

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Lori Parker, National Aeronautics and Space Administration, 300 E Street SW, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Lori Parker, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, (202) 358-1351.

SUPPLEMENTARY INFORMATION:

I. Abstract

Federal agencies are required by statute not to engage in discrimination on the bases of race, color, religion, sex, national origin, age, disability, genetic information, or retaliation. A federal employee, former employee, or job applicant who believes s/he was discriminated against has a right to file a complaint with the agency's office responsible for its Equal Employment Opportunity (EEO) programs. Federal agencies must offer pre-complaint counseling or EEO alternative dispute resolution (EEO ADR) to individuals who allege that they were discriminated against by the agency. If pre-complaint counseling or EEO ADR does not resolve the dispute(s), the individual can file a formal discrimination complaint with the agency's EEO office.

II. Methods of Collection

Title 29 of the Code of Federal Regulations (CFR) Part 1614 Section 104 requires agencies to establish procedures for processing individual and class complaints of discrimination that include the provisions contained in 29 CFR 1614.105 through 1614.110 and in § 1614.204, which are consistent with all other applicable Federal EEO regulations and complaint processing requirements contained in the Equal Employment Opportunity Commission (EEOC) Management Directives (MD).

When an individual decides to pursue the formal discrimination complaint process, EEOC MD 110 requires that the formal complaint must be:

- In writing;
- Specific with regard to the claim(s) that the individual raised in pre-complaint counseling and that the person wishes to pursue;
- Must be signed by the individual and/or his or her representative; and
- Must be filed within fifteen (15) calendar days from the date s/he receives the Notice of Right to File a Discrimination Complaint.

Consequently, NASA established NF-1355P form to ensure the individual who wishes to utilize the EEO process complies with the requirements listed above.

III. Data

Title: Formal Discrimination Complaint Form.

OMB Number: 2700-0163.

Type of Review: Extension of Existing Form.

Affected Public: Individuals who wish to file a formal discrimination complaint against NASA.

Estimated Number of Respondents: 60.

Estimated Time per Response: 30 minutes.

Estimated Total Annual Public Burden Hours: 30 hours.

Estimated Total Annual Government Cost: \$500.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Lori Parker,

NASA PRA Clearance Officer.

BILLING CODE 7510-13-P

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Establish an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request establishment and clearance of this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than three years.

DATES: Written comments on this notice must be received by April 23, 2018 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

For Additional Information, Contact: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Room W 18000, Alexandria, Virginia 22314; or send email to splimpto@nsf.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Instructions: Please submit one copy of your comments by only one method. All submissions received must include the agency name and collection name identified above for this information collection. Commenters are strongly encouraged to transmit their comments electronically via email. Comments, including any personal information provided become a matter of public record. They will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request.

SUPPLEMENTARY INFORMATION:

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of

information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title of Collection: Developing an Evaluation Framework and Pilot-Testing a Longitudinal Tracking System for REU Site Students.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Abstract

The National Science Foundation (NSF) seeks to develop and pilot test different approaches to collecting data electronically from one cohort of applicants to the Research Experiences for Undergraduates (REU) Program and track their program and career outcomes over time. The intent is for the pilot tests to provide information for NSF to select the most effective and least burdensome approach to collect data needed to monitor the Program, report to NSF leadership, and comply with a Congressional requirement.

The REU program was created in 1987 to strengthen the science, technology, engineering, and mathematics (STEM) workforce. Building on research experiences as “one of the most effective avenues for attracting students to and retaining them in science and engineering, and for preparing them for careers in these fields,” the program is designed to foster student research and promote diversity.

The main goal of the current study is to pilot test alternative approaches to collecting data required by Congress in the America COMPETES Reauthorization Act of 2010, which states that students in the REU program must “be tracked, for employment and continued matriculation in STEM fields, through receipt of the undergraduate degree and for at least three years thereafter” (Section 514[a][6] of Pub. L. 111-358). The legislation also mentions specific demographic characteristics of participants that need to be reported, such as gender, ethnicity, and enrollment in a two-year college. In addition to needing these data to report to Congress, NSF program officers and leadership need a more robust data system to enhance their efforts to monitor participation in the program and eventually to assess its effectiveness.

In addition to designing the system, the present study will pilot test different approaches to collecting data from a sample of REU Sites that volunteer to participate. By participating in this study, these Sites will have the

opportunity to experience the data collections first hand and provide feedback that will be used to determine which approach will be the most effective, most efficient, and least burdensome for possible future implementation across all REU Sites.

The pilot includes:

1. Testing a web-based system that includes two approaches to obtain basic student background and participation information:

- *Registration.* The registration will be designed to collect the basic demographic and contact information needed for analysis and tracking purposes. Students will be asked to register at a website through which they will obtain a unique ID. With this unique ID, they will then apply directly to the REU Sites using the existing Site application processes. Staff at REU Sites will use the IDs provided by students to record application decisions and participation status of admitted applicants.

- *Common Application.* The common application will replace existing REU Site applications among participating Sites for the 2019 cycle. It will enable students to apply to multiple Sites through one application. Students will first complete the REU Registration described above, and then proceed to the common application through which they will submit additional information commonly required by Sites as part of their applications, such as transcripts. Staff at REU Sites will use the system to provide information needed by potential applicants, retrieve applicant information, record application decisions and participation status among admitted applicants, and produce reports and run queries of data submitted by applicants to their Sites.

2. Obtaining and integrating educational and employment information. The study will follow the subset of rising seniors who participate in the REU program in 2019 (as seniors are the large majority of participants) to:

- Obtain educational outcomes information from the National Student Clearinghouse (NSC).

- Administer a survey to obtain information on employment outcomes (among those not enrolled in graduate school at the time of the survey).

3. Conducting site visits to a few REU Sites participating in the pilot to interview principal investigators and program administrators, and to conduct focus groups with REU students. The site visits will be used to elicit in-depth feedback on the registration and common application systems as well as the tools available for PIs to obtain data

and reports through the REU data system.

Estimate of Burden: At present, applications to the REU program are submitted yearly directly to each Site. For those participating in the registration pilot, it is estimated that applicants will spend 2 hours submitting basic information through the REU Data System and then complete the rest of their applications through the individual REU sites. For those participating in the common application pilot, it is estimated that each submission will take, on average, 12 hours. Reference writers are expected to take 0.5 hours to draft a letter in support of students' application to the program. It is estimated that REU Principal Investigators will spend 8.9 hours using the system to track applications.

Respondents: Individuals.

Estimated Number of Respondents: 30,455.

Estimated Total Annual Burden on Respondents: 96,130 hours.

Frequency of Responses: One round of pilot data collection.

Dated: February 9, 2018.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL TRANSPORTATION SAFETY BOARD

Sunshine Act Meeting

AGENDA

TIME AND DATE: 9:30 a.m., Tuesday, March 13, 2018

PLACE: NTSB Conference Center, 429 L'Enfant Plaza SW, Washington, DC 20594.

STATUS: The one item is open to the public.

MATTERS TO BE CONSIDERED:

56526 Railroad Accident Brief—Collision of Two Southwestern Railroad Freight Trains, Roswell, New Mexico, April 28, 2015.

NEWS MEDIA CONTACT: Telephone: (202) 314-6100.

The press and public may enter the NTSB Conference Center one hour prior to the meeting for set up and seating.

Individuals requesting specific accommodations should contact Rochelle McCallister at (202) 314-6305 or by email at Rochelle.McCallister@ntsb.gov by Wednesday, March 7, 2018. The public may view the meeting via a live or archived webcast by accessing a link under “News & Events” on the NTSB home page at www.ntsbt.gov.
