (Attachment I of FR 1400B) if past performance is an evaluation factor. Typically, if past performance is considered an evaluation factor, the vendor is asked to submit information on up to three previous contracts whose effort is recent and relevant to the effort required by the solicitation.

Solicitations that require the vendor to process, store, or transmit data from the Board will contain the Vendor Risk Management Offeror Questionnaire (FR 1400C). The questionnaire will be specific to the security controls surrounding the vendor's proposed application that will be used to process, store, or transmit the data. Security controls will be defined and prioritized based on the Federal Information Security Modernization Act of 2014 (FISMA) and the National Institute of Standards and Technology (NIST) Special Publication 800-53 (Security Controls and Assessment Procedures for Federal Information Systems and Organizations). In addition, for solicitations that have subcontracting opportunities and are expected to exceed \$100,000 (\$300,000 for construction), a non-covered company vendor is required to submit a subcontracting plan in its own format, with its proposal. Then, if the vendor is the chosen vendor and awarded a contract, the vendor is required to provide the quarterly Subcontracting Reports (FR 1400D) to the Board, which shall document the vendor's participation achievement on a cumulative basis. Information from the Subcontracting Report is used to assist the Board in fulfilling the requirement in Section 342(e) of the Dodd-Frank Act that requires the Board to submit to Congress an annual report regarding the fair inclusion of minorities and women in contracting.

Legal authorization and confidentiality: The FR 1400A is voluntary. For prospective vendors that decide to submit proposals to the Board, the FR 1400B, 1400C, and 1400D are required to obtain a benefit, in order to be eligible for the award of a contract.

The FR 1400 is authorized pursuant to sections 10 and 11 of the Federal Reserve Act (“FRA”), and section 342(c) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank”). Sections 10(3) and 11 of the FRA (12 U.S.C. 243 and 248(l)) grant the Board full authority to manage its buildings and its staff. Section 10(4) of the FRA (12 U.S.C. 244) authorizes the Board to determine and prescribe the manner in which its obligations shall be incurred and its disbursements and expenses allowed and paid. Therefore, the Board can solicit proposals and seek the information in FR 1400 from prospective vendors.

Additionally, the FR 1400 is authorized by section 342(c) of Dodd-Frank (12 U.S.C. 5452(c)), which requires the Board to develop and implement standards and procedures for the review and evaluation of contract proposals and for hiring service providers that include a component that gives consideration to the diversity of a prospective vendor and the fair inclusion of women and minorities in the workforce of such vendor and any subcontractor.

A vendor generally may request confidential treatment for information submitted during the solicitation process, and the Board will review the request to determine if the data may be kept confidential under exemption 4 of the Freedom of Information Act, which protects from disclosure trade secrets and commercial or financial information (5 U.S.C. 552(b)(4)).

Current actions: On September 28, 2018, the Board published a notice in the **Federal Register** (83 FR 49092) requesting public comment for 60 days on the extension, with revision, of the Procurement Solicitation Package. To better assist the Board’s competitive vendor solicitation process, the Board has revised the FR 1400 by (1) reformatting and updating the Solicitation Package, including the Solicitation, Offer, and Award Form (SOA), Supplier Information Form, Past Performance Data Sheet, and Past Performance Questionnaire (FR 1400B); (2) adding the Vendor Risk Management Offeror Questionnaire (FR 1400C); and (3) revising the Subcontracting Report (FR 1400D) to improve clarity and gather specific information in accordance with the Board’s subcontracting goals. Lastly, the Board has discontinued the use of the Request

for Price Quotation Form (RFP/RFPQ). The purpose of the RFPQ form was absorbed into the FR 1400B. The comment period for this notice expired on November 27, 2018. The Board did not receive any comments. The revisions will be implemented as proposed.

Board of Governors of the Federal Reserve System, December 6, 2018.

Michele Taylor Fennell,
Assistant Secretary of the Board.

BILLING CODE 6210–01–P

FEDERAL RESERVE SYSTEM

[Docket No. OP–1640]

Regulation Q; Regulatory Capital Rules: Risk-Based Capital Surcharges for Global Systemically Important Bank Holding Companies

AGENCY: Board of Governors of the Federal Reserve System (Board).

ACTION: Notice.

SUMMARY: The Board is providing notice of the aggregate global indicator amounts for purposes of a calculation for 2018, which is required under the Board’s rule regarding risk-based capital surcharges for global systemically important bank holding companies (GSIB surcharge rule).

DATES: *Applicable:* December 12, 2018.

FOR FURTHER INFORMATION CONTACT: Elizabeth MacDonald, Manager, (202) 475–6316, or Sean Healey, Supervisory Financial Analyst, (202) 912–4611, Division of Supervision and Regulation; or Mark Buresh, Counsel, (202) 452–5270, or Mary Watkins, Senior Attorney, (202) 452–3722, Legal Division. Board of Governors of the Federal Reserve System, 20th and C Streets NW, Washington, DC 20551. For the hearing impaired only, Telecommunications Device for the Deaf (TDD) users may contact (202) 263–4869.

SUPPLEMENTARY INFORMATION: The Board’s GSIB surcharge rule establishes a methodology to identify global systemically important bank holding companies in the United States (GSIBs) based on indicators that are correlated with systemic importance.¹ Under the GSIB surcharge rule, a firm must calculate its GSIB score using a specific formula (Method 1). Method 1 uses five

equally weighted categories that are correlated with systemic importance—size, interconnectedness, cross-jurisdictional activity, substitutability, and complexity—and subdivided into twelve systemic indicators. For each indicator, a firm divides its own measure of each systemic indicator by an aggregate global indicator amount. The firm’s Method 1 score is the sum of its weighted systemic indicator scores expressed in basis points. The GSIB surcharge for the firm is then the higher of the GSIB surcharge determined under Method 1 and a second method that weights size, interconnectedness, cross-jurisdictional activity, complexity, and a measure of a firm’s reliance on wholesale funding (instead of substitutability).²

The aggregate global indicator amounts used in the score calculation under Method 1 are based on data collected by the Basel Committee on Banking Supervision (BCBS). The BCBS amounts are determined based on the sum of the systemic indicator scores of the 75 largest U.S. and foreign banking organizations as measured by the BCBS, and any other banking organization that the BCBS includes in its sample total for that year. The BCBS publicly releases these values, denominated in euros, each year. Pursuant to the GSIB surcharge rule, the Board publishes the aggregate global indicator amounts each year as denominated in U.S. dollars using the euro-dollar exchange rate provided by the BCBS.³ Specifically, the Board multiplied each of the euro-denominated indicator amounts made publicly available by the BCBS by 1.1993, which was the daily euro to U.S. dollar spot rate on December 29, 2017, as published by the European Central Bank (available at <http://www.ecb.europa.eu/stats/eurofxref/index.en.html>).

The aggregate global indicator amounts for purposes of the 2018 Method 1 score calculation under § 217.404(b)(1)(i)(B) of the GSIB surcharge rule are:

² The second method (Method 2) uses similar inputs to those used in Method 1, but replaces the substitutability category with a measure of a firm’s use of short-term wholesale funding. In addition, Method 2 is calibrated differently from Method 1.
